OFFICIALS REVEAL ARCHITECT'S PLAN FOR POWER PLANT

Authorities Design Modern Unit To Increase Beauty of College Campus

WILL INSTALL LATEST MACHINES IN BUILDING

Engineers Start Construction On Foundation—Practically Complete Excavation

Plans for a new power house to be erected on the former site of the Old Mining building, which will cost \$750,000, and will add to the beauty of the campus, were disclosed by College architectural officials today.

The building, which will generate heat for all college buildings, has been designed to meet the strictest requirements of architectural beauty. The most modern machinery will eliminate dust and grime, and will produce a minimum of smoke.

Excavation work has been almost completed and construction on the foundations has begun. College officials hope to complete the building by next spring. The J. G. White company, of Philadelphia, is directing design of the structure, while the architectural design is furnished by Charles E. Klaunder, of Philadelphia.

The building will be constructed of brick similar to that of the Recreation hall, with limestone and granite turnings. All the doors and windows will be steel. The plant will extend 125 feet along College avenue, and will be 120 feet high.

A smoke stack 150 feet high, constructed of the same material as the main building, will rise at the north end of the structure. The stack, designed to be an artistic feature of the building, will be a separate unit. A wall between the power house and the stack will contain physics leading to the boiler. Space has been reserved for a second stack to be constructed later at the rear of the building at this end.

Facing Burrows street, the main entrance is gained by a double flight of steps. A utility exit has been planned for the end facing College avenue. Above this door a large window will rise almost to the roof of the structure, flanked on each side by similar tall windows. The roof, which has several levels, gives the building a pyramid effect on this end.

The east side of the building will contain a balcony housing electrical equipment. The turbine used at present in the old power house will be transferred to the new structure. Space has been provided for a new generator with 1200 kilowatt capacity which will increase the efficiency of the plant materially. The new generator will be furnished by the General Electric company.

A crane located in the north-east corner of the building will serve both the balcony and the basement. Coal will be stored in a large bin at the rear of the building, which will be screened from the street. The most modern machinery will conduct fuel to the stokers, and will dispose of the ashes. It is hoped that this equipment will dispose of dust effectively.

1931 'LA VIE' INDIVIDUAL SITTINGS START MONDAY

Students' Post \$1.50 Fee—Will Pose For 4 Photographs

With the awarding of contracts for photography work on the 1931 *La Vie*, individual sittings will start Monday, Business Manager Jack H. Eisner '31, announced yesterday.

Four poses will be taken, from which the student will select the one to appear in the year book. Each student will be required to post a fee of \$1.50 at the time of the sitting. This fee may be applied to the purchase of photographs.

ARRANGES HI-Y BANQUET

Penn State's Y. M. C. A. has arranged a banquet to be held Monday, at the University club for former Hi-Y members in the freshman class. Included in the varied program which has been arranged are talks by several campus leaders.

Spaeth Discusses Relation Of Athletes and Musicians

Disproves Popular Impression That All Artists Appear Effeminate and Weak

The idea of a football coach hating his men on the gridiron in the afternoon and entertaining them at night with Beethoven's *Missa in G* or the latest bit of jazz might be considered odd by some persons, but Dr. Sigmund Spaeth, noted music authority, doesn't think such is the case.

Dr. Spaeth has been in State College this week promoting the ticket sale for the Artists' course. Several years ago he coached a football team at Asheville, N. C. and at the same time directed the musical clubs. In 1920 he reported most of the major football games for the *New York Times* and at the same time wrote a music column for that paper.

That a really talented musician could be nothing but an effeminate person with unshorn locks and a suitable subject for panpering at women's club meetings is a view belonging to the age of hoop-skirts and powdered wigs, in Dr. Spaeth's opinion.

"When Paderewski came to the United States for his concert tour," the visiting musician intimated, "he

was forced to wear his hair long because of the prevailing belief that such a custom is indispensable to the musician's art. The American people can not visualize a great musician without flowing hair.

"What would have happened if Paderewski had suddenly appeared in football togs?"

Paderewski is now the lone famous musical genius who wears his hair long. His public will not let him escape. In contrast with Paderewski's flowing locks, scanty black hair fringes Dr. Spaeth's head, the top of which, sloped sharply back from a low forehead, has little natural protection. But he is a musician.

His body is that of an athlete. He is more than six feet tall and has a build in proportion, a fact that may explain why he gained a place in athletics at both Haverford and Princeton when he attended those institutions.

"The time will come," Dr. Spaeth continued, "when the musician will be (Continued on last page)

PUBLICATION LISTS NITTANY DEBATES

Volume Includes Affirmative, Negative Talks on League Of Nations Topic

Selected as one of the outstanding collegiate forensic works of the year, Penn State debates on the affirmative and negative sides of the League of Nations question will be published in the coming edition of *Intercollegiate Debates*, according to Joseph F. O'Brien, debating coach.

The volume, compiled each year by Noble and Noble of New York, and edited by Egbert Ray Nichols of the University of Redlands, includes the eight college debates which in the opinion of the editors were noteworthy. It is the first time that the *Nittany* oratorials were honored.

Main speeches, rebuttals, bibliographies, and short accounts of the debater will appear in the publication. Mr. O'Brien edited the section devoted to the College speakers.

Defeat Oxford Team
The affirmative side of the resolution that the United States entered the League of Nations was supported in the debate with Oxford university here last year. Albert J. Gates '29, Robert W. Healy '29, and Jack R. Richards '30, spoke for Penn State.

Penn State was retained the winner by a large majority in an audience vote. An attendance of over thousand made this contest the highlight of the season, according to Professor O'Brien.

The negative side of the question was upheld against Temple and Lincoln universities. The Temple engine was broadcast over station WCAU, Philadelphia, Temple winning a radio audience vote. A 3-0-0 judge's decision gave the *Nittany* title to the Lincoln debate. Gates, Richards, and David Kirsch '31, formed the negative team.

DEAN WILL VISIT AMHERST

Dr. Gerald L. Wendt, assistant to the President in industrial and scientific research, will represent the college at the dedication of the Moore laboratory of chemistry at Amherst college next Friday.

I. F. C. BOARD OF CONTROL FINES ALPHA SIGMA PHI

Alpha Sigma Phi was found guilty by Interfraternity council Board of Control of violating article 4 of the 1929 rushing code.

Article 4 states that after Tuesday evening, October 1, at 8 o'clock, fraternity men shall not be in company or communication with freshmen at any time until Wednesday evening, October 2, at 7 o'clock.

As a penalty of a proved infraction in a first offense, article 2 in the by-laws of Interfraternity council's constitution provides for a vote of censure by Interfraternity council, notice of which shall be published in the *Collegian* and sent officially to every national fraternity at Penn State and to the national chapter or headquarters of the guilty fraternity. Article 9 of the rushing code states that fraternities found guilty shall forfeit the \$50 bond posted for violation.

PASSES REMAIN ON SALE FOR COURSE

Russian Symphonic Song Group Will Open Winter Series Here November 1

With a record ticket sale reported for the opening week of the campaign, officials for the Artists' course, sponsored by the College, will continue the sale throughout next week at the treasurer's office in the old Beta Theta Pi house.

Good seats are still available for the season, Director Richard W. Grant, chairman of the course committee reports. He also expects to have the Auditorium crowded to capacity when the Russian Symphonic Chorus opens the course November 1.

According to advance reports, the chorus is one of the unusual musical organizations in the world. The chorus appeared for several seasons in New York City, then made a tour of the larger cities in the country. Studied under Famous Composer. The singers are under the direction of Basile Kibalechik, noted Russian composer and arranger. Mr. Kibalechik first attempted conducting at the age of twelve when he was called upon to lead a large choir in his hometown.

He has also directed one of the famous Russian choirs, the Archangel's Chorus of Petrograd, and the Chorus of the Petrograd Conservatory of Music. During his early life, the conductor studied under Rimsky-Korsakoff, one of the foremost Russian composers.

Metropolitan critics have praised the effects secured by the choir in their arrangements of Russian folk songs. Among the favorite numbers which they probably will offer here are "Volga Boatmen Song," "Dvornik," "Humoresque," and the "Credo" by Giechaninoff.

PHILADELPHIA MINISTER WILL SPEAK IN CHAPEL

Dr. John A. MacCallum, pastor of the Walnut Street Presbyterian church in Philadelphia will speak on "The Quest of Life" before the chapel audience in Schwab auditorium Sunday.

Dr. MacCallum, a native of Canada, was educated at the Columbia university Union Theological Seminary and received the degree of doctor of divinity from Lafayette university. He is the twenty-third of his immediate family to be ordained to the Presbyterian ministry.

Among the books of which he is author is "Now I Know" and "The Great Partnership."

PROFESSOR ON YEAR'S LEAVE RECEIVES DEGREE IN EUROPE

Prof. Paul H. Schweitzer of the Engineering Research department has returned from a year's leave in Europe where he received the degree of Doctor of engineering at the Dresden Institute of Technology in Germany. Most of his time in Europe was spent at a study of new methods and results in oil engine research. He has examined Diesel engine research here.

STATE WILL BUILD NEW THOROUGHFARE THROUGH BARRENS

Grants Contract to Pittsburgh Construction Company for Approximately \$300,000

HIGHWAY MAY CONNECT WITH TYRONE TURNPIKE

Local Officials Approve Plans Of Proposed Link—Road To Aid College

A new state highway running from College Avenue at North Atherton street several miles into the Barrens, will pass behind the Recreation Hall and afford another route for vehicles after indoor athletic events. The congested traffic in front of the Hall will probably be relieved after completion of the road.

Contracts for the first section of the proposed highway have been awarded to the Ross Construction company of Pittsburgh by the State Department of Highways. The bid was revealed to be \$298,107.

The Borough of State College, co-operating with the State department, has approved plans for the road construction. All necessary permits for the right-of-way have been granted by borough officials.

Starting at College avenue, the highway, which will be constructed of concrete, will run north on Atherton street and into the Barrens. The first section will be almost six miles long.

To Add Sections Later

Definite arrangements for the completion of the entire highway have not been revealed by the State department. It is probable, however, that in several years the road will run through Waddle and connect with the highway from Bellefonte to Tyrone.

State officials believe that the new roadway will afford an outlet for the small farm settlements north of State College as well as a well-traveled connecting link between two important highway routes.

"The new roadway is another step taken by the State Highway department to improve transportation in Centre county," stated Benjamin J. Eynon, State commissioner of Motor Vehicles.

WOMEN DEBATERS DISCUSS POLICIES

Forensic Council Holds Convention At Harrisburg—Coach Plans Schedule For Year

Questions and policies for the women debaters this season were discussed at the convention of Forensic Council held at Harrisburg, October 12.

Topics under consideration for debate under the Colsworth thirteen-month calendar, the effect of the machine age, the Emergencies of Women, and the limiting of higher education for those specially adapted to.

AG MEN TO BROADCAST FARM CHATS PROGRAM

Extension Specialists Plan Topics For KDKA Radio Lectures

Extension specialists of the School of Agriculture will broadcast thirteen talks from Station KDKA, Pittsburgh, starting this week and continuing until April 16. West Virginia agricultural speakers will alternate with Penn State men on the farm chats program.

Broadcasting at 12:30 o'clock, the talks will continue for ten minutes on subjects of timely interest to farmers, gardeners, orchardists, dairymen, and livestock producers, as well as consumers of farm products.

The programs will include such topics as "The Market Egg of the Future," "The Farm Woods a Sixty-Year Bank," "Interesting Features of Clean Milk Production," "Outchuck and Then Control," and "The Big Five of Forest Tree Planting."

Undeclared Lions Seek Victory Over Powerful N. Y. U. Gridmen At Yankee Stadium Tomorrow

Telephonic Communication Will Relay Play-by-play Account of N. Y. U. Battle

In order that students not attending the Penn State-New York university football game in New York tomorrow may receive a play-by-play account of the encounter, telephonic communication will be made between Recreation hall and the Yankee stadium for the returns at 2 o'clock tomorrow afternoon.

It is probable that the telephone in Recreation hall will be connected with a loud speaker in order that the returns may be audible to all present. The diagrammatic field with the name and number of each player will also be used to follow the progress of the game. Scores of other minor games throughout the East will be received regularly by arrangement with Western Union.

The sophomore band will be present at the returns while entertainment will be provided between halves. Hamilton M. Redman '30 and Walter G. Cott '30, associate football managers will be in charge of the returns. The game will be announced over the telephone from New York by Charles A. Wakeman '23, formerly chief announcer and studio manager at radio station WCAE in Pittsburgh. Admission to the returns will be fifty cents.

The Penn State Blue band will broadcast from Station WIZ in New York over the National Broadcasting system from 12 until 12:30 o'clock tomorrow afternoon. Results of the cross-country meet between Penn State, New York university, and Lehigh will also be announced over the network.

163 TURN OUT AT PLAYERS' TRIALS

Candidates Try for Positions In Casts of 3 Coming Winter Shows

One hundred and sixty-three candidates reported at the Penn State Player studio above the Auditorium stage for try-outs, Wednesday night. Trials for the next three shows will be continued tonight at the studio.

Director Arthur C. Cloetingh, when interviewed after the first trials, expressed considerable optimism and hope for a successful season. He was especially pleased with the large turnout of freshman aspirants.

"The director said, 'We are laying plans far ahead this year, and feel sure that we are facing the brightest year in the history of the organization. Judging from the material at hand, our season can be nothing but a success.'"

Try-outs were held at this time for the first three shows scheduled for production this year. The shows are "The Royal Family" to be presented in December, "The Good Hope" the January offering, and "The Radio Murder Mystery," a thriller to be produced early next year.

Announcement of those successful in the opening trials will be posted in the bulletin board in Liberal Arts building this morning. Further notice of try-outs will be placed on the board early next week.

Prior Cloetingh, Prof. David D. Mason, and Frank S. Neubaum conducted the tests for prospective players. Another general try-out for actors will be held later in the season.

AG MEN TO BROADCAST FARM CHATS PROGRAM

Extension Specialists Plan Topics For KDKA Radio Lectures

ALUMNI REGISTER FOR HOMECOMING

Golfers To Enter Tournament At Annual Celebration October 25, 26, 27

Alumni and former students are now making reservations at headquarters for the tenth annual Homecoming celebration to be held at the College October 25, 26, and 27. Official in charge of the event expect the largest turnout in recent years.

Headquarters for visitors will be established in the Almyo Friday afternoon, and graduates will register there immediately upon arrival. Alumni tags will be secured at that time and telephone facilities will be provided for the guests.

Opening the week-end of activities, early comers will report to the Cadet register for the Alumni tournament. Dr. William S. Glenn, Jr., chairman of the touring committee, announces that valuable prizes be awarded to the winners in this event.

Students Plan Mass Meeting
The annual Varsity club dinner will be held at the Cent. e Hotel, Friday night at 7 o'clock. Friday night this event has been the get-together for past years for most of the famous Penn State athletes, graduate managers, and faculty members.

Student leaders are at present laying plans for a mass meeting to be held at 7:30 o'clock Friday night. President Ralph D. Hetzel has been asked to speak at the meeting, as well as other faculty members.

A cafeteria-style luncheon will be served at the Almyo Saturday noon by the State College Parent-Teachers' association. A campus tour, football game, and smoker are also being planned for the day. Women graduates of the College will be entertained at an Alumni party Saturday night in Grange Memorial dormitory.

SPEAKS BEFORE ENGINEERS

Prof. John R. Haswell, extension agricultural engineer, addressed the annual meeting of the North Atlantic section of the American Association of Agricultural Engineers on "Rural Electrification" at the Massachusetts Agricultural college, Amherst, Mass., last night.

The W. V. allotment of \$567 will be the largest percentage of funds with the \$250 set aside in the W. V. G. A. convention holding second place. The W. V. G. A. fund is \$241 while \$81 is allowed for club work.

Student activities will account for the remainder of the state allotment, being as follows: crosses, \$120; Freshman Week, \$10; Hand book, \$100; hallowe'en party, \$20; Christmas party, \$75; Hesh-ho dance, \$75; Costume Cotillion, \$100; May Day, \$175; printing, \$75; tennis and bowling, \$75; house dues, \$60; Good Form Week, \$10; Town girls, \$75. Any expenditures that exceed the allotment will be taken out of the interfraternity fund which provides \$975 for such cases.

GENERAL ELECTRIC HEAD WILL SPEAK ON FINANCE

Speaking on "Business and Finance," Mr. A. D. Marshall, assistant secretary of the General Electric company, will address engineering students in the Chemistry amphitheatre at 10 o'clock this afternoon.

Mr. Marshall has become well versed in cooperation affairs and the conduct of business during his career as an executive of the General Electric company. All students interested in the topic are invited to attend the lecture.

Penn State Will Meet First Major Threat In Violet Team

MEEHAN-COACHED ARRAY BOASTS SEASONED LINE

Bezdek Names French, Dietrich, Lasich, Evans To Carry Nittany Offense

Seeking victory in its first major gridiron contest of the season, Coach Hugo Bezdek's carefully groomed Penn State football machine will encounter New York university's Violet battery in the Yankee stadium in New York City at 2 o'clock tomorrow afternoon.

The New Yorkers will attempt to regain their winning stride against the Nittany array tomorrow after receiving a 20-0 setback from a powerful Fordham eleven Saturday.

Sweeping all opposition aside the Meehan-coached combination defeated Vermont university 77-0 in their first game of the season. A Vermont West Virginia Wesleyan team fell before the onslaught of the Violet eleven by a 20-0 verdict at the Polo grounds Saturday.

The defeat of the New Yorkers at the hands of Fordham's gridmen was accomplished when the 110-pound team stopped with the ground and aerial attack of the Violet machine and unleashed a mauling attack which paved the way for the New York downfall.

Veteran Line
A veteran line will oppose the Lion's tomorrow's fray. With almost the entire line left from last year's team, Coach Meehan has built a powerful forward wall around Len Grant, giant tackle Follet and O'Hearn are the only members of the 1928 backfield to return to this season's team.

Neaseck and Marshall will probably start at the end post for the New Yorkers. Both wagnmen are veterans of last year's team. Captain Grant and Conannon will probably receive the tackle assignments with Sarpson and Myer at the guard posts. Schneider will be at center for the Violet team.

O'Hearn will be at the quarterback post with Follet and Jones at the half-back.

W. S. G. A. PLACES BUDGET AT \$2830

Treasurer Announces Allotments For W. S. G. A. Club

With the blank tax of five dollars per member providing the basis for the Women's Student Government Association, the year budgeting has just completed a budget for the year totalling two thousand eight hundred and thirty dollars, according to Miss Elizabeth C. Bell '32, treasurer.

The W. S. G. A. allotment of \$567 will be the largest percentage of funds with the \$250 set aside in the W. V. G. A. convention holding second place. The W. V. G. A. fund is \$241 while \$81 is allowed for club work.

Student activities will account for the remainder of the state allotment, being as follows: crosses, \$120; Freshman Week, \$10; Hand book, \$100; hallowe'en party, \$20; Christmas party, \$75; Hesh-ho dance, \$75; Costume Cotillion, \$100; May Day, \$175; printing, \$75; tennis and bowling, \$75; house dues, \$60; Good Form Week, \$10; Town girls, \$75. Any expenditures that exceed the allotment will be taken out of the interfraternity fund which provides \$975 for such cases.

GENERAL ELECTRIC HEAD WILL SPEAK ON FINANCE

Speaking on "Business and Finance," Mr. A. D. Marshall, assistant secretary of the General Electric company, will address engineering students in the Chemistry amphitheatre at 10 o'clock this afternoon.

Mr. Marshall has become well versed in cooperation affairs and the conduct of business during his career as an executive of the General Electric company. All students interested in the topic are invited to attend the lecture.
