The new Nittany mentor is hoping to bowl over his former pupils and veteran overseer, Laurie Cox, present Syracuse mentor.

Syracuse Strong An equally enthusiastic group of Orange stickmen, one which has tasted defeat but once, at the hands of the stellar twelve from Mount Washington are expected to greet the Lions. Student voting on the proposed amendments to the Athletic Association constitution will take place Monday morning from eight to twelve o'clock at the same time election of officers is held.

All students are requested to vote at the ballot boxes which are placed in buildings of their respective schools. These will be in Old Main for the School of Education, Engineering, Liberal Arts, Agriculture, Chemistry and Old Mining buildings. Chief among the amendments to the constitution are those dealing with the establishment of a Board of Control which will include student representation and the restoration of basketball as a major sport, which it was until 1912.

The abolition of athletic scholarships will not be voted upon by the student body at large since it is included in the recommendations of the investigation committee's report and will come up before the new Board of Control if it is established.

In order for these changes to take effect, it will be necessary for at least forty per cent of the student body to vote and a two-thirds majority of that amount to approve the measure.

E. C. Quigley '28, J. G. Langston '28 and J. D. Prucra '28 requested the association in writing that their names be withdrawn from the list of candidates for the position of president of the Athletic Association while J. A. Byron '28 dropped out of competition for the secretaryship. Copies of the proposed amendments to the Athletic Association constitution are now posted on the bulletin boards of the six schools of the College.

College Operator Decries Misuse of Campus Telephones by Lengthy Lines

"Mac Hall between six forty-five and eight o'clock and Varsity Hall at any hour are the hardest places to get" declares the college operator.

From careful investigation it seems that the congestion on the Mac Hall lines usually results when Joe College and his twin brother, in quest of their weekly date, forget that eight o'clock is the dead line for phone calls. Some of these Beau Brummels get on the wire from seven and warm the line until eight o'clock causing the college operator to echo the well known words "Mac Hall lines are busy now."

Varsity Hall on the other hand presents an entirely different situation according to the college "hello girl!" It appears that the denizens of that imposing structure which overlooks New Beaver field have no interest in the telephone, judging by the time it takes to get a response to repeated ringing. "Maybe they walk right by it," is the ventured opinion.
