The tentative plan is for the board to consist of five members, three from the student body and two from the faculty. The student members, it is proposed, will be the president of the Intelfraternity Council and two othersenior members. The faculty members would be the dean of men and another member chosen by an appointed committee of four men. The dittes of this board would be to enforce the by-laws and constitution of the Council and to mete out appropriate punishment to offenders. This plan has been in practice for more than a year at Leland Stanfold university and has proved effective

Dr. Davey Writes Article on Shape Of Carbon Atoms

Being a foremost investigator in the structure of atoms, Dr. Wheeler P Davey, vice-dean of the School of Chomistry and Physics, has contributed a paper on "The Shape of the Carbon Atoms" to appear in the forthcoming number of "The Chemical Reviews."

Doctor Davey's article is very interesting and contains considerable informative material on the subject. In commenting upon the paper, Doctor Davey said, "The arrangement of carbon atoms in diamond is accounted for on the basis of a carbon atom shaped as a tetahedron The arrangement of carbon atoms to carbon atoms are approximations to tetrahedrons."
