

Activity Records Aid College News Service

Students Will Fill Out New Cards During Registration

Continuing the practice inaugurated in 1931, student activity cards will be distributed at the first semester registration this year by the department of public information. Students are requested to fill out the cards, which are used for reference in the preparation of news releases by the department.

"These cards have proven a valuable aid in furnishing College news to the press," said Wes W. Dunlap, acting director of the department. "In answering the questions contained on the cards, students should remember that all information is regarded as strictly confidential by the department and is used only for reference." Members of the three upper classes will be asked to state what per cent of their College expenses they have earned and the sort of work involved in earning money for College expenses. Freshmen are requested to state what per cent of their expenses they expect to earn.

To List Activities
First year students will list activities and honors in high school while sophomores, juniors and seniors will give their College activities, including social and honorary fraternity affiliations, athletic endeavors, and participation in other campus activities. Information of this nature is especially valuable to the publicity department.

All students are asked to name daily and weekly newspapers read in their home, curriculum and school, father's occupation, home town and high school or preparatory school, from which they were graduated. Seniors are requested to note time of expected graduation.

Department Files Cards
The cards are filed by the department and senior cards are turned over to the Alumni association at the end of each year. Although not a part of the blanket sheet given by the registrar, the cards correspond in color to those for each class, freshmen receiving a yellow card, sophomores white, juniors salmon-colored, seniors blue and special students pink.

Students have co-operated with the department exceptionally well in filling out the cards in the past, according to Mr. Dunlap, who noted that the percentage of those who failed to turn in cards has been surprisingly small.

COUNTY AGENTS AID JUDGING
County agents and extension specialists of the College agricultural extension service will assist in judging exhibits at twelve county and community fairs this week, Jacob M. Fry, assistant director of agricultural extension, has announced.

Among the film hits now on the way are:

Dates of showing for the pictures listed above have already been arranged by the theatre management, it is understood, and are being advertised in the State College papers.
