GRIDMEN OPPOSE COLGATE FOOTBALL MACHINE IN 1930

To Face Orange In Houseparty Battle—Meet Bucknell At Lewisburg

QUAKERS WITHDRAW FROM LIST—DATE REMAINS OPEN

Campaign Starts With Niagara, Lebanon Valley, Marshall, Closes With Pitt

Tentative arrangements for the 1930 football campaign, listing the first of a series of three contests with Colgate university, were released by officials of the College Athletic Association yesterday.

With the withdrawal of the Pennsylvania game November 15 from the schedule, the date previously set for the Philadelphia engagement remains open. Games with Colgate will be played here in 1930 and 1931 and at Hamilton, N. Y., in 1932.

The principal home encounters of the season will be played with Colgate and Syracuse. The Maroon team will meet the Lions on Alumni Homecoming day while Syracuse will provide the opposition for Pennsylvania day. With the exception of New York university, Pennsylvania, and Colgate opponents for the 1930 campaign will be the same as this year.

Play At Lewisburg

Niagara will open the season with Lebanon Valley and Marshall scheduled to play here on successive Saturdays. The Penn State team will engage Bucknell at Lewisburg for the first time in the history of gridiron relations between the two institutions. A return game with Lafayette at Easton and the annual Thanksgiving contest with the University of Pittsburgh complete the list of games.

Although no definite arrangements have been made as yet, officials are attempting to secure a suitable opponent for the Lions November 15. Some difficulty is expected in filling this date because of the lateness of the attempt.

AG SCHOOL OPENS POULTRY COURSE

Department Begins Instructions to Visiting Farmers—Program Ends Saturday

Opening the ninth annual poultry short course, the College poultry department is conducting a series of instructions for visiting poultrymen of the State yesterday. The course will end tomorrow.

Offered primarily for farmers who are interested in securing the greatest possible returns from their flocks, the course will cover problems of nutrition, management, diseases, and housing and equipment. Through the cooperation of the department of agricultural and biological chemistry, animal and dairy husbandry, agricultural economics, and farm machinery, a complete program has been prepared.

Visiting short course students will be given an opportunity to become acquainted with the latest equipment used in poultry work during an inspection of the College farms. In addition time has been set aside during the week for any personal problems which the students may wish to bring up.

PROF. KNIGHT PLANS COURSE IN METALS FOR NAVAL MEN

Prof. Oscar A. Knight, associate professor of metallurgy, has outlined an advanced course in metallurgy for the United States Navy officials here making a special study of Diesel engines for submarine use. The course deals especially with the metals and alloys used in the construction of Diesel engines.

DEAN CHAMBERS WILL SPEAK TO TEACHERS IN PITTSBURGH

Dean Will G. Chambers, of the School of Education, will address the Pittsburgh teaching center of the College at Pittsburgh tomorrow night. Dean Chambers also will speak at the meeting of the Pi Lambda Theta fraternity at the Congress of Women's club headquarters tomorrow noon. His address will touch upon some of the educational observations made by the Dean and his wife in their recent trip around the world.

DEAN STEIDLE REVEALS PLANS FOR WORLD'S FAIR EXHIBITIONS

"Situated on an artificial island, a mountain of concrete and steel which will loom larger than any building on the Penn State campus has been planned as the principal feature of the mineral industries exhibit at the Chicago world's fair in 1933," Dean Edward Steidle of the School of Mineral Industries announced today in explaining the plans of the committee which he heads.

The mountain, designed to indicate both geological features and methods of open pit mining, will be provided with paths so that the crowds may inspect all the features of the exhibit at close range, the dean said. Exact duplication of natural features will probably be produced on the outer surface of the range. A tunnel entering the side of the mountain will lead to a life-size metal and coal mine, where there will be exhibits of the most modern equipment and safety devices.

"In addition to the mountain range there will be a building devoted to mineral industries," he continued "in the center of this it is planned to place a thirty-foot revolving globe showing the continents in relief, and indicating how the utilization of resources has determined civilization by their location on the earth's surface."

Radiating from the globe there will be geological equipment used in locating and estimating mineral deposits, a group of commercial minerals, and examples of important methods of processing, presented in a dramatic way. The committee plans to show popularly how the mineral industry provides raw materials for all other industries, and how it molds the life and prosperity of the nation.

Various mineral industrial plants will be asked to cooperate in providing for the exhibits, which it is hoped will be even better than the one at the Panama Pacific Exposition, where the mines exhibits, under the direction of Dean Steidle, obtained a gold medal for the best governmental exhibition.

BOARD ENDORSES CHEER CAMPAIGN

Student Organization Believes Song and Yell Movement Will Increase Spirit

Unanimous approval of the movement to secure new Penn State songs and cheers was voiced by Student Board last night. F. Bruce Baldwin '30, president of the Board believes that the new songs and yells will appreciably improve student cheering.

"Although the present cheers and pep songs at Penn State are satisfactory," Baldwin said, "some new ones should prove more effective." The decline in cheering at football games this fall might be traced to a lack of spirited cheers. The interest already shown in the movement proves that students appreciate the need for new songs and cheers.

That short cheers are more suitable at athletic events than the present long ones is the opinion of Isador B. Hecklen '30, head cheerleader. "The time between plays is too limited to permit long College cheers," Hecklen said. "Short yells will remedy this difficulty and improve the cheering."

Consider All Contributions. It was pointed out by student leaders that none of the present yells or songs would be abandoned unless the Board of Selection authorized it. The new contributions will be added to, not substituted for, the present store of songs and cheers. The Board of Selection, composed of faculty members and students, will pass judgment on all contributions. This Board will be named early next week.

Any student, alumnus, or friend of Penn State is eligible to complete in the contest, to secure new songs and cheers. All original contributions will be considered.

Cheers and songs should be submitted to the Song and Cheer Editor, Penn State Collegian, State College, Pa., not later than January 15. All contributions should bear the name and address of the author.

RESEARCH EXPERT WILL SPEAK HERE

W. E. Ruder '07, To Lecture Before Meeting of Sigma Pi Sigma Fraternity Tonight

Mr. Williams E. Ruder '07, of the General Electric company research staff will speak on "The Magnetic Properties of Steel" during an open meeting of Sigma Pi Sigma, honor physics fraternity, in the physics lecture room at 7 o'clock tonight. Graduated from the School of Engineering at Penn State, Mr. Ruder specialized in metallurgy before the present curriculum in metallurgy was adopted. Upon leaving college he was employed by the General Electric company in the research laboratory at magnetic alloy.

At present Mr. Ruder supervises all research and development work of the company dealing with ferrous metals. This includes work at the Schenectady and Pittsfield laboratories, and at the Pittsburgh plant of the Allegheny Steel company.

CLASSES NOMINATE SCHOLARSHIP MEN

Faculty Committee Will Name 10 Recipients of Awards Early Next Month

From a list of names submitted by the junior and senior classes and the deans of the schools, five members from each of the two classes will be selected early in January by the Senate committee on academic standards as the recipients of the eight Louise Carnegie and two John W. White scholarships.

Twenty-five students were nominated at the last meeting of the senior class together with names of the twenty-seven juniors, who were selected at a class meeting in the same place last week. These were sent in to the committee. Supplementing the list selected by the classes, each dean will submit ten names.

Y FRESHMEN PLAN STAGE OFFERINGS

Men and Women Cabinet's Combined For Series of Productions Early Next Month

As part of the tentative program of the Freshman Y W C A. cabinet, several plays will be staged after Christmas in conjunction with the Freshman Y. M. C. A. council, M. Isabella Yackel '31, advisor of the group, announced yesterday.

Recreation nights held once a month for freshman girls, will be sponsored by the cabinet to enable the class to become better acquainted. A committee has been appointed to secure the Amory for this purpose.

The cabinet has resumed the weekly practice of making sandwiches for sale in the dormitories and also plans to assist the senior cabinet in the management of the annual Christmas party for children of the rural districts.

CLASSIFIES COLLEGE TYPES

In the near future colleges will have to divide themselves into three types, one for the "bread and butter" students who come to college to get a foundation for later business, one for the "moon-shin coated youth who prefers a football game to the classroom, and one for the quiet seeker after learning," believes Prof. David Snedden, of the Teachers' college, Columbia university.

CO-EDS WILL HOLD BAZAAR

A Christmas bazaar will be given by the Ellen H. Richards club in room 11 Women's building from 1 until 5 o'clock December 14. Gifts, Christmas candies and Christmas cookies will be placed on sale.

SENIOR, SOPHOMORE DANCE CHAIRMEN NAME COMMITTEES

Paul S. Williams '30 Selects 14 To Assist In Arranging For Ball Jan. 17

VALLEE MAY PLAY AT UPPERCLASS FUNCTION

Brightbill '32 Chooses Staff of 11 Aides in Second Year Hop Preparations

Members of the Senior Ball and Sophomore Hop committees, were announced last night by Paul S. Williams '30 and Charles K. Brightbill '32, chairmen of the respective committees.

John L. Barnhart, John N. Engel, Harold H. Garonik, Chester W. Garretson, Richard B. Bandler, Christian K. Eberstadt, Miss Caroline S. Hall, Alfred N. Hara, Frank P. Kinson, Horace H. Martin Jr., Hewitt B. McCloskey, Charles E. Patterson, Warren F. Seubel and D. Freeman Snyder were named by Williams to assist in making arrangements for the Senior Ball to be held January 17.

Brightbill appointed the following to serve on the Sophomore Hop committee, John A. Harris, Robert B. Hewes, Robert L. Hibbard, William L. Hutchinson, George G. McNary, Harold A. Meyers, Leon L. Rackow, Karl K. Rush, James B. Spangler, Jr., Thomas F. Spear and W. Foster Wakefield.

Negotiate With Bernie, Vallee. Efforts are being made to improve the acoustics in Recreation hall for the annual senior class function if these prove impracticable the use of the armory for the dance will be considered.

The Ball committee is negotiating with Hal Kemp, Ben Bernie, Don Beator, Jean Goldkett, and Rudy Vallee, Williams announced.

The band which is to furnish the music for the Sophomore Hop probably will be selected from among a group consisting of Oliver Naylor, Jan Garber, Jack Crawford, Duke Ellington, Ted Weems, Guy Lombardo, Zez Confrey, and Jack Pettis, according to Brightbill.

HOFFMAN REVIEWS REGISTRARS' WORK

Association Publishes Article on Recent Recording Systems and Their Use Here

Registrar William S. Hoffman is the author of an article, "Some Recent Developments in Recording Systems," published in the current issue of the Bulletin of the American Association of Collegiate Registrars.

Mr. Hoffman was appointed editor of the Bulletin at a convention held in Seattle last April. In his article the registrar discusses the manner in which records of Penn State students are kept.

While he was chairman of the committee on the exhibition of office forms and filing equipment two years ago, Mr. Hoffman prepared an eighteen volume report on the work. This report has been used by colleges all over the country as a reference material.

1 KISS WITH EACH VOLUME YEARBOOK SOLICITORS OFFER

"A chaste girl's kiss with every copy of the year book purchased at the University of Minnesota," was the promise of the business manager of the publication in order to increase sales.

Senate, Students To Confer on Calendar

In order that a College calendar which will be suitable to both faculty and students may be devised, a committee has been chosen from Student Board to confer with College Senate representatives.

PRESIDENT SPEAKS TO FACULTY GROUP

Head Discusses Administration Problems—Society Elects Officers for Year

President Ralph D. Hetzel addressed the Penn State chapter of the American Association of University Professors at its meeting Wednesday night. Election of officers for the coming year was held following the president's address.

Dr. Tschan Elected President. Dr. Francis J. Tschan, of the history department, was elected president of the organization to succeed Dr. Harrison H. Arnold. Dr. Tschan previously served as vice-president of the society.

Dr. Roy D. Anthony, professor of pathology, was selected to serve as vice-president of the group, while Prof. William E. Butt, of the economics department, was appointed secretary. The other executives will remain in office until next year.

THESPIANS SELECT REVUE FOR JAN. 17

Prepare Cabaret Scenes Featuring Black-face Comedy as Next Offering of Actors

The Thespian club will hold a Campus Revue for the second consecutive year, officials of that organization decided when they met Tuesday night, January 17. It has been set as the tentative date for the presentation.

The production this year will be in the nature of a cabaret scene instead of the usual and men that characterized the revue last year. Black-face comedians will feature the offering as in the first showing.

DR. HART TO ADDRESS CHAPELGOERS SUNDAY

Chaplain Holds Position as Student Director At Alma Mater

Dr. John R. Hart, Jr., Episcopal chaplain at the University of Pennsylvania, will address the student body at chapel exercises in Schwab auditorium Sunday morning.

DEAN ATTENDS DEDICATION

Dean Edward Steidle, of the School of Mineral Industries, is representing the College at the dedication of the new mining building at Lafayette college today. William D. Plank '08, heads the mining department at Lafayette.

Constructions Valued At \$4,213,000 Mark Celebration Next Fall

College Sets Jan. 31 As Convocation Date

Mid-year convocation will be held January 31 instead of on the original date, February 11, according to an announcement from the President's office yesterday.

'INQUIRER' WRITER TO SPEAK DEC. 17

Richard J. Beamish, Washington Correspondent, Will Talk On 'News Features'

Richard J. Beamish, Washington correspondent for the Philadelphia Inquirer and prominent political writer, will speak here Tuesday night, December 17, on "News Features How to Gather and Write Them."

Mr. Beamish is at present making a tour of the colleges and universities throughout the State speaking on topics related to journalism. He already has visited Villanova and other institutions near Philadelphia.

PROFESSORS BEGIN METALS RESEARCH

Metalurgists Investigate Flow in Forging Processes, Nitrogen Steel Improvements

Two metallurgical researches are being conducted by the School of Mineral Industries, Dr. David F. MacFarlane announced yesterday.

An investigation of the flow of metal in the forging and extrusion of brass is being conducted by Prof. Orville B. Blair, of the metallurgy department. The Iron Metal company, of Bellefonte, is cooperating with Prof. Blair in this work.

DR. HASEK HEADS LOCAL PHI BETA KAPPA CLUB

Organization Elects Prof Rowland To Fill Treasurer's Office

Dr. Carl W. Hasek, head of the commerce department, was selected president of the Phi Beta Kappa club of State College in the anniversary dinner Tuesday night.

Miss Sabina W. Vought, College librarian, was chosen as secretary, while Prof. Charles J. Rowland, of the economics department, received the treasurer's slip.

College Will Open Units For Seventy-fifth Anniversary

EXPANSION BEGAN WITH ERECTION OF NEW GYM

Heads Plan Replacing Present Campus Roadways by Grass and Walks

Using sums from the Emergers, Building Fund, State appropriation, and student contributions, amounting to \$1213,000, Penn State will complete the step in expansion begun with the erection of Recreation Hall in 1928 by finishing buildings now under construction for the celebration of the seventy-fifth College anniversary next year, according to plans revealed in the construction office yesterday.

Outstanding improvement on the front campus include removal of the old Bellefonte Central freight station which will be replaced by a new structure west of Atherton street, raising of the Old Mining building and closing of the Allen and Pugh street entrances to the campus.

PLEBES MAY DON NEW WOOL DINKS

Influenced by the recent cold weather, Student Council passed a motion permitting freshmen to don a gray woolen cap with a tassel in place of the regulation dink at the meeting in room 11 Liberal Arts building Tuesday night.

The practice of wearing the cap on the striding pond was granted a year and the Council's action means the caps optional for campus wear this year. They will be placed on sale by local merchants and will be uniform in style.

PROFESSOR DISCOVERS 'NEW' PREHISTORIC MAN

Discovery of a new species of prehistoric man, which may prove to be the "missing link" in the search for the "missing link" has been announced by W. E. Lawrence, assistant professor of cultural anthropology at Western Reserve university. The man, found recently near Peking, China, is thought to be a "cousin" of the American Indian.
