SERVICE STILL

Tomorrow morning, Penn State throws open its doors to thirty-five hundred men and women. Tomorrow morning, this institution begins its seventy-first year of service to the people of the Commonwealth...

The past year has witnessed many changes. 1925 sees Penn State without Dr. John M. Thomas, president of the College for four years and a man who placed the betterment of his institution first and himself second.

Penn State, like man, refuses to become stagnant. It desires to maintain a high position in the educational world and at the same time make progress along other lines.

STRICT ABSTINENCE—MAYBE

Results and accomplishments are the idols of the average "big men" of today. The methods employed in attaining the end are of little importance. Which reminds us of two centenarians. One, an inhabitant of Troy, New York, ascribes his longevity to strict abstinence.

Now let us turn to Penn State! The average student who has achieved no small amount of success in scholastic attainments often states that his accomplishments in this field of endeavor are the result of "strict abstinence" from college activities.

It would be as useless for us to side with either the Troy or New Jersey inhabitant as it would be to stand by the undergraciate who does or does not make activities a vital part of his college life.

FOUR NEW SPECIALISTS TEACH HOME ECONOMICS

Four new home economics specialists have been added to the extension force of State College. They replace former members of the staff who have gone away for advanced study or have become homemakers during the past few months.

Miss Jessie Higney comes to the extension force from Minnesota where she has had three years teaching experience, following graduation from the Iowa State college.

Miss Laura Reynolds, a graduate of Penn State college has been assigned to Schuylkill and Columbia counties with headquarters at Pottsville. She has taught for two years and has taken advanced study at Columbia university during the summer.

In Westmoreland and Fayette counties, Miss Pauline Flinchbaugh, a graduate of Penn State college with the class of 1925, is the new extension specialist in home economics. From Duluth, Minnesota, comes Miss Harpiny Hutchinson to take a place on the extension staff. Elsie Reed, who has been on a leave of absence for six months, has been assigned to Washington, Greene, and Beaver counties.

Notice Sophomore candidates for cheering staff report at Old Chapel, Wednesday, September sixteenth at seven o'clock.

COLLEGE POULTRY SHOW SLATED FOR NOVEMBER

The third annual state standard production poultry show will be staged at the Pennsylvania State College, November fifth, sixth and seventh, according to R. H. Strait, secretary.

Varieties eligible for the show include Banded Plymouth Rocks, White Plymouth Rocks, single-comb Rhode Island Reds, single-comb White Leghorns, single-comb Mottled Aenebas, and White Wyandotes in the egg producing classes, and Light Brahms, Cornish and Black Game in the meat classes. Entry fees will be 25 cents for a single bird or a dollar for a pen consisting of one male and four females. Varieties not listed will be eligible, for ribbons providing sufficient entries are made.

There will be a class for young capons and also one for old capons. The classes in egg and meat production will consist of cock, cockerel, hen, pullet, old hen, and young hen. A special class for hens producing more than 250 eggs a year will be a feature of the show this fall.

Silver loving cups, special ribbons, birds, magazines, and some cash prizes will be awarded winners. College teachers and extension specialists in the poultry department will be the judges. The college poultry department and the Poultry Club composed of students specializing in poultry work, will conduct the show. Last year's show was one of the largest in the country.

HALF OF AG. STUDENTS ARE PRODUCTS OF CITY

Statistics Show Those From Rural Districts Exceed Quota Thirty-nine Per Cent

Half of the 318 students entering the first year in Agriculture at Penn State last year were from rural districts, according to statistics compiled by the Agricultural School. The statistics show that 159 of the 318 students are from rural districts, which is 50 per cent of the total. This exceeds the quota of 39 per cent set by the State Department of Education. The statistics also show that 159 of the 318 students are from rural districts, which is 50 per cent of the total. This exceeds the quota of 39 per cent set by the State Department of Education.

The statistics also show that 159 of the 318 students are from rural districts, which is 50 per cent of the total. This exceeds the quota of 39 per cent set by the State Department of Education. The statistics also show that 159 of the 318 students are from rural districts, which is 50 per cent of the total. This exceeds the quota of 39 per cent set by the State Department of Education.

PROF. SCHWEITZER TOURS AS PENN. STATE REPRESENTATIVE

Prof. P. H. Schweitzer of the engineering experiment station will leave shortly for a visit to the various European research laboratories which are devoted to the investigation of engineering subjects. He will pay special attention to the development of the Diesel oil engine during his visit to France, Germany, Central Europe and England.

On September ninth, tenth and eleventh Professor N. C. Miller, head of the department of engineering extension and Professor J. O. Keller, head of the department of industrial engineering, will be at the annual meeting of the Pennsylvania Electric Association at Bedford Springs.

PENN STATE CONTINUES NIGHT MINING CLASSES

Night classes for a minor will be continued at the mining school at State College. The classes will be held at the State College of Mining and Metallurgy. The classes will be held at the State College of Mining and Metallurgy. The classes will be held at the State College of Mining and Metallurgy.
