

EDUCATIONISTS ATTEND MEETING IN LANCASTER

President Hetzel To Speak Before Members of Association At Annual Session

Seven members of the faculty of the Education School will attend the annual meeting of the Pennsylvania State Association of Education at Lancaster December twenty-eighth and twenty-ninth.

Among the Penn State delegates will be President Ralph D. Hetzel, Will G. Chambers, dean of the Education School, Prof. Alvin L. Rhoads and Arthur S. Hurvell, and Mr. and Mrs. Palmer C. Weaver. Mr. Weaver is assistant director of the Summer Session. President Hetzel is scheduled to address the association, it was announced by officials of the School of Education.

During the convention, the Penn State Education school will have booths in the Lancaster Boys High School giving general information concerning the College. Mrs. Weaver will be at the booth representing the Teachers Placement Bureau in order that alumni of the school may enroll with her if they desire to be considered for positions. Superintendents may inform the College of vacancies in their school systems there.

C. W. Larson, Former Member of Faculty, To Head Dairy Group

Dr. C. W. Larson, former Penn State faculty member, has been chosen director of the National Dairy Council, according to reports from Ag Hill dairy department authorities. He will assume full duties at the beginning of the new year.

In 1917 Doctor Larson entered the United States Department of Agriculture and seven years later he became head of the National Bureau of Dairy Industry. Under his leadership, fundamental research has been encouraged and whole-hearted co-operation between the bureau and the dairy interests has been promoted. He has written, in addition to many bureau and periodical publications, several books on dairy subjects.

Nittany Debating Men Win From Pittsburgh

(Continued from first page) Until the rebuttal the forensic fray was conceded to the visitors by the audience. By using strong rebuttal arguments, however, Hood and Brewster turned the decision to Penn State. The Nittany negative team lost to Washington and Jefferson, at Washington, Pennsylvania.

LIGHT EXPERT DISCUSSES ILLUMINATION PROGRESS

E. L. Scholl, of. Holophane Glass Company, Speaks Before Engineer Group

Speaking on the subject of "Illumination," E. L. Scholl, district representative of the Holophane Glass Company, addressed the Electrical Engineering Society Wednesday. Mr. Scholl was assisted by J. R. Howell of the same company.

Comparing the illumination furnished by normal sunlight and the average artificial electric lamp, Mr. Scholl stated that the intensity of sunlight is eight thousand foot candles.

while that of the lamp ranges from five to fifteen foot candles. The development of the present incandescent electric lamp was then explained by Mr. Scholl. He told of the invention of the first lamp and how it was improved into the present efficient bulb. More than seventy students and faculty members were present at the meeting.

Mining School Sends Four Professors to Geology Conventions

Four faculty members of the department of geology and mineralogy will attend conventions at Cleveland, Ohio, from December twenty-seventh to twenty-ninth. Dr. Arthur P. Hones, associate professor of mineralogy, will represent

the College at the meeting of the Mineralogy Society of America; Dr. Frank M. Swartz, assistant professor of geology and paleontology, the Paleontology Society of America; Prof. Chas. W. Robinson, of the geology department, the Geological Society of America; and Prof. Chesleigh A. Bonina, of the geology department, the Society of Economic Geologists of America. The societies are affiliated with the Geological Society of America and the American Association for the Advancement of Science which will meet in Cleveland at the same time.

P. A.
is a grand little pal

PRINCE ALBERT is the kind of a smoke you get clubby with, right off the bat. You'll be calling each other by your first names after the very first pipe-load. It is so genuinely friendly, in spirit and in fact.
P. A. treats your tongue and throat as gently as a mother handles a new-born baby. Never a bite. Never a parch. These are details, of course. The thing you'll remember longest is that wonderful taste! So cool, so sweet, so soothing.
No matter how hard you hit it up, this long-burning tobacco never hits back. You can go to it before classes, and right through to Lights Out. Get yourself a tidy red tin of Prince Albert today. The School of Experience has never produced a greater smoke than good old P. A.
P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-maintenance top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT
—no other tobacco is like it!
