A NECESSARY SACRIFICE

A NECESSART SACRITICAL AT the meeting of fraterinty presidents Tuesday right, although a pledge of cooperation to any sort of benefit affair was indicated, there was a marked sentiment against any kind of individual assessment toward making up the students' share of the Loan Fund. The making up the students' share of the Loan Fund. The method used in raising the required amount is of little consequence, but it is absolutely importance that an adequate sum he raised even if it means some individual sacrifice on the part of students.

Penn State is not alone in its present difficulty. An appeal for donation to a loan fund in order to save the college careers of nearly 500 students was issued by Di-Frank Graham, president of the University of North Coulomb. Deeped Students dieses a mass meet-

North Carolina Doctor Graham addressed a mass meet

North Carolina Doctor Gruham addressed a mass meeting, of students, faculty members, and townspeople, asking that between \$100,000 and \$200,000 be subscribed founds to be loaned to students.

The amount needed here does not equal that at the southern institution, but it is very likely that many prominent students will be forced to leave College unless they are able to draw upon a loan fund. At present the recipient of loans represent practically every fraterinty at Penn State, and many others would gladly make use of funds if they were available. Without the least exaggeration the problem is vital to student welfare and should be faced by students even at the expense of some presonal sacrifice. personal sacrifice.

W. S. G. A. POINT SYSTEM

The point system recently put on trial by W G
G A for a year will be ignored by the majority of on until they notice that it inflinges on their rights or privileges Then they will ask why the system was

If, during the year, there is no disagreement voiced, Senate will naturally consider the plan successful, and the women's student body will be disgruntled because it had no voice in the matter

The traditional means by which all women could The traditional means by which all women count express their views on government was the mass meeting, where questions could be brought up before the three liagot organizations on campus—the W S G A, W A A, and Y, W C. A.

Because women students evidenced no cooperation

with the organizations which sponsored these mass meet-ings they cut off their one opportunity for expression. The disregard has brought about government by a min-

The distinguish shought about government by a min-nity and permits little chance for all women to par-ticipate in action which vitally concerns them. With the return of properly managed mass meet-ings women would be granted more voice in their gov-cinment. The present condition has brought about a situation of ignorance in which there is no check on any of the student organizations

INACTIVE HONORARIES

Should an honorary fraternity be e-policy of mactivity?

Some organizations seem to justify their exisneich as a medium of recognition for merit These societies, however, cease to function each year following the induction of new members and a dispersal of the

ing the induction of new members and a dispersal of the annual crop of keys. One honorary hand's met this year, but members proudly display their keys.

Probably one of the greatest factors contributing to the present domain attitude is the fact that the cetivities and policies test entirely in the hands of one man, usually the president. The result is a tendency to lapse into a careless policy in which the election and rutilation of new members are the only features of the restriction of new memors are the only features of the scall's program. More frequent meetings would arouse air interest among members which is indispensable to

ar interest among members which is indispensable to successful activity.

Honoraire which excuse their inactivity by a lack of facilities for meeting are not uncommon. This reason is not sufficient because Old Main affords adequate meeting 100ms for all recognized Penn State organizations

Worthy examples may be found in certain fraterrities which sponsor an annual program for the bene ternities which sponsoi an annual program for the beneit of their members and occasionally for the general
welfane of the College. Two societies sponsor publications, while another recognizes ment outside of its
organization by making an annual award for outstanding
achievement. Regular lectures, gatherings, informal
ciscussions, dances, smokers, and contests are features of ther progressive programs. Sponsoring activities sim-lar to these and conducted with the purpose of the fraterinty in mind, Penn State's honoraries could estab-lish a policy based on activity rather than selfish motives.

OLD MANIA

By the Maniac's Bad Little Boy. Walter W

I strolled the dim-lit paths with you, and hed Of gayer times at hand and lighter days. I heard your empty prattle at my side And saw the hopeless longing in your gaze.

I sympathized with you, and for my pains A rich reward was mine or so it seems I'll grant you, sweetheart that my hard-ea For once exceeded all my wildest dreams!

And now if you don't mind I'll have to go, There are other hands to hold and lies to tell. I trust you won't find the going slow. I heard you say that I could go to hell?

Why I'm no Galahad or Peter Pan, You should have known I was just a man!

Around the Corner

FRATERNITY

Social flaternities have lately received through the college press more than their share of adverse critcollege press more than their share of adverse critacism and comment. While some of the charges levied against them are true, others will not hold water. But, in many instances, popular opinion has exerted itself against fraterinties in questions where they might just as well have been given the benefit of the doubt

Much of the continuity of spirit between the Much of the continuity of spirit between the University and the outside world—that of our alumni —is maintained by the fraterinties. Brushing aside mero sentimentality, fraternity men, in remarkably large numbers, are linked to their school by the business. ness and social problems of a house full of l Then interest is peculial—fatherly, one might say to obtain a term which most nearly expresses it

obtain a term which most nearly expresses it

Frateinities, especially in larger universities and colleges, are the scholastic, social and political fabric, of the school. Without them there would be no organized student groups outside the classicoms. They house, feed, and promote social contacts for a considerable portion of the entire student group. Their students are some a worken writer of course that siderable portion of the entire student group. Their presence has become so much a matter of course that it is our guess that should they disappear suddenly their absence would be more keenly felt than that of any other single thing. With all its weaknesses, the American college frateinity does a lot for its members and for our universities. Its place as an educational instrument,

universities Its place as an educational instrument, or even institution, will remain just as long as the flaternity accomplishes its end. The best insurance of its continuance will be a recognition by fraternities, in a manner similar to that followed by individual men within a house, of their own shortcomings and faults. Not only must men learn understanding, but fraternities must also. In that we feel the fraternity human enough to be weak, and strong as well, it cannot test on its laurels; it must be alert to mescut day broblems. mesent day problems,

Keeping ahead of the second hand

To keep telephone service in step with the swift pace of American life, Bell System men tackle many an absorbing problem, find many an ingenious solution.

For instance, they decided that pre-cious seconds could be saved by a change in long-established operating routine. The operator used to repeat the number called by the subscriber power has indicated the subscriber - now she indicates that

she understands by saying, "Thank you." To appreciate the importance of the second thus saved, just multiply it by the 40,000,000 conversations handled by operators on the average day.

In the telephone business, major improve-

ments that save the subscriber's time and give him better service often result from just such apparently minor changes.

BELL SYSTEM

A NATION-WIDE SYSTEM - OF INTER-CONNECTING - TELEPHONES
