### Recreation School To Send Representative

(Continued from first page) the inadequate supply of such trained workers.

Practice and demonstration, rather than theory, is the school's method. Athletics, social recreation, community music, community drama, handcraft folk dancing, nature study, camping, boys' and girls' clubs, home recreation, community centers, problems of finance and publicity, and school recreation are some of the principal subjects in the curriculum

#### Prominent Faculty

The faculty has been drawn from universities and city recreation departments in many states and includes: Jay B. Nash, associate professor of physical education, New York university; Prof. Alfred G. Arnold of North Dakota Agricultural college, the founder of the famous "Little County Theatre"; Peter W. Dykema, professor of music, Teachers' college, Columbia university; Joseph Lee of Boston, "father of the play movement in America"; Dr. William Burdick, director of the Playground Athletic League, Baltimore; Anne Carroll Moore, New York Pub-

Ralph Kennedy '28 will be featured in the event. It is also possible that the Glee Club will attend the affair and render a few vocal selections. Alumni throughout the state will accompany the high school athletes from their respective districts to the banquet. Expenses of the affair will be defrayed by the Athletic Association and by the four undergraduate classes

### Chapel Speaker Will Talk on Student Life

(Continued from first page) deliver an address at the annual Lutheran students' banquet

Discusses Current Problems In an effort to bring student problems to the fore, Mr. Rugh will conduct an open forum in the Auditorium Sunday evening. The topic of his talk will be "Can a man pray in a scientific world?"

Secretary Wilmer J. Kitchen, of the Y. M. C. A., having heard Mr. Rugh, said, "He is one of the most friendly, likeable, human men that I have ever met. He is well versed in student problems, and thoroughly equipped to deal with them"

### Wrestlers Encounter Orangemen Tomorrow

(Continued from first page) with Tucker, Syracuse veteran. Ace will uphold the Blue and White's place in the welterweight division against Crowe, who appears formidable as one of the main strongholds of the Orangemen's strength. The middleweight berth seems to auger an exciting tilt, for Packard will encounter Cordasco, Syracuse victor, an 160-pounder.

### Fire Insurance EUGENE H. LEDERER

None the worse for the minor injury he received in Saturday's meet with Lafayette, Hollobaugh will wrestle in the 175-pound class. He will find himself against either Freeman or Jamison, both Syracuse light-heavies.

### Committee Compiles Bond Issue Statistics

(Continued from first page) tion has not kept pace with the increase of students.

Library Ranks Low Another graph shows that the Carnegie Library contains fewer bound volumes than the libraries of other colleges. Cornell university heads this list with 710,575 volumes followed by the University of California with 635,000. The average of the twenty-one largest of such colleges was found to be 276,700 volumes while Penn State stands far below with 91,000.

Students here bear a larger percentage of their college expenses than do those at other institutions, according to a chart which the group has prepared. The student here pays

thirty-two per cent of his education expenses as compared with an average of about eighteen per cent at eighteen colleges and universities.

Hibshman Working in State Edward K. Hibshman, assistant to the President in public relations, has been working at various points throughout the state to further the bond issue. Mr. Hibshman, Howard D. Brown of Williamsport and E. S. Bayard of Pittsburgh comprise the head committee for the furtherance of the movement.

To take effect, the bond issue involves an amendment to the state constitution and this, of course, requires the approval of the voters. The measure was first introduced in the General Assembly in 1923 and passed both houses at that time.

It was again introduced and passed both houses with small opposition in 1925 but because of some technicality, it was decided not to submit it to the people until 1928.

Is all you need to pay for the world's finest pen!

Here's the world's easiest writer due to Parker Pressureless Touch! A fine ink channel ground between the prongs of the point brings capillary attraction to the aid of gravity feed, causing an immediate and steady ink flow at touch of point to paper. No pressure from the fingers. The light weight of the pen itself is sufficient.

Here, too, is Parker Perma-ink Material—28% lighter than the rubber formerly used, yet 100 times as strong.

Parker Precision in manufacture still further insures accuracy.

5 flashing colors, 3 sizes open barrels, 6 graduated points, leave nothing to be desired in a fountain pen at any price.

So pay \$5 or \$7 only to get a permanently satisfactory pen.

Pencils to match Pens, \$3, \$3.50, \$4

Be careful to get the genuine. You'll know it by the imprint, "Geo S Parker—DUOFOLD."
