

### EXTENSION STAFF EXPECTS BIG YEAR

Prof. Gaum Heads Committee in Charge of Department in Engineering School

### ENROLLMENT INCREASES IN EXTENSION BRANCHES

With Penn State alumni performing a major part of the work, the Engineering Extension staff has set for itself the goal of making this the most successful year in the history of the department and in the service of Penn State to the industries of the Keystone state.

Although the resignation of Prof. N. C. Miller places a heavy burden upon the remaining staff they have already shown a willingness to carry on and with Professor Gaum as chairman of an executive committee composed of Professors Davis, Chaffee '18, Elder '16 and Young '18 they will shoulder the extra burden.

In an editorial of the Engineering Extension News, Prof. C. G. Gaum says, "It is estimated that during Professor Miller's ten years here more than one hundred thousand shopmen have profited by his efforts and thousands of these will always remember him for the influence he had in moulding their futures. To say that his resignation is a loss to Penn State is not sufficient—the greatest loss is to the employed men of the Commonwealth."

"It is truly an unfortunate condition when a great state like this will refuse sufficient financial support to hold such men from being taken by other institutions. In his resignation Professor Miller states that he is leaving not only to receive a much larger salary but also with the expectation of a greater financial support for the work itself. Why can the state university of New Jersey offer him better opportunities than the state college of Pennsylvania?"

Although the resignation of the head of the Extension department interrupted the work, the attendance at the extension schools at Allentown, Wilkes-Barre, Scranton, Williamsport and Reading has increased to a gratifying extent. Despite the economic miners' strike, the enrollment during the past year reached 10,000, and at present there are more than seven hundred students in 2229 subject enrollments. The registration was in charge of M. A. Chaffee '18 assisted by D. C. Blanton '22 and E. N. Montague '25.

The extension schools bring special technical training within reach of those residing in the vicinity of the cities named and offer excellent opportunities to young men who are looking forward to an engineering career but who, by force of circumstance have been unable to attend college.

**Pittsburgh District**  
The popular foreman training course so widely used last year all over the state has taken fresh hold on the industries in the Pittsburgh district. The Verona Steel Castings company, the Peoples' Natural Gas company, the American Zinc company and many other prominent concerns are holding classes, while the West Pennsylvania Power company has five hundred men under the Penn State Engineering Extension and the U. S. Aluminum company has 150.

Through these schools, lectures and correspondence, the extension service conducts its activities. Recently Mr. Cathman and Professor Elder have been in the western section of the state for six weeks in the interest of home study promotion, while Professor Young's foreman ship organization work has kept him in the field practically all through the fall, particularly in the Pittsburgh district. Professor Davis, on his trip to extend an extension center addressed the engineering student at the York and Pottsville Y. M. C. A's.

### PENN STATE OBSERVES SCHOLARSHIP EXERCISES

Dr. Demarest Is Main Speaker at Semi-annual Awarding of Cups and Medals

Before what was approximated as the largest audience that ever witnessed a Scholarship Day ceremony, Dr. W. H. S. Demarest, president of the New Brunswick Theological Seminary gave the principal address of the program in the Schwab Auditorium yesterday morning. Dr. Demarest, former president of Rutgers, stressed the value of scholarship in a college career and its importance in the world after college has been left behind.

Dean R. L. Watts, of the School of Agriculture, was the presiding official and after the invocation by Dr. L. L. Patton, he explained that wherever great importance has been put on scholarship the attendance of that institution has increased.

Dr. Demarest in his address stated that Dr. Atherton, former Penn State "Prexy," was once one of his teachers and that for that reason he always had a desire to visit the Nittany Valley school. Speaking on Scholarship he said, "Scholarship is the glory of an institution and is the nucleus of a student body. Character plays a leading role in scholarship as well as in other phases of life." He pointed out that those who excel in scholarship do not necessarily limit themselves to study but are prominent in extra-curricular activities.

**Congratulates College**  
He closed by congratulating Penn State on her scholarship and said that he knew she would always occupy the fore in scholarship as well as other attainments.

Several vocal solos preceded the announcement of the honor society elections. Those candidates for Phi Kappa Phi, Tau Beta Pi, Sigma Tau, Sigma Gamma Epsilon, Gamma Sigma Delta, Eta Kappa Nu, Phi Lambda Upsilon, Kappa Delta Phi, Omicron Nu and Phi Sigma Iota were announced.

The presentation of medals, cups and prizes followed. The President Spang's Prize, the highest honor a student can obtain, which is a bronze medal was awarded to Miss Anna Haddock '26. This was the fourth time that Miss Haddock has won this prize, her achievement being a very enviable one.

Honor society council medals were awarded to those sophomores or juniors whose average was eighty-eight per cent or better throughout the semester. Following this came the presentation of scholarship cups to the organizations which attained the highest average. The Alpha Zeta Cup was won by J. H. Wemberger '28 and the Penn State Engineering Cup was awarded to F. W. Olshefsky '28. The Delta Sigma Phi Scholarship Key was won by H. B.

### ANNUAL POULTRY SHOW DRAWS BIG ATTENDANCE

Talks on Poultry Will Be Given Through Station K. D. K. A. on Thursday Evenings

Opening yesterday and continuing until Saturday night at ten o'clock, the State Standard Production Poultry Show, held in the Stock Judging Pavilion is drawing hundreds of visitors to the College.

Judging began on the first morning of the exhibition and this feature was the main attraction for many of the poultrymen of the State who came to see the members of the poultry department and the extension specialists place the birds according to their respective merits.

This show, ranked first among its kind in the United States, drew more than five hundred entries from every section of Pennsylvania and according to H. C. Knandel, head of the Poultry department, will go down in the annals of the act as one of the greatest attractions conducted solely by students. The exhibition this year is in charge of R. H. Strat '26 and B. W. Heywang '26 who have managed and supervised every phase of the show making it a purely student proposition.

The interior of the Stock Judging Pavilion is suggestively decorated with autumn colors which adds to the exhibition. Many cups, medals, ribbons and cash prizes were awarded to deserving exhibitors and each day draws its quota of visitors who declare that it is one of the very best productions ever staged on the "hill." The show is unique in that it combines utility with show ring quality. A special feature of the exhibition is a display of the more important breeds of poultry, shown by members of the department.

Meyer '26 Medals for excellence in French were awarded and the Charles Lathrop Pack Foundation Prize was won by A. D. Follweiler '25.

The John W. White Scholarships were awarded next. Miss Ann Haddock captured the Senior award, D. L. Mull won the junior prize and F. W. Olshefsky took the sophomore scholarship. Miss Ellen Bullock '27, Miss Ellen Gifford '27 and C. G. W. Letzel '27, won the John W. White Spanish Scholarships. The seniors who won the Louise Carnegie Scholarships are D. D. Henry, B. W. Heywang, E. D. Mairs and W. F. Park. The juniors who won are Miss Bullock, Miss Frank, E. P. Hamer, Shitz and Letzel. The sophomore winners are N. R. Adams, Miss Dorothy Batdorf, R. R. Fletcher, Miss Winifred Forbes and C. E. Stauffer.

F. H. Callins '26 won the Alan Nutt Memorial Scholarship, J. G. Green won the Boy's Working Reserve Scholarship of Allegheny County and Walter Carpenter '21, was awarded the Arthur C. Bigelow Memorial Scholarship. The program was concluded by an organ postlude. The following is the scholastic standing of the national fraternities: Aetna, Sigma Tau Phi, Tau Phi

Delta, Delta Tau Delta, Beta Sigma Rho, Tau Kappa Epsilon, Delta Upsilon, Delta Sigma Phi, Lambda Chi Alpha, Alpha Gamma Rho, Alpha Tau Omega, Phi Gamma Delta, Phi Kappa Sigma, Pi Kappa Alpha, Phi Kappa Tau, Sigma Phi Sigma, Theta Kappa Phi, Alpha Chi Rho, Alpha Chi Sigma, Sigma Nu, Sigma Chi, Theta Chi, Beta Theta Pi, Sigma Phi Epsilon, Theta Xi, Sigma Pi, Phi Kappa, Phi Sigma, Kappa, Phi Delta Theta, Kappa Sigma, Sigma Alpha Epsilon, Chi Phi, Alpha Sigma Phi, Phi Epsilon, Phi Upsilon, Theta Upsilon Omega and Phi Kappa Psi.

The scholastic standing of the local fraternities is as follows: Phi Kappa Nu, Friend's Union, Omega Epsilon, Alpha Gamma Phi, Phi Lambda Theta, Delta Phi, Chi Lambda Zeta, Omega Delta Epsilon, Tau Epsilon Phi, Chi Upsilon, Alpha Phi Sigma, Chi Omega, Delta Sigma Chi, Delta Kappa Sigma and Omega Mu Rho.

The scholastic standing of campus clubs is as follows: La Canaradite, Aetna, Aetna, Svchor and Nita-Nee. — Nait Notre Dame —

### MATMEN BEGIN EARLY TRAINING FOR SEASON

Varsity Material Scarce for Year—Rumbough Is Only Veteran Returning

Facing an extremely dark outlook this year, the Penn State wrestling team is already at work training for what is, to all appearances, the hardest season which it has ever met. Never before, in the memory of Coach Leonard, has the team been left so destitute of material by graduation and the failure of grapplers to return. Attempting to form a second team last year in order to develop material for the squad this year, Coach Leonard was partially successful in this experiment. He was able to form a team which wrestled in two of the regularly scheduled contests of the year, winning the meets with Swinslow and Brooklyn Polytech. Nevertheless, the team this year is left with a great dearth of candidates.

With only one Varsity man returning to college, Coach Leonard is planning to start intensive training earlier this season than before, in order to give the new men as much practice as possible before the season opens. Rumbough, 175 pound wrestler, is the only member of the team returning from last year. With Captain Gate, 115 pound Interscholastic champion, Lehman and Oster, 125-pound wrestlers, Black, 115-pound champion; Parthemoie, 158-pound title-holder and Prevost, heavyweight.

### ARCHITECTS CLUB PLANS PROGRAM OF ACTIVITIES

Society Will Publish Volume To Illustrate Work of Club Members

Organizing for the year at its first meeting three weeks ago the Architects Club, composed of students of the campus prominent in architecture, outlined an active program at Penn State for 1925-26. In addition to discussing common social functions the club determined to undertake a project for bettering the working conditions of architects in the College and also a novel idea for summarizing their work for presentation.

Departing from the custom of holding a regular meeting through graduation, and with Captain-elect Liggett, 135-pound Interscholastic champion failing to return to college, the team will be composed almost entirely of new material. Even the second team of last year failed to offer many hopes, since five of its six members were lost at commencement.

Seven meets have already been scheduled, those with Stanenberg, Franklin and Marshall, Lafayette and Cornell being held here, with the team travelling to Penn, Syracuse and Navy to meet their opponents.

Although holding the Interscholastic at Penn State this year, the matmen have a smaller chance of presenting a clean slate at the end of the season than they have held for many years in the past. However, Coach Leonard is planning to work the candidates as hard as possible in order to round them into a fairly presentable condition before the season opens.

### THE MUSIC ROOM

State College, Pa. Opposite Post Office  
We are the only authorized Victrola repairman in State College, using genuine Victor parts.  
The Corona Adding Machine is now on display. Come in see it Add, Multiply and Subtract.  
Weight 19 lbs.

ing an annual costume ball the architects are planning a formal dance to be held some time in February. Under the supervision of the club, work on a new recreation room in Engineering F will soon be under way. This room will contain literature of interest to architects and will also serve as a comfortable resting place for them during their leisure hours.

Introducing a new idea this year the society has already laid plans for publishing an architectural year book at Penn State. Similar to that edited by the architectural schools of other colleges, this volume will contain sketches and photographs of problems completed by students of the school and will outline in general the work of the department. The senior architects will have charge of the publication.

To oversee all these plans the Architects' Club elected the following officers for the year: C. D. Seaman '25, president; C. M. Baucus '27, vice-president; C. G. W. Letzel '27, secretary, and J. H. Dagen '27, treasurer.

### PHONE FOR FOOD GROCERIES AND MEATS
