FRIDAY, NOVEMBER 4, 1932

FRATERNITY COUNCIL, or more important, the representatives of the fraternities by their approval of a six o'clock dinner hour have completed the legal part of effecting a change that is of vital importance to the success of the intramural athletic program. All that now remains is for the fraternities to begin operating on the new schedule as soon as possible. Boarding houses will quickly swing into line if non-fraternity men cooperate and insist that they will be benefitted by the change. Already directors of amusement houses have expressed willingness to postpone opening hours to fit in with the six o'clock dinner hour if the students would make the first step. Apparently there is nothing to be lost and something to be gained from the later hour. It deserves a fair trial.

THE SCHEDULING of Military Ball before Christmas is an improvement over the custom of having a specially-jammed second semester. Some dances were certain to suffer financially under the old system. This year Military Ball should capitalize on the socially dead pre-holiday season and the other functions, under average conditions, can expect better attendance.

ONE STEP toward deferred rushing, small as that move may seem, is deserving of praise. For a long time it seemed as if nothing would come from the gales of discussion and argument over deferred rushing. By restricting the founding of additional fraternities, the Council is at least keeping in mind the ultimate goal. Apparently the student body wishes for deferred rushing. Finances do not permit its realization. It is a case of the present generation suffering on account of the extravagance of the past. At least the present generation of fraternity men has shown willingness to cooperate in advancing toward the only solution of the rushing problem.

ALTHOUGH NO FLAGRANT cases have been reported recently it is an established fact that there are some students bold enough to use "pull" in getting freshmen freed from Tribunal punishment. Cases will arise this year unless stopped from the very start. Customs as they now exist are reasonable. The few that remain are worth enforcing if they are worth retaining at all. By their action last year the students, through their representatives, approved the changes. Why a few should seek to thwart the enforcement of the regulations which they themselves have established is a peculiar twist of the undergraduate sense of justice. The Tribunal is made up mainly of clique representatives and as such they are liable to receive requests from their constituents. It should be remembered that the Tribunal is a judicial body in its original conception. If its members, because of campus politics, are hampered in dispensing justice this year, Student Board has gone on record as favoring the removal of Tribunal positions from the list of clique selections. Positions are the life of a political organization. Petty interference with justice will not be worthwhile this year.

CONSIDERABLE CRITICISM was voiced after the last home football game because the Blue Band made no appearance on the field but remained rooted to their hard won seats in the stands between the halves. No matter which side was right in the "little battle of the tickets" it must be remembered that the Band is in popular demand. It has an established reputation that should be maintained. Although there may exist enmities and difficulties underneath the surface, these difficulties might better be ironed out in private—without being occasion for making bad impressions on visitors.

FOR THE FIRST time in the history of the College there has been set up a board to determine the extent of College liability in cases where students have received injuries on the athletic field or in the class room. Progress.

What green-dinked, black-tied person, who, when reproached for conversing with several femmes, said, "Oh, these aren't my clothes they're my brother's."? . . . "I like to watch you smoking your pipe!"

"IF EVER I SAW a picture of content, it's you when you're puffing on a pipeful of Granger. And I admit I like the fragrant aroma myself."

It is surprising how much better a pipe tastes when it is filled with tobacco that's made especially for pipes. And the Granger package is just right, too.
