7:00 P. M.—Summer Session Commencement. Address by Dr. Ralph C. Hutchison, President, Washington and Jefferson College, Washington, Pa. Auditorium.
FRIDAY, AUGUST 12
 5:50 P. M.—Summer Session ends.

NOTICES

All members of the Summer Session Faculty are expected to join the academic procession preceding the Commencement program in academic costume.
 Credits will be granted only to those students who remain for final class periods.
 Caps and gowns must be returned to Room 35 Education Building by Friday noon, August 12th.
 The tentative dates selected for the 1933 sessions are as follows: Inter-Session, June 19 to June 30; Main Summer Session, July 3 to August 11.

MOVIE CHATS

The jungle settings and action of "Trader Horn" and "Tarzan" fade into insignificance alongside of what awaits you when you see "Bring 'Em Back Alive," at the local playhouse on Monday and Tuesday. Thrills and more thrills are piled one on top of the other in this sensational wild animal film which has been the stand-out picture of the summer in New York City.

Accompanied by a running fire of comment and explanation by Frank Buck, who made the picture, "Bring 'Em Back Alive" is entirely different from previous jungle films because in this case they seek to capture the wild beasts instead of killing them. Naturally, the thrills and risks are greater. A highlight of the film is a titanic struggle between a python and a tiger, and if you don't think you can get excited, wait until you see it.

Music in films has been at a low point this year, but for lovers of tuneful melody we suggest the German-made "Congress Dances" which comes to town next week. This picture is done entirely in English, with Lillian Harvey, famous English musical star in the leading role, supported by Conrad Veidt and Lil Dagover, two outstanding Continental players. The setting is Vienna, the costumes are gorgeous and the melodies are haunting.

The transition of a night club hostess to the wife of a tiller of the soil would naturally lead you to expect some complications, and you will find plenty of them in Barbara Stanwyck's newest picture, "The Purchase Price" which comes to the local screen next week. What's more, Miss Stanwyck takes her former husband via the mail order route, buying him from another girl for \$100.00—before the marriage, of course! But then, many a girl would pay \$100.00 to be married to handsome George Brent, who has the leading role with Miss Stanwyck in this picture. Incidentally, Mr. Brent is to marry Ruth Chatterton very soon in real life.

William Powell and Kay Francis, two stars in their own right, are paired together in a thrilling picture, "Jewel Robbery," which comes to town next week. Both are brilliant in their respective roles.

A SUMMER SESSION STUDENTS IN CRASH

Four summer session students had a narrow escape from injury Sunday night about 8 o'clock, when the Chrysler sedan in which they were riding struck a culvert near Philipsburg and turned over. The driver of the car was H. Austin Snyder of Luzerne, who is a student here during summer session. Names of the others could not be learned.
 None of the occupants of the sedan was injured, although the car was badly damaged.

AWARDED CONTRACT FOR WADDLE-MARTHA ROAD

Last Friday the contract for the building of the Waddle-Martha Furnace section of highway on route 250 was awarded to David Bailey, of Morrisdale, whose bid was found to be the lowest submitted when they were opened several weeks ago.

The new piece of highway will considerably shorten the distance between State College and Philipsburg, and embraces 15,198 feet of one course, reinforced concrete pavement, 18 feet wide; 1,732 feet of bituminous surface treated macadam, 18 feet wide; one reinforced concrete arch bridge and a one-span through plate girder bridge. Some of the machinery is already on the ground and it is understood work will be started at once.

STATE COLLEGE GUERNSEY MAKES NATIONAL RECORD

Word comes from the American Guernsey Cattle Club, with headquarters at Peterboro, New Hampshire, that a cow in the herd of the Pennsylvania State College has just finished a new official record for production which entitles her to entry in the advanced register of the American Guernsey Cattle Club. This animal is four year old Rose Hill's Emily 25335, with a production of 11,153.7 pounds of milk and 516.4 pounds of fat in class B.

AUTOISTS RUN DOWN DEER

A large doe deer was killed at about 2 a. m. Sunday night on the Port Matilda pike near the head of Six Mile run when it was struck by a car driven by H. R. Hedstrom, of St. Mars. The animal was turned over to Deputy Game Warden Frank Hastings. None of the occupants of the car were injured although the car was slightly damaged.

Monday morning a small deer was found lying dead, in a ditch near the Thompson farm on the Port Matilda road.

JULY FAVORABLE TO GROWING CROPS

C. O. Cromer Reports Month Was Warmer and Wetter Than The Normal

July, 1932, was both warmer and wetter than the normal July and consequently was favorable to growing crops, C. O. Cromer reveals in his monthly weather report. While July, 1932, was cooler than July of the two preceding summers, nevertheless it was 65 degrees warmer than the normal mean July temperature which is 70.05. This year the mean temperature was 70.7 degrees.

The hottest July on record was 75.0 in 1887. There have been seventeen other years in which July was hotter than last July. The coolest July on record had a mean temperature of 65.0 in 1891. It is seen that the mean monthly range has been exactly 10 degrees. This past month the hottest day was on the nineteenth when the mercury reached 91 degrees. The minimum temperature of 18 degrees occurred on the fifth. The range in temperature, therefore, was 45 degrees.

The rainfall was heavier for the month than it has been since 1925. The total precipitation being 5.83 inches or exactly two inches more than the 48-year normal July rainfall. On the twenty-second of the month occurred the heaviest daily precipitation (1.76 inches) since 1923. On the twenty-eighth of July, 1932, 2.05 inches of rain were measured. There were eleven days, this year on which 0.1 of an inch or more of rainfall.

There have been five years since 1886 with a July rainfall exceeding this year's precipitation.

They are 1891 with 6.71 inches, 1904 with 6.30 inches, 1919 with 6.52 inches, 1923 with 7.09 inches, 1925 with 5.88 inches.

The lightest rainfall for July was recorded in 1929 when 1.39 inches were measured.

The total precipitation for the year to August 1 is 24.15 inches. The normal for the first seven months is 21.00. Our deficiency to August 1 amounts to only .45 of an inch.

VARIED EXHIBITS AT FLOWER SHOW

286 Entries Listed as Weather Conditions Cause Decrease From Last Year

In spite of weather conditions which reduced the number of entries, the Flower Show sponsored by the Garden Club in the Presbyterian church Tuesday and Wednesday contained outstanding exhibits, W. G. C. Thompson, who was in charge of the show, declared yesterday.

The dahlias, Mr. Thompson said, were the best yet to be exhibited, although dry weather and beetles cut down the gladioli entries. A total of 286 entries were listed, a sizeable decrease from last year's 400.

Highlights of the exhibition pointed out by Mr. Thompson were the coral clematis of M. H. Knutsen, gloxinia of Mrs. E. R. Bordner, and the display of rock garden plants, grown by Mrs. C. L. Harris. The artistic arrangements were better than usual, Mr. Thompson said, declaring that the class in artistic arrangement conducted by A. E. Cooke had shown excellent results. Mr. Cooke will conduct classes again this fall for townspeople interested in flower arrangement.

M. H. Knutsen won the Kiwanis cup for the best display of roses, having won at three times, the cup will be held by Mr. Knutsen permanently. Mrs. B. F. Homan won the Rotary cup for the best display of dahlias, while A. C. Cloetngh was awarded the prize given by Nittany post of the American Legion for the person sowing the highest number of points in the gladioli classes.

CLASSIFIED

BALLROOM DANCING—Individual instruction for beginners. Call 779-J or 9506. ETchPB

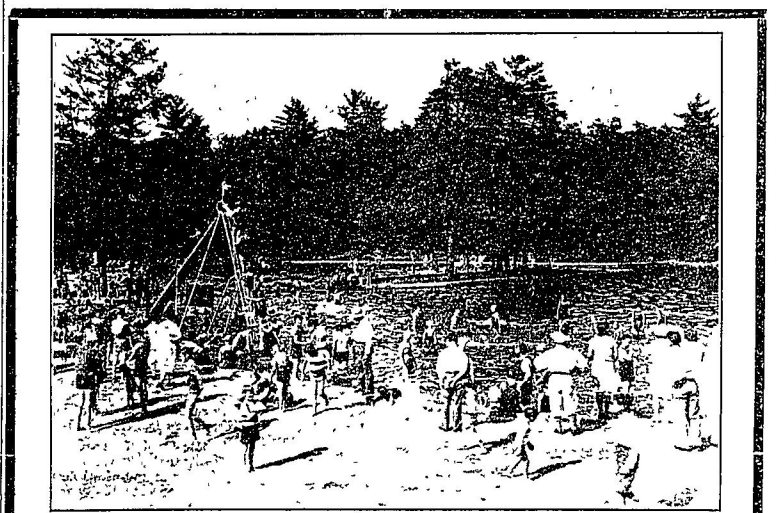

TYPING—Themes, theses, etc., done at reasonable rates. 402 S. Burrows St., telephone 102-M.
