DR. HETZEL LAUDS LAND GRANT COLLEGES AT BANKERS' PARLEY

How millions in wealth are added each year to the incomes and savings of individuals throughout the United States because of scientific research and other public services by the land grant colleges of America, was told by President Ralph D. Hetzel at the annual convention and banquet of the Pennsylvania Bankers' Association in Atlantic City last week.

President Hetzel was characterized by Harry J. Haas, president of the association, as "one of the foremost authorities on land grant college functions developed since Abraham Lincoln signed, in 1862, the act of Congress establishing these great public colleges and universities."

Curtauling of Funds "To curtail land grant colleges is as serious as curtauling public high schools," Doctor Hetzel declared in giving details of the demands by the public on these state-owned institutions of higher learning. He emphasized, in particular, the scientific research side and the democratic plan of education.

"As compared with other progressive northern and eastern states," he told the bankers, "our state, even with its more than fifty colleges, has made smaller relative provision for higher education than other states. This creates a serious situation in Pennsylvania."

"If Pennsylvania is to hold her own in this vital concern of the preparation for an efficiently trained citizenry, larger and immediate provisions must be made. As in other states, it is the duty of the public institution to meet a great share of the increased demand."

Responds To Public Need President Hetzel went on to show how eager and ready the land grant college is to respond to public need. He said that it is highly important that democracy in education be maintained in these critical times and, inasmuch as the land grant college is a public trust, it is governed by public demand for service and should not have the embarrassment of refusing admission to qualified applicants.

It was announced at the meeting that the agricultural committee of the Pennsylvania Bankers' Association would convene here in August.

eligible to try for a berth on the track team which will represent the United States in Amsterdam this summer.

Penn State took second place in the meet last year with twenty-seven points. Entrants from colleges and universities throughout the country will compete.

SUMMARY: Track Events 120-yard High Hurdles—Won by Eggers, Penn State, Holmes, Penn State, second; Wiggins, Syracuse, third. Time 10 1-5 seconds.

100-yard dash—Won by Harwood, Syracuse; Bartholomew, Penn State, second; Pasco, Syracuse, third. Time 10 1-5 seconds.

One-mile Run—Won by Cox, Penn State; Offenhauser, Penn State, second; Houigan, Syracuse, third. Time 11 minutes, 20 1-5 seconds.

110-yard Dash—Won by Barbuti, Syracuse; St. Clair, Syracuse, second; Kautsch, Penn State, third. Time 50 seconds flat.

Two-mile Run—Won by Haskins, Penn State; Lee, Penn State, second; Dares, Penn State, third. Time 9 minutes, 53 1-5 seconds.

220-yard Low Hurdles—Won by Bates, Penn State; Brownstein, Penn State, second; Wiggins, Syracuse, third. Time 23 2-5 seconds.

800-yard Dash—Won by Davis, Penn State; Bachman, Penn State, second; Kittle, Penn State, third. Time 1 minute, 59 3-5 seconds.

220-yard Dash—Won by Barbuti, Syracuse; Bartholomew, Penn State, second; Filkins, Penn State, third. Time 22 seconds flat.

Field Events Hammer Throw—Won by Kutz, Syracuse; Cornell, Syracuse, second;

ENGINEERING SCHOOLS ADD MORE EQUIPMENT

Industrial Corporations Donate Three Modern Engines To Laboratory

Benefiting from the gifts of industrial corporations, the School of Engineering laboratories have recently added three Diesel engines.

A Venn-Severin engine, is already set up as part of the equipment of the engineering experiment station. This machine is to be used for the study of oil sprays.

The other two will reach the mechanical engineering laboratory before the oil and gas power convention June fourteenth. At that time they will be on exhibition and later added to the permanent equipment of the department.

A four-cylinder Hill-Diesel engine of forty horse power is one of the additions. The other being a two-cylinder Benz engine, a product manufactured in Pennsylvania.

Nittany Lacrossemen Rout Syracuse Team

(Continued from first page) Paul's stickwielders scoreless for the remainder of the period.

Weber Registers Without the services of Captain DeWitt, main cog on the attack, the Nittany offense lacked driving power in the second period and talked but one goal, a pretty shot by Weber close to the crease. Coach Paul's defense was functioning smoothly and the invaders did not threaten at any time during the encounter. The defensive play of Mills, clever Syracuse goalie was particularly effective throughout the game.

In the second half Coach Paul made frequent substitutions in the battle array. Tok continued his scoring ways by registering a hard shot from the side of the netting. Al Eisei, who replaced Kaiser at home, showed promise during his stay, tallying two markers in quick succession near the close of the setto. Sam Heppenstall replaced Bob Cromie in the last period and registered a counter for the crease.

Torok Scintillates Ted Torok's all-around play stood out during the contest, as did the stickwork of Fellows and Perella on the defense. The Nittany protective barrier of Priesel, Danoffield and Cronie thwarted the offensive maneuvers of the invaders with little difficulty. Carlson and Griffin also showed up well on the attack.

President Announces Commencement Plans

(Continued from first page) Schwab auditorium at nine o'clock of the next day for the Class 'Day' exercises, while there will be a parade of the classes to New Beaver field where stunts of different lands will be staged.

Commencement Exercises Forming in front of the Carnegie library at nine-fifteen o'clock Tuesday morning, June twelfth, the Commencement procession will proceed to the front campus, led by the College band, where the exercises will begin at ten o'clock. The Commencement address will be delivered by Alexander Merklejohn, a noted educationalist from the University of Wisconsin.

Election of Trustees Trustees to fill the place of those whose terms expire this year will be elected Saturday afternoon, June ninth, at two o'clock while at the same time there will be a meeting of the Board of Trustees in the President's office.

Concerts by the Military Band and by the College choral club, a variety of Old Man, an Alumni-Varsity baseball game, receptions for alumni and parents, a Players' affair, a Commencement dance in the Amory and a dinner in McAllister Hall for alumni, seniors and guests, complete the entertainment event, listed on the five day program.

Mining Alumnus Tells Of Industrial Methods

With the "Development and Present State of Mining Machinery" as his topic, Richard E. Rankin '15, in the employ of the Goodwin manufacturing company, addressed the senior and junior mining students in Old Mine building Friday afternoon.

Mr. Rankin traced the development of the three major types of underground machinery, coal cutting, coal loading and haulage equipment. He illustrated his lecture by means of lantern slides and miniature models.

A. H. Seniors Leave on Stock Yard Inspection

Seniors of the department of animal husbandry left Sunday for a two-day inspection trip of the Union stock yards at Pittsburgh. Methods of systematic loading and unloading stock cars, cattle pen management and selling distributing principles will be studied.

Through the courtesy of the Pittsburgh Provision and Packing company, the students will be permitted to inspect meat that has been properly dressed. William L. Henning, instructor of animal husbandry, is heading the delegation.

What Shakespeare says about Coca-Cola Drink Coca-Cola Delicious and Refreshing "Framed in the prodigality of nature" When Shakespeare wrote this speech for Richard he must have seen the handwriting on the wall—a Coca-Cola ad reading: Good things from nine sunny climes poured into a single glass. 8 million a day — IT HAD TO BE GOOD TO GET WHERE IT IS

Quality sent P.A. to the head of the class PRINCE ALBERT —the national joy smoke! YEARS ago, P.A. showed a clean pair of heels to the field of smoking-tobaccos. It has maintained its lead ever since, putting more distance behind it every year. There must be a reason why P.A. is the world's largest-selling brand. There is! Open a tidy red tin and get a full breath of that class-by-itself fragrance. Then tamp a load into the bowl of your pipe and light up. The first pull tells you why more men smoke P.A. than any other brand. Cool and smooth and mellow and mild—not for one pipe-load, but always. Try this long-burning tobacco, Fellows. You'll say so!
