

Students Will Register by Initial Assignment System

To Enroll for Second Semester During February 7-8

Students will register for the second semester in assigned periods, in Recreation hall February 7 and 8, according to initials, Registrar William S. Hoffman, College registrar, has announced.

Registration Periods

A to B	W	1-5
Bos to Co	T	10-1
Cr to E	W	8-12
F to G	T	1-5
H to I	W	1-5
J to K	T	10-1
L, Mc to Mar	W	8-12
Mas to O	T	1-5
P to R	W	1-5
S to Sp	T	10-1
St to V	W	8-12
W to Z	T	1-5

PRESIDENT SOUNDS 'COURAGEOUS NOTE'

(Continued from page one)

This number, however, represents an increase of 158 over the registration two years ago. The women's enrollment showed a continued increase and is now fifteen percent higher than in 1930-31.

Two schools showed gains in enrollment over last year, the Education and the Chemistry and Physics schools having increased by fourteen and five percent over two years ago, respectively. The Schools of Agriculture, Engineering, Liberal Arts, and Mineral Industries, however, declined slightly in registration. This year's enrollment shows a sixty-five percent increase in graduate students over two years ago, the message stated.

Citing the work of the President's Survey Committee in studying the entire work of the College, President Hetzel reported numerous changes made in line with the purposes of study. Final recommendations of the committee, he declared, will be submitted to the Trustee committee on educational matters very shortly.

In conclusion the President said, "If there ever was a time when discriminating thinking must be done by our public leaders, it is now! If we are to go forward we must appraise with fine judgment and support with high courage those factors and agencies and institutions which have the capacity to render constructive service. If democracy fails in this, I can see no other recourse."

MAYES '29, HOUSSEKAND WIN NOVEL AUTO DERBY

Professor Chedsey's 1911 Franklin Awarded Antique Car Prize

Driving a 1911 model Franklin, owned by Prof. William R. Chedsey of the School of Mineral Industries, from Lemont to Philadelphia, Kenneth F. Mayes '29 and Paul Houssekand of Lemont were awarded the grand prize in the antique auto derby sponsored by the Keystone auto club of Philadelphia Monday.

In addition to a cash award of \$150 for the best average time on distance, technical handicaps and highway conditions, Mayes and Houssekand also received a silver trophy presented by the Philadelphia Evening Bulletin to the car traveling the longest distance in the derby. The two Lemont men averaged 39.9 miles per hour for the 205-mile trip.

BALTIMORE RABBI TO SPEAK SUNDAY

Morris S. Lazaron Will Talk on 'This Thing Called Faith' in Auditorium

Morris S. Lazaron, Rabbi of the Baltimore Hebrew Congregation, Baltimore, Md., will return to Penn State to address the chapel audience in Schwab auditorium at 11 o'clock Sunday morning. "This Thing Called Faith" will be the topic of his talk.

Rabbi Lazaron, who spoke here last year, attended the University of Cincinnati and the Hebrew Union College, Cincinnati, Ohio. After his graduation in 1914, he was ordained, and immediately went to Wheeling, W. Va., where he served until August, 1915. Became Chaplain

During the World War the speaker assisted with welfare work at Camp Merritt, N. J., where he was first commissioned chaplain and later as a major of the Reserve Officers. He was one of the four chaplains officiating at the burial of the Unknown Soldier in Arlington Cemetery, at the invitation of the Secretary of War.

As a member of the executive committee of the League of Nations association, the Foreign Policy association, and the Maryland League for Crippled Children, Rabbi Lazaron is well known in social and charitable organizations in Maryland. He is also a member of the Baltimore Public School association, the Proportional Representation League, and the Association Against the Prohibition Amendment.

Among the books and plays which the chapel speaker has written are "Side Arms," "Religious Services for Jewish Youth," "In the Shadow of the Cross," "The Consolations of our Faith," and "Ten Jews of the Ages." He is also a contributor to many Jewish magazines and periodicals.

ENGINEERING SOCIETIES TO HOLD DANCE FEB. 11

5 Organizations Will Revive Custom Abandoned Several Years Ago

Reviving the custom that was abandoned several years ago, five engineering honorary fraternities will hold a dance on Saturday, February 11. The place has not been definitely selected as yet.

Eta Kappa Nu, honorary electrical engineering fraternity, Tau Beta Pi, honorary engineering society, Sigma Gamma Epsilon, honorary mineral industries fraternity, Pi Tau Sigma, honorary mechanical engineering fraternity, and Sigma Tau, honorary engineering fraternity, are the organizations sponsoring the affair.

Engagement of Bill Bortoff's band to play at the dance was announced yesterday by A. Fred Pechter '33, chairman of the engineering honorary dance committee. Other members comprising the committee include Gilbert H. Espenshade '33, George W. Bixler '33, William D. Yoder '33, and Clarence P. Zeigler '33.

New Ceramics Head

DR. NELSON W. TAYLOR

BOARD APPROVES CURRICULA CUTS

(Continued from page one)

building was designated by the Board as the Duckhott Laboratory to perpetuate the name of Dr. William A. Duckhott, first Professor of Botany at the College. Dr. Duckhott served for a period as acting President of the institution. The old Mining building was named temporarily as the Textile Chemistry building.

The courses to be dropped as passed by the Trustee board are: Continuation school education, home economics, Option I B, clothing and textiles, and Option I C, foods and home management, coal mining, coal mining engineering, petroleum refining, and metallurgical engineering, which is to be included in metallurgy. Mining engineering and railway mechanical engineering curricula were suspended.

Among other routine work the Trustee body approved the proposed awarding of 131 degrees at the mid-year graduation.

CO-ED GROUPS TO HEAR WELLESLEY LECTURER

Florence Jackson Will Lead Series Of Vocational Conferences

Sponsored by the Y. W. C. A. and the W. S. G. A., Miss Florence Jackson, of Wellesley College, Wellesley, Mass., will lead a vocational conference program for all women students here on February 15 and 16. Miss Jackson will also hold group and individual conferences.

To explain vocational opportunities and emphasize the proper leisure training is the purpose of the conference program. Miss Jackson, who has addressed women students here in 1929 and 1931, will speak on "The Modern Woman in a Modern World" at the first conference.

TAYLOR APPOINTED TO SUCCEED SHAW

Minnesota Professor Approved As Ceramics Department Head by Trustees

Appointment of Dr. Nelson W. Taylor to succeed Prof. Joseph B. Shaw as head of the ceramics department effective January 1 was announced yesterday by Dean Edward Steidle, of the School of Mineral Industries.

Dr. Taylor's appointment was approved by the Board of Trustees at a meeting held in Harrisburg on January 16. He has studied in two American universities and two foreign institutions, and has been connected with several others in a teaching capacity.

The new supervisor of the ceramics department comes to Penn State directly from the University of Minnesota, where he has been connected with physical chemistry projects since 1925, with the exception of a one-year period when he received a Guggenheim fellowship to the Universities of Berlin and Göttingen, in Germany.

Studied in Germany Dr. Taylor was graduated from the University of Saskatchewan, Canada, in 1919, and received his Master of Science degree from the University of California the following year. In 1923 he received his doctorate in physical chemistry from the same institution.

He was a member of the faculty of the University of California from 1923 to 1925 and the University of Minnesota from 1925, with the exception of one year, until he transferred to Penn State. In 1929 he was awarded a fellowship and spent one year studying geochemistry in Germany.

Dr. Taylor has made a reputation as an educator and pioneer investigator in the fields of ceramic petrography and silicate chemistry. While at Penn State he will continue his investigations in compositions of high-grade refractories.

Published Papers Beside his connection with various colleges, Dr. Taylor worked two summers with the Mayo Foundation, Rochester, Minn., the U. S. Bureau of Mines, and the University of Utah. He has published 27 papers on scientific and technical subjects, and has invented a small X-ray camera.

Members of the faculty of the School of Mineral Industries attended a testimonial dinner for Dr. Taylor held in the Nittany Lion Inn Monday. A similar affair in his honor was held in the State College Hotel on January 6.

One-fourth of the nation's ceramic products are produced in Pennsylvania, the leading State. Penn State has the only ceramics department in the State.

Major Changes in 1933 Rushing Code

1. Sophomores from Mont Alto Forestry School shall be open to free rushing.

2. Rushing shall begin at 5 o'clock, Thursday afternoon, September 14, and shall end at 8 o'clock, Friday night, September 20. (Two periods, the first ending at 10 o'clock Saturday night, September 23; the second ending at 8 o'clock, Friday night, September 20.)

3. The first period shall consist of regulated rushing during which a rushee will be allowed only two dates with a single fraternity.

4. The second period, defined as a free period, wherein any communication or association between fraternity man and rushee is perfectly legitimate, shall begin on Monday, September 25, and end of Friday, September 29, inclusive, between the hours of 8 o'clock in the morning and 9 o'clock at night.

5. A free period shall begin at 8 o'clock and end at 11:30 o'clock on those mornings from Friday, September 15, to Saturday, September 23, inclusive.

6. During both the first and second periods of rushing, a fraternity may enlighten the rushee in any fraternity matter. During the second period of rushing only, a fraternity may extend an informal bid to the rushee, this bid to be binding on neither party. A formal bid, may, however, be offered only at the regularly scheduled time in the proper manner.

ENDRESS NAMED MANAGER

A. Elizabeth Endress '33 has been appointed intramural bridge manager by S. Louise Everitt '33, president of Pan-Hellenic Council. Duplicate bridge will be played, but no definite schedule has been announced.

MAY GET '36 PROCLAMATION

Freshmen who failed to procure proclamations at the class meeting last Friday night may get them free of charge at the Student Union Desk in Old Main. All men who paid for them last week will be refunded if they call before noon Monday or Tuesday, according to Walter G. Benner '35 class president.

I. F. C. APPROVES '33 RUSHING CODE

(Continued from page one)

any non-fraternity man in his first year at Penn State. The code also rules that sophomores from Mont Alto forestry school shall be open to free rushing next year.

Reports of committee chairmen, including a discussion of plans for the Student Loan Fund campaign, occupied the attention of the council following its approval of the rushing code. John C. Munch '33, chairman of the Loan Fund committee, announced that negotiations are being carried on with Fred Waring and his Pennsylvanians, nationally-known stage and dance orchestra, to secure his appearance in a benefit program here. The fraternity manual project was discussed and the committee investigating the proposal was encouraged to continue its work.
