FOOTBALL AND ALUMNI

Penn State's football regime will undergo the perennial test tomorrow afternoon when a determined Lafayette eleven, smarting under its defeat at the hands of Bucknell last Saturday, invades the Lion lair to do battle with Hugo Berdek's gridiron forces before a critical Homecoming Day crowd.

Undoubtedly the N. Y. U. defeat has fired the eyes of the gridiron-controlled group. Unfortunately and perhaps unjustly, that setback was the signal for a not-unusual outburst in alumni quarters.

Withal, this ballyhoo serves no noble purpose. The recurrence of such ballyhoo year after year has a decided effect upon the morale of the student body.

The widespread practice of recruiting and subsidizing athletes in American colleges and universities was disclosed yesterday in the published report of the Carnegie Foundation for the Advancement of Teaching.

AN OLD, OLD QUESTION

Shortly after the establishment of the Pennsylvania State College a code of regulations for freshmen was formulated by the students of that time. The code was a strict one, but it proved such a success that it was handed down from year to year.

At many colleges in the East and West the first-year men "lead a dog's life" and yet very few of them drop out or even bemoan their plight.

The University of Wyoming has a rather stiff system of customs but it is enforced strictly and no changes are made each year.

Favorable comment on Penn State's football team has filled metropolitan sports pages since Saturday's losing struggle against a powerful N. Y. U. eleven.

THE LION'S DEN

BY DANIEL

There's only one thing worse than getting up for an 8 o'clock class, Daniel avers, and that's getting up for six of them.

New R. O. T. C. Officers

- Private Keoput
Major League
General Nussance
Sergeant Fish
Major Chmax

While eating a cracker last night a Penn State student swallowed his false teeth, a reporter tells us.

"Another wise-cracker that pulled a boy's!" the managing editor added.

A Dirty Joke

Miss Infirmary: Go wash your face and neck. Miss Mae Hall: Neck who?

Water! Water!

Speaking of Tuesday night's disastrous fire at Pine Grove Mills, one of Tussey Mountain's oldest residents says that never since his own countin' days had he seen so much spakin'.

STUDENT RUNS DOWN SORORITY HOUSE MOTHER

Things have come to a pretty pass, Daniel believes, when a house mother can't be trusted.

Homecoming Day

From the looks of the Alumni Homecoming program, the role of the old grad has not changed since last year's performance.

Three unsuspecting Blue Band members decided to visit a Greenwich Village night club while they were in New York for the football game last week.

After what seemed to be an unusually long ride, the taxi stopped in front of the club.

"\$2.55," the cab man bellowed. Two hours later, the trio left the club, signalled for a taxi, and went back to the hotel.

Battle of Wits

Froth (to College Humor): Quit copying our jokes. College Humor (to Froth): The same to you.

Perhaps the most embarrassing moment in the freshman's young life was experienced last Sunday morning when a large, silver spoon crashed to the floor of a crowded New York subway.

A Divorce Suit? Kick Breaks Tie As Lions Win League Clash From Haverford

Apparently, that's not the only kind of tie a kick can break.

But to get back to subways for the moment, we are reminded that 5 o'clock traffic at the Allen-College intersection is a municipal problem.

Another pressing problem was presented last Tuesday when torrents of rain prevented a "dry" student from walking the streets.

Mistaken Identity

An alumnus, according to our informant, is not a former student.

AGRICULTURAL LEADERS ATTEND LECTURE COURSE

Instructors Open Three-day Session In Rural Electrification

One hundred and twenty-five agricultural engineers from all parts of the State are attending a three-day course in rural electrification, sponsored by the department of farm machinery, which began yesterday at the Centre Hills Country club.

The department of farm machinery is cooperating with the Pennsylvania Joint Committee on Rural Electrification in conducting the course. The session opened yesterday afternoon with a talk on dairy refrigeration by Andrew J. Nicholas, of the department of mechanical engineering. Dearl Ralph L. Watts spoke at the night session.
