*The Pilot's Letter*  
Forest Park Ill. Jun. 16, 1926  
The Parker Pen Company, Gentlemen.

At 4:40 P. M. yesterday I took off in my Varsity plane from Chocoma field. When I reached an altitude of 3000 feet I leaned over the side and dropped a Parker Over-size Duofold Pen. A few minutes later I made a landing near my starting point, and a crowd was examining the same Parker Duofold pen, which had landed on hard ground! To my great surprise, the pen had not been damaged in the slightest by its 3000 feet drop.

**Start School with a Pen that won't break—Dropped 3000 feet!**

YES, the Parker Duofold Pen was tossed from an aeroplane at dizzy altitude to test our new Non-Breakable material "Permanite," and landed 3000 feet below—unharmd.

Tests such as this are the best guarantees that a pen will last practically forever.

For a year we kept secret the fact that Parker Duofold Pens and Pencils have barrels of this new lustrous, beautiful, light-weight Permanite until a whole series of heroic demonstrations proved that it does not break.

This black-tipped lacquer-red beauty is not only the smartest, shapeliest pen, but the greatest writing instrument the world has ever seen. Its yielding, super-smooth point is guaranteed 25 years not only for mechanical perfection but for wear.

Choose your point and color at any good pen counter. But look with care for the name "Geo. S. Parker" on the barrel—the mark of highest excellence.

Parker Duofold Pencils to match the Pens: Lady Duofold, \$3, Over-size Jr., \$3.50; "Big Brother" Over-size, \$4.

THE PARKER PEN COMPANY, JANESVILLE, WISCONSIN  
OFFICES AND REPRESENTS: NEW YORK, CHICAGO, PHILADELPHIA, PITTSBURGH, ST. LOUIS, BOSTON, WASHINGTON, D. C., SAN FRANCISCO, LOS ANGELES, LONDON, ENGLAND.
