Professor A. H. Espenshade Plans Vacation in Honolulu

Prof. A. Howry Espenshade, head of the department of English composition, who has completed thirty-one years of teaching service, has been granted a leave of absence for the next college year.

Only the lure of Honolulu, where Prof. Espenshade will spend a vacation that has been planned for many years, has proved strong enough to move the Penn State educator from the college where he spent most of his life. Prof. Espenshade will not go into complete retirement, however, since he plans to teach English composition for the next year at the University of Hawaii where his son will enroll as a freshman.

Prof. Espenshade has held more than a half dozen executive positions at Penn State since he began teaching in 1898. For many years he was registrar of the College, a position which he vacated in order to handle the financial campaign for a \$1,500,000 fund in 1921. Under his supervision more than the expected amount was pledged. The surplus was used to start

construction on two men's dormitories which have been standing for many years and one women's dormitory which is now nearing completion. Prof. Espenshade came to Penn State quite unexpectedly. In 1898 he visited the college to see the graduation of his brother Edward. He was offered a teaching post, accepted and stayed—for thirty-one years.

Since 1898, and especially during the war, the Penn State professor received several attractive offers for executive work elsewhere. Every time he has found him immune—all except those fascinating little travel booklets with the warm Honolulu sun shimmering from the pages, and the tall palm trees, and the inviting sea and sunset.

All these beckon Prof. Espenshade as he prepares to leave State College early in July when he will motor across the country and embark for his temporary home in the middle of the Pacific. His wife, son, and daughter will make the trip. Prof. Espenshade will make the trip. Prof. Espenshade
