

### 33 Fraternity Heads Favor Trial of Dance Regulations

#### 3 Presidents Object to Listing Dates for Functions

A semester's trial of the plan to regulate fraternity dances through an Interfraternity Council committee was favored by thirty-three of thirty-six chapter presidents approached on the matter this week.

According to the suggested system, each fraternity would draw up a list of dates on which it might hold dances during the semester, checking the ones it particularly desires as well as noting functions it wishes to be closed. The Council committee would select the dates for dances on nights which were not decided by the fraternity itself.

The proposal, which has met the approval of Dean of Men Arthur R. Warnock, President Francis L. Matthews '32 of Interfraternity Council and President W. Jay Kennedy '32 of Student Union, will have to be adopted by Interfraternity Council if the new policy is to be given a test.

The three dissenting opinions of fraternity presidents questioned were advanced on the score that chapters cannot tell early in the semester just when they will want to hold their dances.

These expressions of disapproval were in striking variance with the answers given by the other thirty-three presidents. Five of this number, while saying that their chapters usually change some dates during the course of the semester, believe that the system would be desirable from a broader view and favor its trial.

Many of the thirty-three who favor the new plan expressed aident approval, saying that it is just the thing needed to overcome present shortcomings in the fraternity dance problem. They believe that the committee would be able to apportion functions over the different week-ends so that five or more would take place every week.

Three presidents made it clear that they think the new plan should be adopted only for one semester; and then, if found satisfactory, should be made permanent. Three other chapter heads said they were particularly impressed by the feature that a fraternity still could hold closed affairs under the proposed plan.

Les Sabreurs, Penn State's defenders at foils, will engage the Carnegie Tech fencing club in Recreation hall following the freshman basketball game tomorrow afternoon.

1. A touch is the result of a straight landing of the tip upon the chest.
2. The vulnerable area includes the section from the beltline around the seams of the shirt to the neck.
3. Touches on the mask, arm, shoulder, or below the belt are foul.
4. A foul is no greater an offense than in baseball.
5. An attack results in a point for the man who lunges first. If lunges are simultaneous, points are not gained.
6. The bout is won by the man getting five points first.

"I'm sort of restless... always on the lookout for something that hits the old taste spot... and clicks! But I've noticed that I never get tired of Chesterfields. They always taste better to me."

"That can't be an accident. It stands to reason... a cigarette that always tastes better... has got to be made better. You know what I mean... purer materials... more up-to-date ways of working. I'm willing to bet that's why my last Chesterfield of the day is as mild and satisfying as the first!"

LIKE TO HEAR A REALLY GOOD RADIO PROGRAM?  
● Tonight... tune in on the Chesterfield broadcast at 10:30 Eastern Standard Time and listen to music by Nat Shilkret's Orchestra and Alex Gray, popular baritone. It's on the Columbia Network every night, except Sunday.
