years" State College is one of the many institutions of Pennsylvania which Governor Fishei cited for increased building allowances The College re-ceived a \$1,000,000 appropriation for buildings in 1927.

### Editorial Comment

Editorial Comment "Pennsylvania," said the Philadel-phia Public Ledge, Sunday in com-menting upon the Governot's policy in an editorial entitled "Governot's Pishea Takes the Right Stand," "is movily committed to the carrying-on of its hight ay-building, the ex-pansion of State College, extension of the locest reserve and full provi-sion for its neglected hospitals, asyl-ums and penal institutions. The peo-ple's verdict at the polls merely show-ed then acceptance of the State ad-ministration's opinion that these im-provements can all be taken care of by curient funds, instead of by ber-rowing money and adding to the Com-monwealth's load of delt. They are at desitous as ever that these Imper-atively needed improvements shall be effected. Governon Fisher's state-ment will give much satisfaction to the people."
