President Expresses Views on Bond Issue

(Continued from first page)  
...ed citizens during the course of the campaign which has just closed. This devotion is most significant and seems to me to provide a sufficient guarantee that the people of our State can and will provide in such manner as seems best a great public institution of higher learning, which will function in this field as are the splendid public schools in the field of primary and secondary education. While the general support given to the College during the campaign has been most gratifying, there have been some instances of unselfish devotion which were nothing less than heroic. A

...ed a term as president of the Oxford Union and was business manager for the Oxford Outlook. Several theatrical productions were also managed by him during his career.  
The third member of the squad, Alan T. Lennox-Boyd, came to Christ Church college of Oxford on an honorary scholarship. He is a former president of the Oxford Conservative association and Oxford Union. Lord Napier, a member of his family, served in this country as a former ambassador from England.  
Triouts for membership on the squad for the debate with the University of Pittsburgh will be held in Old Chapel tonight at 7.30 o'clock

cause which can prompt such devotion is certain to win success.

I want also to take this opportunity to express my gratitude to the magnificent support given to the Bond Issue by the citizens of State College and of Centre County. The vote in this borough is particularly gratifying. It is proof of the fine spirit of co-operation which is constantly in evidence

SPORT OF THE BEST

For generations the red grouse has brought a host of sportsmen to the moors, whose zest for enjoyment is as keen as their eyesight. Traditionally the BBB OWN MAKE briar pipe has been taken along as a loved companion.

SHOOTING over dogs is the best form of sport—says the real dog lover. He is the very sort who would never think of setting out for a day on the moors without his BBB OWN MAKE briar in his jacket pocket—or more likely, between his teeth.

For generations these extra fine pipes have stood as the ultimate in smoking pleasure. Age-mellowed briar roots—meticulously selected, expertly fashioned into distinctive shapes, individually baked by the old exclusive BBB process, beautifully finished. And you have the traditional mellowness, sweetness and coolness so characteristic of every BBB OWN MAKE.

These fine briar pipes may be had in either the smooth finish or in the sandblasted ripple finish, all marked with a red diamond on the stem. Five dollars the pipe. Wm. Demuth & Co., New York and London. Established 1862.

This Week---THURSDAY, FRIDAY, SATURDAY  
Look at the Wonderful Values in Our Window

ROBERT J. MILLER  
ALLEN STREET

November 19th

will be the opening day of the

International Fuel Conference

IN PITTSBURGH

New applications of the "Black Diamond" will be presented and methods outlined for the most efficient use of our coal resources.

Gasefication of Coal

in large Central Plants was recognized long ago as the economic way to distribute the heating value of coal to the consumers. Today High Pressure lines carry gasefied coal to many communities, and soon a network of these pipes will span the country, just as electric lines carry light and power to distant places.

To produce heat from coal over half a dozen detours (energy conversions) would be sinful waste of our natural deposits.

Burn coal in its solid or gaseous form.

If you want to enjoy the benefits of modern science and engineering you will
