Grippe Prevails as College Infirmary Treats 3,702 Cases to

More cases have been treated by the Infirmary this year than in previous cents, avers Di J P Ritenour, College physician.

However, this does not indicate an increase in student sickness he believes, but a greater tendency upon the part of all students to report to the Health Service for attention. Since the opening of school in Soptember their have been 3,702 calls made at the infirmary, he states, 165 of which were made by grils.

Of this number only seventy-six were bed patients, four of whom were grils. The most common cause for blud cases was grippe with twenty-four to its credit. Tonsiltix campactism, flactures, infections, quinzy, indigestion and mumps.

The call cases were mostly caused by colds, tonsiltis, larygritis, trachetia and sprains. The total number of evenese granted for classes missed because of illness is 572.

Heavy Snow Fall Last Week Equals Record of Twelve Years Standing

When seventeen inches of snow fell last week a twelve year old record was equalled. In February, 1915, just a dozen years ago, there was a preemptation of seventeen inches, according to C. A. Kern, of the agricultural experimental department. He declared that the average snowfall in State College every year is forty-five inches. The month of February, although it is the shortest month in the year has the distinction of being the morth in which there is the herviest snowfall

PLAYERS CHANGE SHOW FOR DRAMATIC TOURNEY

o Stage "The Yellow Triangle" Instead of "The Valiant" At Philadelphia

Instead of producing "The Valunt" is was originally planned, the Penn State Players will give "The Yellov Triangle" when they enter the second annual tournament of the Pennsylvania Dramatic association. The contest will be held at Drevel Insolute, Philadelphia, Friday night.

The change in plays was made necuse "The Vallant" is now being produced on the professional stage. The new play is a one-act melodiamy of Buddhism with Zanzibai as the seene. Because of the late charge the production must be prepried in four or five days time.
