In order for a merchant to be a wholesale grocer, it is necessary to be listed as such by the grocery manufacturers; and to be listed as such he must buy, in carload quantities, certain commodities such as California fruits, York State vegetables, Florida oranges and grapefruit, etc. We have been buying these commodities in carloads. This fact enables us to buy practically every item on your menu as a wholesaler. We can furnish you with anything in the grocery line in wholesale quantities at as low a price as any wholesale house anywhere.

We started in as a retail concern and have grown to wholesale capacity. We can serve you most economically either wholesale or retail.
