OFFICIALS ARRANGE TEMPORARY PLANS FOR FATHERS' DAY

Players' Presentation Will Open 3-Day Program for Annual Event October 11-13

DR. HETZEL TO ADDRESS PARENTS' ORGANIZATION

Schedule Includes Campus Tour, Football Game, Smoker, Chapel Services

Tentative arrangements for the welcoming of parents to Penn State's ninth annual observance of Fathers' Day on October 11, 12, and 13 have been announced by Prof. J. Orvis Keller...

Ushering in the three-day program, Friday night, the Penn State Players will revive "Is Zat So?"

Assembling in Schwab auditorium at 9:30 o'clock Saturday morning, the visiting Dads will be welcomed by President Ralph D. Hetzel.

Conducted campus tours, a new feature on this year's Dads' Day program, have been planned by the committee in charge.

Saturday night the fathers will be entertained at the annual smoker in the armory sponsored by the Penn State club.

R.O.T.C. ORGANIZES MONT ALTO CORPS

Will Utilize Armory for Close Order Drill During Winter—Complete Advanced Enrollment

Arrangements to maintain a R. O. T. C. corps at Mont Alto for the benefit of the freshmen enrolled there will probably be completed in the near future.

For the first time since 1922-23 the R. O. T. C. department will have the use of the armory floor during the winter months the floor will be used for close order drill.

DR. WHITMORE RETURNS

Dean Frank C. Whitmore, head of the School of Chemistry and Physics, recently returned from a brief visit to Toledo, Ohio, and Detroit, Michigan.

SOPHOMORE GIRLS MEET

"Rushes should do all in their power to help the Campus clubs enforce rushing rules," according to Olive E. Osbourn '30, president of the Campus Club council.

Phi Mu Accepts Trestrella Club as Beta Mu Chapter

Phi Mu will be the fourth of the Pan-Hellenic group of women's national fraternities to enter Penn State when the Trestrella club becomes installed as the Beta Mu chapter of that organization Saturday afternoon.

The local group started petitioning in the fall of 1928. It was granted a charter late in June at the national convention of Phi Mu fraternity held at Catham, Mass.

Mrs. Robert Ingelhart of New York, second vice-president of national Phi Mu and director of Phi Mu alumnae, will install the group.

The thud of pounding gloves will mark the opening of the fall theatrical season when the Penn State Players greet a Dads' Day audience with their revival of the comic opera "Is Zat So?"

Prof. Arthur C. Cloetingh, Prof. David D. Mason, and Frank S. Neuberger, directors of the dramatic clubs, will meet this week to select the remaining shows for the year.

The role portrayed by Stanley J. Kolakowski '29, member of last year's championship boxing team, in the past production was still unfulfilled at latest reports.

One of the youngest of the "veterans" to appear in the revival will be Master Billy Dye, young son of Dr. William S. Dye Jr.

Secretary for the show is being thought, organized and reported by the organization's stage crew.

COLLEGE TO OFFER NEW COURSE FOR ENGINEERS

For the benefit of agricultural engineers interested in rural development, a short course in rural electrification will be offered by the farm machinery department in cooperation with the Pennsylvania Electrical Association at the College October 24, 25 and 26.

DR. STEWART PRAISES PROGRESS AT LINGNAN

Discussing the relation of Lingnan university to overcoming the problems which Chinese youth must face, Dr. George W. Stewart, member of the board of trustees of Lingnan university, and pastor of the First Presbyterian church, Stamford, Connecticut, addressed the chapel audience Sunday.

Lingnan university is instrumental in overcoming the handicaps which, up to this time, have prevented Chinese youth from obtaining a world wide point of view.

1109 REGISTER FOR ENGINEERING STUDY

Electrical Engineers Lead With 398—12 Women Enroll in Architects' Group

One thousand one hundred and nine students are enrolled in the School of Engineering this year, Dean Robert L. Sackett stated late yesterday.

Of the total enrollment, 200 are seniors with 233 juniors, 323 sophomores, and 353 freshmen.

The number of seniors is larger this year than it has been for several years past.

More Women Enroll One of the noticeable items in the report is the continuing increase in the number of young women taking architecture.

Twelve women are entered in the department and three of that number are seniors, statistics reveal.

The department of electrical engineering has the largest number with 398 students enrolled.

PROF. GAUM TO CONDUCT COURSE AT WAYNESBORO

Prof. Charles G. Gaum, of the Engineering Extension department, will deliver series of lectures on "Personal Efficiency" in the Y. M. C. A. building, Waynesboro, Pennsylvania, on October 7, 9, and 11.

MAKES LARGE DIAMONDS

The largest synthetic diamonds in the world and the only ones made in the United States were produced recently by Dr. I. W. Heisley of McPherson College in the laboratory there.

STARTS AVIATION SCHOOL

The University of Pittsburgh School of Engineering, in connection with the Penn School of Aviation, will begin a co-operative program of aeronautics and aviation this semester to include ground school courses, field and flying instruction, and courses in aeronautical engineering.

DEAN SACKETT TO GIVE FIRST ENGINEERING TALK

"Aims and the Man" is the subject of the first engineering lecture to be given by Dean Robert L. Sackett at 4:10 o'clock Friday afternoon in the Chemistry amphitheatre.

The development of tools and of craftsmanship and their relation to industrial history will be discussed in the lecture.

EDITORS RELEASE 'OLD MAIN BELL'

Contents of Student Literary Magazine Include Verse and Short Stories

The first issue of Old Main Bell, Penn State's literary magazine, will be released at town book stores this morning and will remain on sale throughout the week.

Contributions to the publication include features, verse, and short stories by students and faculty members.

Among the features of the issue is an article, "The Philosopher," by Miss Julie Gregg Bill, of the English department.

Ends Love-Making Course Philomena, the unknown author of "A Correspondence Course in Love-Making," concludes her series by telling how to lead the desired one to the altar.

"Three Steps Up," a ghost story is one of the student contributions in the short story list.

A tale in verse on "Origin of the Blue Chevrolet Suit" by Scott S. Geesey '30, heads the verse collection in the book.

STUDENT LEADERS GREET MONT ALTO

Telegram Welcomes New Foresters To Participate in Ideals of Penn State

Expressing the good wishes of the Penn State students at State College for their classmates at Mont Alto, F. Bruce Baldwin, president of the senior class, sent the following telegram, signed by himself and Ladore E. Noelken, head cheerleader which was read at the convocation exercises of the forestry school.

"Follow students of Penn State, at the opening of your school, we send to you our heartfelt well-wishes. We trust that you will make much of your opportunities, grasping the real Penn State spirit.

"Forestry students at Mont Alto appreciate message of good will extended by Penn State students."

INDIAN SKELETONS BAR ONWARD MARCH OF PROGRESS

Three human skeletons, in all probability the remains of a white Indian never seen by a member of the white race were unearthed by workmen at Milesburg, six miles west of Bellefonte recently.

When the little country village is now located, Chief Bald Eagle once led his warriors to battle.

For over three centuries the bones have rested—untouched by human hands. Last week employees of the highway department, excavating where an Indian trail was once blazed, cut into a human skull.

EDITOR SELECTS 3 STAFF ASSISTANTS FOR 1930 RECORD

A. K. Schenck, S. D. Dinwoodie, T. C. Lark Receive Senior Supplement Posts

LA VIE HEAD APPOINTS YEARBOOK ASSOCIATES

Editor-in-Chief H. J. Poorbaugh To Begin Work at Once For 1931 Annual

Appointments of A. Kenneth Schenck '30, and Stuart D. Dinwoodie '30, to associate editorships and Thomas C. Lark '30, as circulation manager of the 1930 La Vie Supplement staff were announced yesterday by Fred C. Schwere '30, editor-in-chief of the La Vie supplement.

In accordance with the style used in the last annual, the style this year will employ the Greek alphabet and the binding will be the same.

The supplement will include campus activities, athletics, fraternities, and a women's section.

Work on 1931 Yearbook Harry J. Poorbaugh '31, editor-in-chief of the 1931 La Vie, stated yesterday that Charles G. Hess '31 and Wilson C. Baily '31, have been appointed associate editors of next year's annual.

To facilitate further next year's work views of the campus will be taken as soon as possible.

FRATERNITIES RECEIVE 'Y' STUDENT PUBLICATION

A year's subscription to the Intercollegian, published by the National Student Christian association, will be sent to all fraternities houses and organizations of clubs at Penn State starting with the October issue.

The October issue contains articles by H. P. Van Dusen, Chapel speaker to December 1.

Desiring to discover an appliance by which man will be enabled to remain under water and survive, Dr. A. Brazier Howell, anatomist at Johns Hopkins university, Baltimore, Md., is making a study of the whale.

The chemical formula by which the whale "consumes his own smoke" could be found, Dr. Howell believes.

JOHNS HOPKINS DOCTOR CONDUCTS WHALE STUDY

Desiring to discover an appliance by which man will be enabled to remain under water and survive, Dr. A. Brazier Howell, anatomist at Johns Hopkins university, Baltimore, Md., is making a study of the whale.

The chemical formula by which the whale "consumes his own smoke" could be found, Dr. Howell believes.

There is a picture showing B. F. Jackson, freshman "Y" Secretary, climbing Long's Peak in the Rocky Mountain National Park.

ALUMNI PREPARE FOR HOMECOMING OCT. 25

Penn State alumni and former students will be welcomed back to their Alma Mater to celebrate the tenth annual Homecoming day Saturday, October 26, according to information received from the Alumni office yesterday.

Following registration during the morning and afternoon a mass meeting will be held in the Auditorium.

PENN STATE CLUB OPENS ACTIVITIES

Plans To Hold Dancing Classes, Socials, and Smokers for Non-Fraternity Men

Elaborate plans for the coming year's activities are being prepared by the executive committee of the Penn State club.

The athletic program, as well as the social interests of the club, will be widened in scope this year.

The ideal of the Penn State club, Bryan states, "is to foster a brotherhood on the campus, not only among non-fraternity men but also between the fraternity and non-fraternity men."

Socials and dances will be held from time to time during the year.

Aside from the social life, the club carries on an athletic program for all non-fraternity men.

President Bryan added in a statement to the freshmen, several points relative to their college career.

3 ENGINEERS FILL VACANT POSITIONS

L. R. Yeager, C. G. Vandergriff and M. S. Grosdoff Receive M. E. Faculty Appointments

Three new faculty members have been added to the staff of the department of Mechanical Engineering to fill the vacancies caused by the leave of absence of James I. Clow, and the resignations of Robert D. Mellows and George W. Jones.

M. S. Grosdoff, former faculty member of the Mechanical Engineering department at Lehigh university, will serve as assistant professor of machine design.

Prof. Bonine thinks that it may be significant because it is known that certain ancient tribes buried their dead in this manner.

Photographs of the skeletons were sent to the National museum in Washington, and if it is found out that the bones are Indian relics beyond a doubt, they will become a part of the museum of the new Mineral Industries building.

FRESHMEN TO JOIN COLLEGE RANKS AT STUNT NIGHT RITES

Plebes Will Undergo Traditional Initiation This Week on New Beaver Field

ENJOY GAUNTLET, FIRE HOSE, AND SHAMPOOS

Sophomores To Guard Against Attacks by Solicitous Junior Class

With the thud of hard wood against soft yielding flesh, the swish of a torrential stream of water from a fire hose, and thorough molasses-sawdust shampooing of curly freshmen locks, the sophomores will initiate the class of 1933 into the ranks of Penn State students in the traditional Stunt Night some time this week on New Beaver field.

Preparations for the annual event have already started. Under the supervision of sophomores, freshmen have begun to collect wood for the fire which will light the scenes of their initiation.

On the night of the ceremonies, the power house siren will scream the signal for the start of the festivities.

Guided, or misguided, by sophomore tormentors, the plebes will be organized into chains.

In rapid succession, the plebes will dash through a gauntlet of the stundest piddle-wielders of the 1922 group, climb greased poles, be doused with molasses and coated with sawdust, and finally run through the stream from the fire hose.

For the edification of the onlooker, the plebes will also propose to recede, emulate the celebrated danseuse, Anna Pavlova, play for fun, and indulge in other equally ridiculous antics.

Prepare for Junior Attacks The sophomores will take steps to safeguard their plans from attack by juniors, who at this time suddenly become zealously interested in the welfare of the oppressed freshmen.

In order to prevent 1931 pronomium from lighting the wood prematurely, guards will be posted and the wood piled as late as possible.

The sophomore Stunt Night committee is composed of Chairman Maxmilian C. Iselt, Percy C. Belfield, Fred Brand, Jr., Earle J. Bierman, Warren S. Griffith, Leroy A. Heblum, George T. Lisch, Alfred T. Lewis, Peter J. Oberle, and Robert G. Snyder.

Three new faculty members have been added to the staff of the department of Mechanical Engineering to fill the vacancies caused by the leave of absence of James I. Clow, and the resignations of Robert D. Mellows and George W. Jones.

M. S. Grosdoff, former faculty member of the Mechanical Engineering department at Lehigh university, will serve as assistant professor of machine design.

Prof. Bonine thinks that it may be significant because it is known that certain ancient tribes buried their dead in this manner.

Photographs of the skeletons were sent to the National museum in Washington, and if it is found out that the bones are Indian relics beyond a doubt, they will become a part of the museum of the new Mineral Industries building.

Prof. Bonine went on to say that
