

FRENCH STUDENTS REORGANIZE CLUB

Society Will Hold Six Meetings During Year—First Is Called For Next Wednesday

PROFESSOR De VISMIE TO GIVE ORIGINAL LECTURE

The French Club of Mansour Al... will hold its regular meetings... Professor H. P. de Vismie...

"Y" GIVES RECEPTION TO 1928 CABINET MEMBERS

The reception of the freshman "Y" cabinet held last Monday night at the Hut was attended by approximately one hundred first year men.

This affair was the first attempt to assemble the men interested in the work of the Y. M. C. A. and marks the beginning of the yearling cabinet. The election of officers for the organization was held last night at the Cabinet's second meeting, but the results were received too late for publication.

H. E. Foulkrod '25 will have complete charge of the cabinet and will supervise its further organization. He is assisted by the sophomore cabinet, carried out the program for the yearling meeting.

BLUE AND WHITE RIFLE TEAM CANDIDATES HOLD DAILY PRACTICE SHOOT

With the beginning of daily practice, the Penn State rifle squad has bright prospects for another successful season. Five varsity men of last year are back, Captain J. K. Vessey '25, P. Wentworth '25, W. A. Richards '25, and E. C. Van Valin '25. Manager C. P. Montague '25 is working on the schedule and it is likely that Columbia, Harvard, Penn, Cornell, and Drexel will be included in the matches.

Several good men are still needed to complete the squad and candidates are urged to report immediately. The regular matches will begin about November twentieth and last until spring. About sixteen matches will be scheduled and it is the aim this year to have half of them fired from one position only and the other half fired from all four positions. A freshman team will be organized this year, but it probably will not be started until next semester.

Work on the new outdoor rifle range at Scotia will begin as soon as Colonel Bond's representative checks the boundaries. The range will not be used until spring, and no matches will be held on it until next fall. There will be rifle ranges of two, three, five, ten, six hundred yards; pistol ranges of fifteen, twenty-five and fifty yards; a continued inch machine gun target, and a practice target for the thirty-even millimeter gun.

THESPIANS SELECT PLAY FOR SEASON'S SHOWING

Name of Production Is Withheld Until Approval of Wayburn Studios Is Secured

Leaving on Sunday for New York City, Mr. Fishburn, a member of the Thespian Club, will take the manuscript selected for this year's presentation to the Ned Wayburn Studios for their approval. The name of the play will be withheld until after it has been approved. Arrangements will be completed and a contract drawn up to have Mr. Wayburn come to Penn State and personally direct the Thespian Club.

The manager of the Thespian Club has been working hard on the proposed Christmas trip for the 1921-1922 season. The Alumni and other organizations scattered all over Pennsylvania and several other states, especially New Jersey and Ohio, are very anxious to have the Thespian present their show in many cities. To date, Mr. Lee, the manager, has tentative arrangements for a Christmas trip to Harrisburg, Wilkes Barre, Scranton, a week in Philadelphia, Newark, Trenton, Passaic, N. J., and terminating with a two day performance in New York City. This will make a very attractive trip to all these fortunate enough to be selected in the cast, and will also make people more familiar with Penn State and what it is doing in the line of dramatics.

Arrangements made with Mr. Wayburn will have him and his casting director, Mr. Leo Morrison, come here the first week in November and cast the Thespian Show. The casting will be entirely chosen on a competitive basis and previous experience with the Thespian or membership in the Club will not count with Mr. Morrison.

POTATO DAY OBSERVED FOR FIRST TIME HERE

Demonstration Attended by Pennsylvania Growers—Dean R. L. Watts Gives Welcome

Several hundred potato growers of Pennsylvania assembled yesterday at Penn State for the observance of the first annual Potato Day. The program included demonstrations of harvesting and grading machinery in digging a portion of a fifty acre field on the College farms, digging and measuring tubers grown from seed of different sources, exhibits of varieties of tubers from growers throughout the State, and educational exhibits of diseases and insects.

The potato crop has made the most

MAJOR A. C. McBRIDE INSPECTS R. O. T. C. UNIT

On last Monday and Tuesday, Major A. C. McBride, from the Third Corps Area Headquarters, inspected the Penn State Division of the Reserve Officers Training Corps. Major McBride, who is Commanding General Staff Officer of the Third Corps Area, is now making an inspection tour covering the entire area.

During the last hour on Monday, Major McBride inspected the Penn State Regiment with particular attention to drilling, appearance, marching, organization, and formation. On Tuesday, all companies were looked over while drilling on the field.

A thorough inspection and inventory of ROTC property, store rooms, and records, concluded Major McBride's visit to the College. The report of the inspection has not as yet been received by Lieutenant Colonel McLaughlin, commanding officer at Penn State.

The matter of the selection of student officers is now under consideration. The officers seen on the drill field now are acting under temporary orders, the permanent appointments will be made in the near future, according to the Commandant. These appointments will be published in a later issue of the COLLEGIAN.

ALUMNI!

Here is an opportunity for every alumnus from the oldest grad who remembers when "Andy" Lytle superintended the construction of Old Main, down to the youngest graduate who has just come into the fold of loyal alumni, to renew acquaintance with his Alma Mater.

All of you remember the Penn State COLLEGIAN. Within recent years it has developed from a monthly magazine to a full-fledged semi-weekly newspaper that covers every phase of college life and student activities.

Think of the football season when the Nittany Lion will clash with the most formidable list of gridiron opponents that ever made up a football schedule. Surely you will want to follow the fortunes of Coach Bezdek and his warriors.

And sports are only one phase of college activity. "Presy" Thomas is still waging a valiant fight to put Penn State on the map, the building campaign is still in progress and the increase in enrollment is bringing about changes in student government and activities.

All of these events will be fully covered by the COLLEGIAN. The attached blank with two dollars and a quarter will bring the COLLEGIAN to you twice each week during the remainder of the college year.

Take this opportunity to get back in college.
