## LEOPARDS SWAMP NITTANY GRIDDERS BY 5 TOUCHDOWNS

### Lions Resist Maroon Offensive In Strong First Quarter Defensive Play

### SOLOW TALLIES LAST SCORE ON 64-YARD DASH

### Lafayette Continues Record of Uncrossed Goal Line at Home This Season

Again the Nittany Lions of the gridiron tasted bitter defeat when Coach Herb McCracken's Lafayette Leopards rode roughshod over them to the tune of 33-to-0 in the Maroon Stadium at Easton, Saturday.

Continuing their fine first quarter play, the Lions battled the Leopards evenly, yielded two touchdowns to the fighting Maroon in the second period, and then wilted following their only sustained advance at the beginning of the second half.

The Maroon eleven continued to keep their home goal line uncrossed, for the two defeats suffered by the Easton gridders have been registered by Colgate at Hamilton, N. Y., and Penn in Philadelphia. Aside from these setbacks, the former by the score of 16-to-0 and the latter by a scant 3-to-0 margin, the Maroon team has managed to bowl over all other opposition with more than twenty points.

### Socolor Dashes 64 Yards

A regular halfback last year, little Al Socolor, smallest player on the Lafayette squad, broke through the Nittany forward wall and eluded the Lion secondary to run sixty-four yards for the last Maroon touchdown just before the final whistle blew.

The Leopards resorted to long forward passes in the second quarter after their running attack had been forestalled on three occasions in the first period. Taking advantage of several State misplays, the Maroon, determined to score, pushed over two touchdowns in rapid succession. After the Lions had failed in their lone extended gesture to score, Lafayette came back with a revengeful spirit in an effort to erase the thrilling 6-to-3 defeat suffered on New Beaver field two years ago, when Yutz Diederich took a pass from Cooper French and ran sixty yards for a Lion victory after the final whistle had sounded.

Saturday's defeat to Lafayette was the first suffered by Coach Bob Higgins either as a player or coach for the Lions as the Nittany gridiron were held to a scoreless tie last year.

## OUTING CLUB WILL HOLD FIRST MEETING TONIGHT

### To Announce Program of Activities In Old Main at 7 O'Clock

The Penn State Outing club will hold its first meeting of the year tonight at 7 o'clock in Room 318, Old Main. A program of activities and calendar of events will be bioached at the meeting.

Beginning with a hunting trip Saturday afternoon, the program for this semester includes a deer hunt December 5, an all-day hike to the club's cabin December 6, and an afternoon hike to the cabin of Dean of Men Arthur B. Warnock on December 13. Events for January are to be hikes to the Barrens and to Nittany mountain.

The club will offer students camping, hunting, fishing, hiking, map making, sketching, photography, nature study, horsemanship, and various winter sports as recreational activities during the year.

## NEW TRUNK LINE TO SUPPLY HEAT FOR NORTH BUILDINGS

The new steam pipes which are being laid for the main trunk line on Burows street, campus road, will be completed about December 1. When finished, the line probably will supply heat to all campus buildings north of the center drive.

The fourteen-inch steel pipes, which are welded, will be encased in terracotta within a concrete duct, giving it the appearance of a miniature tunnel.

## Clare Selected Head Of Senior Ball Group

BASIL C. CLARE '32

Basil C. Clare, a senior in the School of Education, was named chairman of the Senior Ball committee by H. Aubrey Myers, class president, last night.

Clare, who returned Sunday from eight weeks of teaching practice, will announce his committee for the January formal next week.

## WPC WILL GIVE CULTURAL SERIES

### Tschan Heads Group Arranging Programs on Influence Of Pennsylvania

An extensive program designed to show Pennsylvania's contributions to the cultural advances of the nation will be presented over WPC, College radio station, by the Liberal Arts School, Dr. Francis J. Tschan, chairman of the committee in charge, announced yesterday.

The broadcasts will also point to the influence of the Liberal Arts School on the cultural life of this state. Prof. Chauncey O. Ridgway, of the English literature department, and Prof. Charles J. Rowland, of the economics department, are serving with Dr. Tschan on the committee.

A program dealing with current economic problems is being planned by the economics department. Continuing the series, Dr. Jacob Tange, professor of political science, will direct a program on "International Sore Spots."

To Give History Program  
Qualities of the short story will be considered in a program under the direction of Robert E. Galbraith, instructor in English composition. Prof. A. Hovis Evershade, of the English composition department, will direct a program on Pennsylvania localities and place names.

Prof. Arthur G. Cloetingh, of the English literature department, will discuss drama and lead the production of a series of plays. Speech events will be chronicled in a program in charge of the public speaking division, and state contributions in the field of literature will be traced by the English literature department.

In one of the more practical numbers of the series, Prof. Meritt M. Harris, of the English composition department, will explain characteristics of good business correspondence. The history department will conduct a program on Pennsylvania history. Other Liberal Arts departments are planning programs for the series.

## TO REPRESENT PENN STATE AT LAND GRANT CONFERENCE

President Ralph D. Hetzel and five members of the faculty are attending the annual meeting of the Land Grant College association in Chicago this week.

In addition to President Hetzel, Robert L. Sackett, Dean of the School of Engineering, Ralph L. Watts, Dean of the School of Agriculture, Stevenson W. Fletcher, director of the department of agricultural research, Milton S. McDowell, director of agricultural extension, and Edith I. Chase, head of the department of home economics, are attending the conference.

## 370 Students Request Work Of Any Kind, Seamans Says

### 120 Require Employment To Stay in School, Some Neglect Physical Necessities For Collegiate Education

Three hundred and seventy students are seeking work of all kinds and 120 of these definitely say that they cannot remain in College unless they receive work, Harry W. Seamans, secretary of the Christian association, reported Sunday.

"Not infrequently students are discovered who are actually living without enough to nourish themselves properly, they find it necessary to use all their available funds for school supplies and room," Mr. Seamans said.

At least 125 were known to have come to College with less than \$200 as their total resources. Of these more than half had less than \$150 and some were known to have \$100 or less as their entire capital for going to College.

College fees total between \$70 and \$150 each semester and it is estimated that the absolute minimum expense for a student during the College year is \$600.

An appeal was sent out last week by the Christian association to faculty members asking them to find small jobs so that students might be aided in continuing their College careers. Mr. Seamans suggested that persons having rooms not now being used, could arrange to allow students to have them in return for doing odd jobs such as firing furnaces.

Plans made in letters to the Christian association office show the tenor of the search for employment here. One man says: "It is my sincerest wish to finish my education at the

College, but it will be absolutely impossible for me to do this unless I am able to get work of some kind. I am physically capable of doing almost anything as long as it will keep me in College."

Another man says: "I finished only one year at Penn State, not being able to return for two years since my father became blind. Now I hope to stay, but all hinges on my being able to get some work."

Students are ready to do any kind of work that is offered to them, Mr. Seamans said, and any work reported to the association office will be immediately assigned to those who are in the greatest need for it.

## WOMEN'S GROUPS WILL PLAN DANCE

### Council to Consider Possibility Of Having Panhellenic Ball In First Semester

A Panhellenic Ball, sponsored by all women's fraternities, will be discussed at a meeting of the Panhellenic Council at 4 o'clock this afternoon in the apartment of Dean of Women Charlotte E. Ray.

The ball, which will be the first affair of its kind held by the combined women's social groups on this campus, will be similar in arrangement to that sponsored by the men's fraternities each year.

Phyllis G. Beidler '33, Panhellenic social chairman, heads the committee in charge of the ball. The other members of the committee are M. Lydia Haller '32, Margaret H. Miller '32, Mary B. Zahn '32, and S. Louise Everett '33.

### May Tax Fraternities

Although definite plans have not yet been made, it is probable that the date for the affair will fall sometime in the first semester of this year, because of the large number of social functions usually held during the second semester.

The ball will be formal and will probably be held in the Armory, with a local orchestra furnishing music. Decorative plans, which have not yet been decided upon by the committee, will probably follow a scheme similar to that of former women's functions held in the same building.

Two methods have been suggested for financing the dance, one of which is to make it a subscription affair, open only to fraternity women and their escorts. The second suggestion is that each group be taxed a specific sum.

## DEPARTMENT OF FORESTRY ANNOUNCES LECTURE SERIES

A series of four lectures on the subject "Pennsylvania Forestry" will be given here during the next three months, Prof. John A. Ferguson, head of the department of forestry, announced.

The series will open December 9 with an address by Lewis S. Staley, secretary of the Pennsylvania State department of forests and waters. John W. Keller will speak January 13, while George H. Wirtz will talk January 20. The series will conclude with an address by Dr. E. A. Ziegler in January.

## BRESSLER TO HEAD W. S. G. A. DURING PRESIDENT'S ABSENCE

During the absence of Elizabeth C. Bell '32, president of the Women's Student Government association, Angella Bressler '33, vice-president of the organization, will assume the duties of the presidency.

Miss Bell will leave next week to teach English in the Altoona High School for a period of eight weeks, as part of her practicum work in the education course. She will return for the second semester.

## CABINET MEMBERS ELECTED

Frank L. Weaver '33 and John E. Ryan '31 were elected as new members of the Penn State Christian association cabinet at a meeting held Sunday night.

## NITTANY RUNNERS PLACE THIRD IN IC-4A TITLE RACE

### Harvard Annexes Championship, Penn Takes Second Honors To Defeat Penn State

### KING FINISHES 14TH AS FIRST NITTANY HARRIER

### England, Rishel Lead Glassburn, Space at Tape—Freshmen Gain Third Place

Special to the COLLEGIAN

Penn State's harriers failed to retain their team championship won last fall, placing second to Harvard and Penn in the twenty-third annual intercollegiate cross-country run over the varsity 6-mile Van Cortlandt Park course in New York City, yesterday afternoon.

Charlie King was the first Lion runner to cross the finish line, placing fourteenth in the race, which was won by Dan Dean of the University of Pennsylvania. Clark Chamberlain of Michigan State, the winner last year, finished second. Kenny England, eighth, Bill Rishel, nineteenth, Captain Glassburn, twentieth, and Bill Space, thirty-second, tallied the Nittany score of 100.

### Win Second Victory

The victory yesterday was the second win Harvard has registered in twenty-three years of competition and the first team title for the Crimson since 1912. In 1928 James L. Reid of Harvard won the individual championship to break a string of two consecutive victories recorded by Bill Cox.

The twelfth annual freshman run over a 3-mile course was won by Manhattan, while the Syracuse yearlings annexed second place. Penn State's freshman hill and dalers placed third in this run with a total of 104. Harvey, who finished eighth, was the only Lion runner to place in the first ten.

More than 125 harriers, representing twenty-one colleges and universities, entered the meet yesterday afternoon. Of the teams entered, Penn State was one of the few having an undefeated record in dual meets. The Nittany Lions scored impressive victories over the University of Pittsburgh hill and dalers, against whom a perfect score was registered, and the Syracuse runners.

### Annex Title 4 Times

The Lion harriers were victorious in the annual runs in 1926, 1927, 1928 and 1930. Individual wins were recorded in 1920, when John Romig outdistanced the field, and again in 1926 and 1927, when Bill Cox led the championship Nittany teams. In 1928 Cox placed third. Last fall Dick Detweiler finished second, seven seconds after Clark Chamberlain of Michigan State had crossed the finish line.

Check Messenger closely followed Detweiler to gain third and Captain Bekers finished in fifth place. The runners were hampered last fall by a heavy rain that had soaked the 6-mile course continuously for four days previous to the meet. The hurdles which have been used in previous runs over the New York course were abandoned this fall.

## TO OFFER \$10,000 PRIZE FOR BEST DESTRUCTIVE CRITICISM

In a letter to Dean Robert L. Sackett of the School of Engineering, last week, Mr. Mark L. Sobel of the Unemployment Research Foundation, announced a \$10,000 prize to be awarded to anyone submitting the best destructive criticism of the foundation's work.

The organization is attempting to do away with unemployment for all time and its accompanying evils. The details of the prize offer has been formally announced in the current issue of *The Nation*.

## GEOLOGISTS VISIT GAS FIELD

Members of the senior petroleum engineering and geology classes visited the Toga gas field at Towanda, Saturday. The party was in charge of Prof. Chesleigh A. Bonno of the department of geology and other faculty members who made the trip. Dr. George H. Fancher, Kenneth B. Barnes and James A. Lewis, all of the department of petroleum and natural gas research.

## Fries, Page Argue on Armaments Thursday

### TO OPPOSE Preparedness Policy In Debate Thursday

KIRBY PAGE

## '32 LA VIE TO USE NEW LISTING ORDER

### Will Arrange Fraternity Groups Alphabetically—Finds Past Method Inconvenient

Fraternity pictures will be arranged in alphabetical order in this year's *La Vie* rather than in the order of the organizations were founded at the College as listed in last year's volume, staff officers announced yesterday.

The difficulty in locating pictures by the method used in last year's yearbook prompted the change to an alphabetical order. Moreover, staff members could see no obvious reason for continuing with the past system.

### Blue To Be Featured

Pictures of social fraternities are now being taken and are scheduled for completion by Christmas vacation, while other organizations will be photographed during the next few months. At the present time, class officers are sitting for *La Vie* photographs.

Photographers have been working recently on College campus scenes in which an artistic touch will be added by the use of shadows. Each picture will feature a small line drawing on the lower outside corner of the page.

Blue will predominate in the color scheme of the 1932 yearbook, in addition to the various colors employed in Egyptian art which will be the theme of this volume. Although the cover design has not yet been selected from a large group of prospective drawings, the cover will be of a different grain and of heavier material than that of last year.

## MAGAZINE EDITOR TO TALK BEFORE SENIOR ENGINEERS

Roy V. Wright, managing editor of *Railway Age* and president of the American Society of Mechanical Engineers, will address the senior engineering students in the Chemistry Amphitheatre at 1 o'clock Friday afternoon. His topic will be "How to Use Your Engineering Society."

At a dinner meeting to be held the same evening, Mr. Wright will speak before the Central Pennsylvania Section of the American Society of Mechanical Engineers on "The Engineer's Responsibility."

## STREET WIDENING DELAYED

The completion of the widening of College avenue has been delayed indefinitely, according to Burgess Eugene H. Lederer. The storm sewer has been laid and the ground will be allowed to settle before further work is begun.

## 2 WATER COLORS EXHIBITED

Two water colors by James B. Helms, associate professor of architecture, and Wendell P. Lawson, assistant professor of architectural design, now are being shown at the exhibition of the Pennsylvania Academy of Fine Arts in Philadelphia.

## Militarist Will Debate Preparedness With Pacifist Author

### FIRST TALK SCHEDULED AT 8:15 IN AUDITORIUM

### Social Problems Club Sponsors Discussion as Trial For Forensic Series

Preparedness will be discussed pro and con in an open debate between Major General Amos A. Fries, president of the American Security League and the Memorial Day speaker here last year, and Kirby Page, editor of *The World Tomorrow*, author and publisher, in Schwab auditorium at 8:15 o'clock Thursday night.

Sponsored by the Social Problems club, local student organization, the debate is intended as the first of a series of discussions of outstanding modern questions by prominent speakers. According to Aaron Duckman '33, president of the organization, the scheduling of similar discussions will be determined by the student attendance Thursday.

Plans for the debate include twenty-five minute constructive speeches by each of the speakers followed by ten-minute rebuttal sessions. The official subject of the discussion is "Resolved: That Armaments Provide the Best Security for World Peace." Upholding the affirmative side of the question, Major General Fries will speak first.

### Author of 11 Books

Mr. Page, who will defend the negative, is author of numerous pacifist publications and is constantly in demand as a speaker on world questions. His travels have taken him across the ocean eighteen times, and he has visited thirty-five countries. Among the world famous figures he has talked with are Mahatma Gandhi, Ramsay MacDonald, George Bernard Shaw, and President Hindenburg of Germany.

Speaking engagements of the author and pacifist include appearances before more than 200 college audiences. He has also addressed numerous regional student conferences, the sessions at Eagles Mere, which were attended by Penn State delegates, being among them. Eleven well known books on various social and economic problems are included in his literary creations.

Major General Fries, who is now retired, was formerly Chief of the

(Continued on page four)

## TRIBUNAL BARS JACKETS AS FRESHMAN APPAREL

### President Rush Stresses Necessity Of Adhering to Custom

Freshmen wearing jackets in place of coats will be liable to punishment, according to Karl K. Rush '32, president of Student Tribunal, who believes this the most abused of first-year customs.

Another regulation which has brought many freshmen before the judging body concerns the use of forbidden entrances to Liberal Arts buildings. Walking on the grass between the Mineral Industries and South Liberal Arts buildings also has been one of the offenses frequently brought to the attention of the Tribunal.

No meeting of the body will be held until after the Thanksgiving holidays, Rush said, unless a sufficient number of cases are turned in. Only four violations have been reported since the last meeting.

## TRUMPER '15 WILL DELIVER AGRICULTURE SCHOOL TALK

Dr. Max Trumper '15, director of the Trumper-Leffman clinical laboratories, Philadelphia, will address the agricultural faculty and students on "Frontiers of Science," in Room 100, Horticulture building at 1 o'clock tomorrow afternoon.

Dr. Trumper will also give a lecture sponsored by the Liebig Chemical society in Room 206, Agricultural building, at 7:15 o'clock tomorrow night. His subject at this meeting will be "Water in Health and Disease."
