

**POOL FUND SEEKS CLASS DONATIONS**

(Continued from last page)

a plan for including the pool and accessory equipment in one additional wing instead of two as was originally proposed.

It is possible that student and faculty lockers with separate dressing rooms for swimming teams, handball and squash courts, Turkish baths, and a therapeutic room will be included in this wing. An outside terrace for sun baths and lamps for use during the winter also may be provided.

Present plans for the swimming pool include chlorination for disinfecting purposes with water constantly in circulation through the pool. A small gallery for spectators is also under consideration.

**GEOLOGY OFFICIALS CONFERENCE**

Prof. Chesleigh A. Doane, head of geology work, and Prof. Claude F. Barb, of research, oil and gas production conferred with Dr. George H. Ashley, State geologist, in Harrisburg last Tuesday on petroleum research.

...on the table it's **SKILL!**

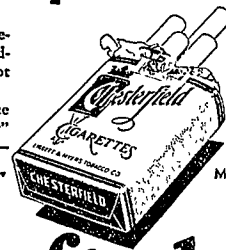

...in a cigarette it's **TASTE!**

"JUDGE A TREE by its fruit." The endless detail of ageing tobacco, blending and cross-blending, the standard Chesterfield method, is not what interests you.

But its "fruit"—keener, spicier aroma, true mildness with unmistakable tobacco "character"—is just the one thing that smokers can judge by—

"TASTE above everything"

MILD... and yet THEY SATISFY

**Chesterfield**
