NEW RUSHING CODE RECEIVES CONSENT OF I. F. COUNCIL

Committee Meets With Dean Warnock To Work Out Revision Plans

GROUP ADOPTS SYSTEM OF PREFERENTIAL BIDS

Violators Will Forfeit Social Privileges for Ensuing Term, \$50 Bond

Interfraternity Council approved the new rushing code at a meeting, Wednesday night after a committee meeting in conjunction with Arthur R. Warnock, Dean of Men, had worked out the mechanics for revision of the present system

Under the new code, no rushing shall take place before 11:30 Wednesday morning September 21, the opening day of College. This differs from last year's plan when freshmen were permitted to rush during Freshman Week

The season will be divided into two periods, the first ending at 10 o'clock Tuesday night, September 30. The second period will begin at 11:30 the following morning and will end at 8 o'clock Friday evening, October 3

Adopted as part of the new system, the preferential bid plan requires all freshmen to present preference cards at the office of the Dean of Men on Saturday afternoon, October 4. These cards will be sorted out together with the fraternity bid cards which are to be sent immediately following the close of the second period

As the men come in, only those which are closest to the freshman's first preference will be advanced to the rusher and the remainder withheld. It is hoped by the Council that this plan will prove a death blow to last minute "lead-piping" methods

Violations of the rushing code will be punished by forfeiture of the \$50 bond previously posted and the suspension of all social privileges for the first semester of the immediate year. Names of offending fraternities will be published in the Collegian as formerly
