oled to the College by the Pennylania electorate next November. First Step in Movement

voted to the College by the Pennsylvania electrorise next Notember.

In addition, at the same meeting, Aithur R. Wainock, Dean of Men, additions the student committee concening the possibilities of influencing a large number of the state's voters to approve of the issue by first clueating all students in regard to the legislative act and what its intraction would mean to Penn State

Divide Town Into Sections

To facilitate the distribution of the lond issue information among non-frateintly men, State College has been divided into twenty sections with one committee member having charge of a single division. These sections are the same ones employed by the Penn State Club in its unit system of activities

In order that he may have aid in explaning the movement to the non-fraternity men, each committeeman will appoint a number of students to work under him. Two or three frateinties have also been allotted to cach member of the committee.

At-the present time the group-has not decuded definitely what method will be employed in reaching each student, but the chairman stated that (Continued on last page)

CANDIDATES REPORT FOR SPRING GRID PRACTICES

Thirty-five Aspirants Hold First Outdoor Drill-Will Resume Sessions After Easter

Although a number of last scavon's variety men were absent, thuty-five candidates reported Thursday to the practice field for the first outdoor did in sping football. The squad reported again Saturday afternoon but will not hold another session until April twelfth when they return from the Easter holdays.

The training this week consisted of light workouts for both the linemen and back-field aspirants. Coach Conover and Higgins had backfield meniunning through a number of regular formations such as the cross-buck and end-tuns. The her spent most of the after noon in charging when the hall is passed. The mentor settees the importance of keeping the body low and of quick starting.

Suspend for Vacation

It is planned to have twenty-two workouts during the sping training period, which will begin in earnest after the holdays. Coach Berdek and his assistants expect to develop hythm in the plays during this time Great importance will be placed on the proper method of carrying the ball, ability to make a fast get-away nother fundamentals of football technique.

"If the squad can conquer the fun-

on other fundamentary of account technique.
"If the squad can conquer the fundamentals and be ready for the advanced training, much time will be gained next fall and I will have a smooth-working machine to start with," the head football coach de-

"Ags Forsake the Farm," Says Dean Watts in Protest

"The School of Agriculture trains for more than just practical family," declared Dean Ralph L Watt vesteday in protest against the general misconception that most agricultural graduates seturn to the farm Dean Watts, in explanation of his construction of the second purpose of the bound of misconception that most agricultural committee of the State School of Agricultura trains for more than just practical family, and the second purpose of the bound of misconception that most agricultural committee of the State School of Agricultural trains for more than just practical family, and the second purpose of the bound of misconception that most agricultural committee of the State School of Agricultural trains for more than just practical family and the committee of the State School of Agricultural trains for more than just practical family and the committee of the State School of Agricultural Committee of the State School of Pennsylvania Women's Challyson Agricultural Committee of the State School of Pennsylvania Women's Challyson Agricultural Committee of the State School of Pennsylvania Women's Challyson Agricultural Committee of the State School of Pennsylvania Women's Challyson Agricultural Committee

eral misconception that most agricultural graduates return to the farm.

Dean Watts, in explanation of his statement, said that there are many courses in the school that do not lead directive to the farm. He pointed out that training for government work, agricultural education, and forestry were secured in this department. "The fact that the School of Agricultura covers a large field has been considerably overlooked," the Dean delevined. He also added that of those that compile the pure agricultura covers, one-third go on the farm for others on the farm.
