INTERFRATERNITY GROUP WILL CONSIDER RUSHING

Proposed Code Will Come Up For Discussion at Next Regular Meeting

The Interfraternity Council will act upon the proposed new rushing code at the meeting during the second week of May.

The formal written bid submitted by the fraternity is the main innovation of the rushing code for next year, explains R. A. McQuade '27, president of the Interfraternity Council.

Legal establishment of the new system will require a majority vote of all fraternities represented in the Council.

The code is the formulative result of a survey of pledging conditions by a committee of the Council. It provides for one week of entertainment of prospective pledges followed by three days of silence after which freshmen will receive sealed bids. Attendance at dinner at the house of his choice the evening he receives his bids, signifies acceptance. After this the regular "open season" will be in order.

Regular vacation rules will be strictly enforced in regard to Easter recess, announces Dean A. R. Warnock. Few pre-vacation excursions have been granted and late arrivals will receive the five dollar fine penalty, he states.

The Easter recess ends eight o'clock Thursday morning, April twenty-first. Those who do not arrive in time to attend classes after this hour will not meet with leniency. Wednesday afternoon has been granted for the homeward journey and the return trip is intended to be made on the following Wednesday afternoon and evening.
