

PROFESSORS WRITE 3 HISTORY BOOKS

Dr. Tschan, Martin, Dunaway
Finish Literary Work in
Favorite Subjects

Three members of the College history department, Dr. Francis J. Tschan, Dr. Asa E. Martin, and Dr. Vladimir F. Dunaway, are at present completing books dealing with the subjects in which they specialize. All of the authors hope to complete their works this year.

Completing a literary work which he began before the World War, Dr. Tschan is engaged in a critical revision of his translation of Helms's "Chronica Slavonum," which he is preparing for the Records of Civilization series, published by Columbia University.

In translating this story of an important phase in German development, Tschan has employed great care to retain the archaic language of the original. The work is one of three which he plans to translate on the same subject and will consume the greater part of his lifetime.

Works on State History

Dr. Martin is completing the second volume of his "History of the United States." The second book will deal with the period between 1855 and 1929, discussing historical events from the Civil War up to the present. Martin will receive a leave of absence for the second semester in order to complete this work by next September.

Dr. Dunaway is gathering material now for "A Social History of Pennsylvania." The book will deal ex-

clusively with the development of cultural, educational and religious aspects of Pennsylvania history. The spread of customs and manners in Pennsylvania will be discussed also. Spending the summer at the Congressional Library at Washington, D. C., and at the library of the Pennsylvania Historical Society in Philadelphia, Dunaway has collected a large amount of research material for his work.

STUDENT TRIBUNAL TO MEET 7:30 TUESDAY

The first Student Tribunal meeting of the year will be held in the Varsity Hall lecture room at 7:30 Tuesday night. All students who wish to petition the Tribunal for exemption from customs will present themselves at this time.

Untamed Bruin in Lion's Lair Jolts Language Savant

Meeting a bear in civilized territory is an event to be classed as historic, according to Dr. George J. Wurf of the German department, who encountered an untamed bruin recently near Pleasant Gap.

Dr. Wurf was driving down the Centre Hill mountain toward Pleasant Gap when he was astonished to observe the huge animal climbing along the side of the mountain.

"I never thought I would see a bear in such civilized territory as this," declared the instructor smiling. "It was quite an experience."

"The bear was a big black fellow. I didn't put him on the scales," he ad-

ded, "but I should say that he weighed about 300 pounds. He seemed big enough, anyway."

"If you need a witness," he continued chuckling, "you can apply to Prof. Harold F. Graves of the English department who was with me at the time."

The bear was lumbering along in a cleared space on the side of the mountain when Dr. Wurf, accompanied by Prof. Graves, caught sight of him. Bruin did not seem as interested in his observers as they were in him, and he soon disappeared into the woods.
