ESTABLISHED 1904

"FOR THE GLORY OF OLD STATE"

VOL. 27, No. 2

STATE COLLEGE, PA., TUESDAY, SEPTEMBER 23, 1930

PRICE 5 CENTS

INITIAL PERIOD OF RUSHING SEASON OPENS TOMORROW

Interfraternity Council To Hold Meeting in Sigma Pi House At 8 O'clock Tonight

WILL WARN FRATERNITIES AGAINST BREAKING CODE

Violators To Forfeit \$50 Bond, All Social Privileges for First Semester

All complaints dealing with violations of the Interfraternity council rushing code should be filed with Prof. Sheldon C. Tanner, recently appointed to I. F. C. Board of Control. Prof. Tanner will convene a meeting of the board soon.

With the opening of College tomorrow morning, the first period in the 1930 national and local fraternity rushing season will begin at 11:30 o'clock. Interfraternity Council will hold a meeting at 8 o'clock tonight at the Sigma Pi fraternity, where the rushing code will be discussed and fraternities will be warned against infractions of the code.

The season will be divided into two periods, the first ending at 10 o'clock next Tuesday night. The second period will begin at 11:30 o'clock the following morning and will end at 8 o'clock next Friday evening.

Present Preference Cards During a date, a fraternity may give a freshman any information about the fraternity, but at no time shall it offer him a bid, except at the proper time following the close of the last period.

Under the new plan of preferential bidding, all freshmen are required to present preference cards at the office of the Dean of Men next Saturday afternoon. These cards will be sorted out together with the fraternity bid cards which are to be sent immediately following the close of the second period.

As the bids come in, only the one which corresponds to the freshman's first preference will be advanced to the rusher and the remainder will be withheld. Freshmen will signify the acceptance of the bid of their choice by appearing for dinner next Saturday evening.

Violations of the rushing code will be punished by forfeiture of a \$50 bond previously posted and the suspension of all social privileges for the first semester of the immediate year. Names of the offending fraternities shall be published in the Collegian.

Fraternity bid cards will be distributed from one o'clock until four o'clock Friday afternoon at the Student Union desk in the foyer of Old Main.

DR. MOORE TALKS AT FIRST CHAPEL

'God Works For Good in Our Lives,' Speaker States in Address To Freshman Class

"God is working for good in our lives and we cannot escape him," declared Rev. John Milton Moore of New York City, general secretary of the Federal Council of Churches of Christ in America while addressing chapel-goers Sunday morning. Dr. Moore expressed the belief that for this reason we have just hope of immortality. The speaker further stated that in man's struggle for character there is hope for a world brotherhood.

That the full value of life can only be realized by seeking out Christ's purpose for the individual is Dr. Moore's belief. In the opinion of the speaker the qualities that go to make excellent characters and develop leaders also bring men of all nations closer.

"Because God has set eternity in our hearts and we are made to do His will we cannot be content living as children of the dust," Dr. Moore continued. "To be happy we must live as God means that we should," he declared in conclusion.

REPAIR ANDY LYTLE CABIN

Repairs and repairs on the Andy Lytle cabin were completed this summer by the Y. M. C. A. Building of a road to the mountain retreat at Shingletown Gap makes the cabin readily accessible from the Campus.

Seventy-Fifth Anniversary Plans Approach Completion; Schools To Arrange Exhibits

Student Body Will Hold Parade on Campus October 24

As part of the celebration of the seventy-fifth anniversary of the founding of Penn State to be held October 23, 24, and 25, the nine schools of the College will place on display in the Armory material exhibits of every activity.

A general program, in which leaders in education, industry, government, society, and religion will take part has been arranged by the committee in charge, headed by Dean Charles W. Stoddard of the Liberal Arts School.

Various sub-committees on invitations, entertainment, publicity, exhibits, and program will take action during the next three weeks to complete plans for the celebration. The invitations group will issue a list of invitations to leaders in the State before October 1.

Students To Participate On the first day of celebration the program will be devoted to educational interests, with meetings for college presidents, high school principals, and men prominent in the educational field.

The entire student body will take part either in a parade or hold a mass meeting in Recreation Hall on Friday, October 24. The program also includes a luncheon for the official guests. The following day, Alumni Day, will be set aside for entertaining graduates.

Hold Conference A series of conferences, to be known as the 75th Anniversary conferences will be held throughout the academic year, the nature of each to be determined by the sponsoring school. The first of this series is the Conservation Congress, sponsored by the School of Education, to take place October 10 and 11.

The School of Mineral Industries will hold an oil and gas conference under the direction of Prof. Chesleigh A. Bonine, head of the department of geology, during the weekend of the Anniversary celebration. Dean Edward Steidle of the School will welcome the visiting oil and gas industrialists to the College. Following his address, discussions will be held in oil and gas sands. Petroleum

Moving its national office to a more central location, Alpha Omicron Pi, women's social fraternity, will establish its headquarters here October 1, in Room 3 of the new office building at Allen street and Beaver avenue.

Mrs. Arthur K. Anderson, prominent among PanHellenic women in State College, and grand secretary of the fraternity, will share the office with Miss Alice Cullane, registrar, and Mrs. Edward Nichols, assistant registrar. Mrs. Nichols has been statistician in the office of the College registrar during the past year.

Alpha Omicron Pi, founded at Barnard College in 1897, will install its fortieth active chapter this weekend at Toronto University. Since 1925 the central office has been located at Bloomfield, New Jersey. The Penn State group, Epsilon Alpha chapter, was admitted in April, 1929.

DAIRY JUDGING TEAMS COMPETE IN EXPOSITION Agri-Business To Appraise Cattle, Products of Eastern States

The Penn State dairy cattle judging team and dairy products judging team are in competition with eastern university and college teams at the annual Eastern States Exposition held at Springfield, Mass. from Sunday to Saturday.

The dairy cattle judging team composed of Henry E. Bechtel '31, James D. Bohn '31, Harry J. Poorbaugh '31, and Clayton G. Sharpe '31 left Thursday under the direction of Prof. Adam L. Beam of the dairy husbandry department.

HEADS Committee in Charge of Anniversary

DEAN C. W. STODDARD

leaders from various parts of the state will expose the different standards of mining oil. Alumni Day morning will be devoted to a study of the economics of transportation and distribution of Pennsylvania crude oil. Methods of advertising the abundant natural resource will be explained in detail by leading producers.

PLAYERS TO GIVE LAST YEAR'S SHOW

Will Re-enact 'Meanest Man' on October 11 as First Play Of 1930-31 Season

Opening their 1930-31 season with a revival of last season's commencement show, Penn State Players will present "The Meanest Man in the World,"—George M. Cohan's Broadway comedy success, in Schwab Auditorium on "Dad's Day," October 11.

With the exception of the role of Callon Childs which has not yet been re-assigned, the same cast which presented the comedy last spring will again enact the story of the sentimental lawyer who determines to be the "Meanest man in the world." Ralph Radcliffe '31 will for the second time portray the part of Richard Clarke, the struggling lawyer, and will be supported by Phyllis Bendler '33 in the feminine lead.

John J. Rutherford '32 as "New" Stevens, Clarke's college chum, James F. Aber '31 as Fred Leggett, the boy's uncle, Reginald R. Kearton '32 as Michael O'Brien, a small town cobbler, and John L. Catson '32 and Miss Ann L. Miksch '33 as Clarke's underpaid employees, all retain their roles of last season's performance.

Neil G. Campbell '31, Miss Shirley Thorpe '33, Jesse M. McKnight jr. '31, Miss Ruth Nichel '33, and John J. Voorhes '33, all in their original parts, complete the cast. The play will again be under the direction of Prof. David D. Mason, associate director of the Players.

Two Upperclassmen Will Weather Winter in House Built on Wheels

"A house built upon wheels," to paraphrase the biblical quotation, will serve as the residence of two Penn State students while pursuing their studies at the College during the coming year.

Failing to obtain work in June, James B. McKelvey '31 and Ralph R. Cramer '32 used the summer months to build a portable home in which they will live this winter. The saying in 1900 rent will nearly equal the savings which they would have accumulated had they obtained work.

Starting with an old trailer chassis, the two students planned and built their college home in six weeks. Six and a half by twelve feet, "the house built upon wheels" contains all the essentials and many of the comforts of larger quarters. From the radio and the aerial built between ceiling and roof to the folding rocking chair no detail was overlooked that would make for a cheerful home.

Rumors Set I. F. Ball At Fall Houseparty

The date of the proposed Interfraternity Ball rests between the three following dates: the Friday night of Houseparty week-end, the week-end preceding Christmas vacation, or the mid-semester vacation, according to rumors spreading around the campus. No action has been taken on these dates, however, and it is believed that none will be taken until after the close of rushing season. Frank Diedrich, president of the Greek council, as yet has not made any statement regarding the affair.

TRIBUNAL WARNS INCOMING CLASS

Will Employ Policy of Strict Customs Enforcement in Backing New Code

Strict enforcement of customs was the warning note sounded to the underclassmen by John Zorella '31, Student Tribunal head, last night.

With hatmen from the various campus societies acting as a vigilance committee the tribunal expects to handle the matter of customs enforcement in an efficient manner. Members of Parm Nous, Skull and Bones, and Blue Key societies will be included in the vigilantes.

"Since the customs have been revised and are more as the student body wants them we feel that our policy of rigid enforcement will meet with success," declared the Tribunal president. "And the student court is designed to eliminate all unfairness and hazing during trial of the custom breaker."

Offenders will be reported to hatmen who in turn will act as prosecuting attorneys, while a Tribunal member will defend the underclassman at the trial. Jury duty will be limited to members of the senior class, four or five seniors being chosen for duty at each meeting of the Tribunal.

In accord with the new system, haircuts will be given in private and not on Co-op corner as in years past. The Tribunal plans to hold two meetings a month. The first regular meeting will be held next Wednesday when the cases of special and transferred students will be tried before the student court.

WENDT, SMITH PUBLISH 'MATTER AND ENERGY'

Authors To Release 2-Volume Text For Chemistry Students

"Matter and Energy," a text-book in chemistry and physics by Gerald Wendt, former Dean of the School of Chemistry and Physics, and Prof. Oscar F. Smith, assistant dean, has been published for release this fall by P. Blakiston's Son and Company.

The text of this book, planned as an entirely new introduction to its subject, has been employed for several years at Penn State in a physical chemistry course for students taking only one year of chemistry. In published form it is composed of two volumes, the manual establishes in its first division the true nature of matter and energy, and in the second section proceeds to an interpretation of everyday life in the light of these basic facts.

President Hetzel Will Address College Convocation Tomorrow; Student Enrollment Nears 4400

1199 Freshmen Register Before Saturday Deadline

ATTENDANCE INCREASE MAY EXCEED 200 MARK

Engineering School Leads With 363 Entrants—124 Co-eds Elect Education

Predictions that more than 4400 students will have entered Penn State when registration closes tonight were voiced by Registrar William S. Hoffman as the first rush of upperclass enrollment began yesterday.

The increase in student attendance will total approximately 200 based on incomplete records of students who left College before the end of last year, approximate estimates for upperclass registration list 840 seniors, 1020 juniors, and 1160 sophomores to return this fall. Special students and graduate students will boost the total.

At the close of freshman registration Saturday, 1199 new students had enrolled. Of this number 1029 were men, while women entering totalled 170. The figures include fifty-two probable entrants at Mont Alto School of Forestry.

Engineering School Leads Leading in enrollment by schools, the School of Engineering claimed 363 of the beginners, with an increase of thirty-two over last year's freshman engineering group, although this number did not equal the high total of 1928, when 404 enrolled. The Class of 1933 contained 831 engineers.

Next in ranking as to percentage of new-comers this year is the Liberal Arts School, in which 230 new students have enrolled to date. A decrease of thirty from last year's 260 entrants failed to affect the school standing.

With 179 students entering its courses so far, the School of Chemistry has displaced the Agriculture School in third ranking. Closely following in fourth place is the Education school, with 172 applicants listed. An increase of twenty Chemistry and Physics beginners over the former mark of 157 was more than equalled by an increase of fifty-eight in Education. The 1929 group in Education numbered 114.

Fifth in standing, the School of Agriculture had enrolled 159 students as the close of registration Saturday. That this figure would probably be boosted was indicated by the fact that 172 men and women had signified their intention of entering agricultural courses. Beginners in the

PHI MU DELTA ACCEPTS OMEGA DELTA EPSILON

National Social Fraternity To Hold Installation in October

Phi Mu Delta, national social fraternity, accepted the petition of Omega Delta Epsilon, local fraternity, at a meeting of the executive board in June. The local group, founded here in 1922, will be installed in October.

Founded in 1918 at Amherst, Massachusetts, Phi Mu Delta has 18 chapters and is an outgrowth of the National Federation of Commons Club, with four chapters located at the state universities of New Hampshire, Vermont, Connecticut, and Union College.

In addition, the fraternity has chapters at the University of California, Michigan, Illinois, Maine, Ohio State, Ohio Northern, Northwestern, Boston and Susquehanna. There are also chapters at Massachusetts Institute of Technology, Rhode Island State College, Rensselaer Polytechnic

CHEMISTS ATTEND CONCLAVE

Dean Frank C. Whitmore, of the School of Chemistry and Physics, with other members of the school, attended the annual convention of the American Society in Cincinnati last week. Prof. Grover C. Chandlee, head of the chemistry department, and L. Raymond Parks, director of the chemical laboratories, also attended the conclave.

SPEAKS At College Convocation Tomorrow

DR. RALPH D. HETZEL

LIBRARIAN ACCEPTS FEDERAL POSITION

Miss Vought Obtains Leave of Absence—Gladys Cranmer Will Fill Vacancy

Announcement that Miss Sabra W. Vought, College librarian, had been named librarian and director of library service for the Federal Office of the Interior was followed late last week by the appointment of Miss Gladys R. Cranmer, present assistant, as acting librarian.

Miss Vought has been granted a year's leave of absence from her duties at the Carnegie library here. During that time Miss Cranmer will be in charge of the College library.

In her new position Miss Vought will serve as head of one of the six major divisions in the education office. The responsibility for publication of statistics on libraries, and directories of librarians, will rest with her.

Held Executive Posts

As the Government's contact agent with officers of the American Library Association, Miss Vought will cooperate with that organization in publishing technical bulletins on libraries. She will organize and control the binding and cataloging of survey reports to be issued to colleges of education. Her new duties also call for administration of a technical library of 125,000 volumes.

Miss Vought had been connected with the library at the University of Tennessee, the Ohio library commission, Allegheny college library, public libraries at Ithaca, N. Y., and the New York State library before taking a position at Penn State.

EXTENSION ENGINEERS WILL OPEN 5 BRANCHES

Department Offers 3-Year Courses in Mechanics, Aeronautics

Branch schools operated by the College in its program of spreading the advantages of higher education to all parts of the State will be opened in Allentown, Erie, Reading, Scranton, and Wilkes-Barre within the next two weeks.

Three-year courses in aeronautical, industrial, mechanical, mining, and textile engineering are to be offered by the department of engineering extension in these schools. Classes are

DR. HONESS STUDIES STATE OIL SANDS DURING SUMMER

Dr. Arthur P. Honess of the department of geology and oil and gas production, was engaged during the summer months in making a detailed microscopic study of Pennsylvania oil sands with a view of determining the relationship which might exist between porosity and the permeability of the sands as revealed from a study of thin sections.

This study is being made in conjunction with Prof. Clark F. Barb of the petroleum research department in the School of Mineral Industries. Dr.

Exercises To Start in Recreation Hall At 10:30

FIRST SEMESTER BEGINS WITH 1 O'CLOCK CLASSES

Invocation by College Chaplain Opens Service—Blue Band Prepares Program

Assembling for the annual College opening convocation in Recreation Hall, approximately 5000 students and faculty members will witness the advent of Penn State's seventy-fifth year as an institution of learning at 10:30 o'clock tomorrow morning.

President Ralph D. Hetzel will address returning upperclassmen and the incoming freshmen during the College assembly. Arrangements have been made for a musical program of college songs, under the direction of Prof. Richard W. Grant, director of music, and Bandmaster Wilfred O. Thompson.

Present plans indicate that the Blue Band, directed by Bandmaster Thompson, will assist in leading the student body with musical accompaniment during the singing. The cheer-leaders will appear for the first time this year before the entire College at the exercises.

Plan Brief Ceremony

Prof. John H. Frizzell, acting College chaplain, will deliver the invocation. The President's address is planned as the most important part of the program. Traditional singing of the Alma Mater will conclude the exercises.

The assembly tomorrow is arranged as a brief ceremony formally beginning the first semester. It will be shorter than the program undertaken in 1929. The Convocation is one of a few times during the year when Penn State assembles as an academic body.

Freshmen will occupy the north gallery in the hall during the exercises, while sophomores will take seats in the south balconies. Upperclassmen will be seated on the main floor. A section on the main floor will be reserved for the use of faculty members.

COLLEGE HOSPITAL INCREASES STAFF

Dr. Dietrich Will Assist Ritenour—Dispensary Treats 11,000 Patients Last Year

Dr. Charles Dietrich has been named assistant to Dr. Joseph P. Ritenour, head of the College Health service. Miss Boratha Budd and Miss Catherine Hartswick were also added to the staff.

Dr. Dietrich recently held a position in the department of education in Indiana. He resigned from this position to come to Penn State. The Misses Budd and Hartswick will serve throughout the year as nurses at the College Hospital.

During the past year the dispensary department of the hospital treated 14,000 cases varying from removal of splinters to treatment for disorders of the nervous system. Three hundred and fifty-five were cured for during the college year, the average time spent there being three and one-third days.

The dispensary has been recently located in the basement of Old Main providing a centrally located service for the student body.

STATION WPSC TO BEGIN BROADCASTING THIS WEEK

Daily broadcasting of weather reports, news and agricultural items by the College will be resumed this week over the college radio station, WPSC. The station goes on the air daily at noon except Saturday and Sunday, operating on 1230 kilocycles. In addition to the daily programs, the College will also continue its Sunday broadcast of chapel services and football games.
