FEEL the difference HEAR the difference

TASTE THE DIFFERENCE!

Like an oasis in the dusty desert of dried tobacco, the new Camel Humidor Pack brings you the delight of fine quality cigarettes in factory-fresh, mild condition.

Now, wherever you go, you can always be sure of getting a fresh, throat-easy cigarette when you demand Camels.

It's easy to tell the difference. Your sense of touch detects it as you roll a cigarette between your fingers. Dry tobacco is stiff and crumbly. Camels are full bodied and pliant.

Even your car can tell the difference. For a dried-out cigarette crackles when you roll it.

But the real test is taste and taste is causing a great nation-wide switch of

men and women alike to Camels in the scientific new Humidor Pack. As you draw in that fragrant, mild, cool smoke, redolent with the joy of choicest Turkish and mellow Domestic tobacco, only then do you realize the full importance of this new Humidor Pack.

For scorched or dried tobacco is harsh and tasteless and its smoke is unkindly hot to the tongue and throat.

If you are already a Camel smoker you have noticed the improvement in this your favorite cigarette.

If you don't smoke Camels, try them for just one day to see how much you're missing. After you've known the mildness and delight of a really fresh cigarette, switch back if you can.

CAMELS

It is the mark of a considerate hostess, by means of the Humidor Pack, to "serve a fresh cigarette." My Camels by the custom-made cigarette will remain fresh in your home and office.
