

**DATES SET ON I. M. WINTER TOURNEYS**

Basketball Competition Will Begin After Holidays; Wrestling, Boxing to Follow

Winter intramural sports will start with the basketball tournament following Christmas vacation, according to Charles W. Rice '32, who is in charge of winter competition.

Managers of groups wishing to enter the court tourney will meet at 7 o'clock Tuesday night in Room 315 Old Main, Rice said. There will be a dollar entry fee due at this time, he announced.

Five tournaments, extending to the end of March, will make up the winter program, Rice said. Only one tournament will be run off at a time in order to take up the full season.

Wrestling will follow basketball, which is to end at the close of the first semester. Boxing, handball, and volleyball contests will follow at two-week intervals.

Harry Hopkinson '33 has been selected to manage the volleyball tournament. Trophies are offered for tournament winners and, if enough entries are made, awards will be given to runners-up.

**ATTEND HOOVER CONFERENCE ON NATIONAL HOME BUILDING**

Prof. Clinton L. Harris, Lewis F. Picher, and James B. Helme, all of the architectural engineering department, Prof. John R. Bracken and Carl W. Wilde, of the landscape architecture department, and Dr. Jacob Tanager, of the political science department, attended President Hoover's conference on Home Building and Home Ownership which was held at Washington, D. C., last week.

Authorities on this subject from all over the country consulted with the President and discussed with him phases of home building and its part in restoring prosperity.

*never parched, never toasted*  
**CAMELS are KEPT Fresh!**

You probably know that heat is used in the treatment of all cigarette tobaccos. But you know too that excessive heat can destroy freshness and fragrance. That's why there could be no truly fresh cigarette except for scientifically developed methods of applying heat. Reynolds is proud of having discovered and perfected methods for getting the benefits of heat treatments and still avoiding ever parching or toasting. With every assurance we tell you, Camels are truly fresh. They're made fresh—not parched or toasted—and then they're kept fresh in the Camel Humidor Pack. If you wish to know why the swing to Camels is nationwide and steadily growing—switch to them for just one day—then leave them, if you can.

Don't remove the moisture-proof wrapping from your package of Camels after you open it. The Camel Humidor Pack is protection against sweat, dust and germs. In offices and homes, even in the dry atmosphere of artificial heat, the Camel Humidor Pack delivers fresh Camels and keeps them right until the last one has been smoked.
