

### Forestry School Freshmen Retain College Customs

While plans for the formation of a student tribunal are being prepared by Prof. John A. Ferguson, fifty freshmen and twenty-five two-year students at Mont Alto are wearing the new blue dinks and are observing College customs with only instructors to enforce them.

Later the students will name members of their own class to serve as a customs tribunal and as a student government.

Work at Mont Alto is being carried on this year in much the same manner as last year according to Professor Ferguson. Spending one full day in the Mont Alto state forest under the direction of the district forester, more than half of the students' time is spent in the open.

Study hours are observed every night from 7.30 to 9.30 o'clock with the exception of Saturday and Sunday nights. During this time students are required to remain in their rooms. A forestry society will be organized again this year and moving pictures, supplementing talks by visiting foresters, will be given every Friday night. In addition to this entertainment the students will organize and stage several shows and minstrels throughout the year.

### COMMONS CLUB HOLDS FIRST SMOKER ON MONDAY NIGHT

The Commons Club of Penn State, a social organization to elevate the status of the non-fraternity men on the campus, will begin its year with a smoker for members and invited guests at 7.30 o'clock Monday in room 405 Old Main.

The Commons Club was organized last year. Since then, it has been admitted to the national organization, the American Association of Commons Clubs, which has chapters in twelve mid-western colleges.

### 388 ENGINEERING STUDENTS ENTER ELECTRICAL DIVISION

Since it was first organized as a separate division in 1893, electrical engineering has been the most popular course in the School of Engineering.

The first year electrical engineering was offered, 65 students were enrolled, the largest group in the school. Superseded by civil engineering in 1900, electrical engineering did not foight to the front again until 1910, and has never been headed since.

This fall 388 students were enrolled in electrical engineering, mechanical engineering coming next with 252 students, and civil engineering third with 179 students.

**HALL TO STUDY CLAY, CULM**

Establishing a research fellowship in the School of Mineral Industries, the Anthracite Institute has engaged Charles C. Hill, graduated from the department of Ceramics last year, to work under the direction of Prof. John B. Shaw, head of the department. The problem will consist of a survey of the clays and culm in the anthracite region and their possible use for ceramic products.

### Distribution of A. A. Cards Begins Monday

Distribution of student Athletic Association membership cards will start at the Athletic Association office in room 107 Old Main Monday morning.

Upperclassmen will receive the cards on Monday, while the two lower classes will be given their tickets on Tuesday. Matriculation cards must be presented to receive the membership passes.

### ATTEND EDUCATION MEETING

Several members of the School of Education faculty attended the conference of the Central Section of Pennsylvania State Education association held at Lock Haven last Tuesday and Friday. Among those present were Dean Will G. Chambers, Prof. Palmer C. Weaver, Dr. Arthur S. Hurroll, and Dr. Carroll D. Champlin.

### STUDENTS NEGLECT CAREERS, COLLEGE PRESIDENT STATES

Too many college students let accident instead of aptitude shape their college careers, according to Dr. Arthur E. Morgan, president of Antioch college.

He recently said that in the practical administration of our colleges, too little attention is paid to the nature and significance of student interests. Often they are commonly looked upon as being determined by nature like the color of the eyes.

### 133 ENROLL IN ELECTRICITY

Prof. Charles L. Kinlock, head of the department of electrical engineering, announces that the largest

number of freshmen in the history of the department have enrolled this year. The department now has 157 students compared to 132 for last year.

**APPLE SALES FROM THE PENNSYLVANIA STATE COLLEGE AGRICULTURAL EXPERIMENT STATION ORCHARD**

It has been difficult to establish prices on the apple crop this year, but the market atmosphere is clarifying a little with the harvest of winter apples. We are establishing the following retail prices:

All Number 1 grade of winter apples of 2 1/2 in., 2 3/4 in., and 3 in. will retail in their original bushel package at \$2.00. The 2 1/2 in. size at \$1.50 per bushel.

The Number 2 grade of winter apples 2 1/2 in., 2 3/4 in., and 3 in. will retail for \$1.25 a bushel in the original package. The Number 2 2 1/2 in. size will retail at the orchard packing house only. These will be in second hand baskets or paper bags at seventy-five cents per bushel.

Cider apples will retail at the fruit packing house only.

There will be some apples packed in one-half bushel tub baskets that will retail at \$1.15 per basket.

EVERY GROCERY STORE IN STATE COLLEGE DEALS IN THE APPLES FROM THESE ORCHARDS. BUY YOUR FRUIT IN THE ORIGINAL PACKAGE.

WE EXPECT TO BE ABLE TO SUPPLY APPLES TO THE TRADE IN STATE COLLEGE UNTIL JUNE FIRST, 1931. Varieties—McIntosh will last until about Nov. 5, followed by Stayman, Rome and Baldwin.

**PENNSYLVANIA STATE COLLEGE DEPARTMENT OF AGRICULTURE**

THIRTY thousand welcoming shouts as he steps to bat... the idol of them all! Ball one! Ball two! and cr-ack! he's done it again. Popularity to be lasting must be deserved.

for **MILDER**

Chesterfield Cigarettes are manufactured by LIGGETT & MYERS TOBACCO CO.

**ONE**  
*will always stand out!*

HOME RUNS are made at the plate — not on the bench!

Likewise what counts in a cigarette is what a smoker gets from it — not what is said about it.

Chesterfield has a policy—give smokers what they want:

**MILDNESS**—the wholly natural mildness of tobaccos that are without harshness or bitterness.

**BETTER TASTE**—such as only a cigarette of wholesome purity and better tobaccos can have.

**BETTER TASTE**

*They Satisfy*
