

Supports Bezdek

To the Editor:

This letter carries with it a support of the Bezdek side of the recent upheaval, if it may be called that.

As is generally campus-wide known, the Cartmell side of the situation has been strongly supported by a majority of the students in the College.

In considering the problem of intramural or intercollegiate emphasis, who is right and who is wrong? Perhaps we cannot or had better not try to answer the question.

What conclusions do we reach by this questionnaire-type letter? Perhaps none at all, so why not drop the matter, entirely, students, and let the problem rest in the hands of those more responsible persons directly concerned?

Sincerely, J. E. F., A STUDENT.

Rainfall Here During Month of May Promises To Set All-Time Record

Rainfall during May this far is in a fair way to establish an all-time high. Up until early yesterday morning 5.44 inches had fallen, 1.35 inches over the normal May rainfall mark, according to Prof. Clinton O. Cromer, College weather man.

Every day since the first of the month, with the exception of Thursday and Friday of last week, and Sunday and yesterday, at least "traces"—less than one hundredth of an inch—of rain have fallen. In all, State College suffered seventeen straight days of rainy weather during the first of the month, exclusive of the last week in April.

The highest rainfall for a single day was recorded by the rain gauge on May 2, when ninety-nine hundredths of an inch fell. Seventy-eight hundredths of an inch of rainfall were recorded on May 6, while seventy-three hundredths of an inch fell on May 10.

Sixty-seven hundredths of an inch fell during the rain squall Saturday afternoon, the gauge showed. Last Tuesday sixty-two hundredths of an inch of rain fell.

The average rainfall mark of 4.09 inches for the month was established by averaging readings taken since 1886.

Formerly under the sole direction of the department of agricultural and biological chemistry, the station and statistical reports are now under the supervision of Professor Cromer, of department of agronomy.

DR. THOMAS G. SPEERS TALKS IN SUNDAY CHAPEL

Stresses Inescapable Force Exerted By Religion of Present Time

"Religion is a force as inescapable and as ever-present as the atmosphere which weighs upon us whether we desire to acknowledge it or not," was the summation of the sermon delivered in chapel Sunday morning by Dr. Thomas G. Speers, pastor of Brown Memorial Presbyterian church, Baltimore, Maryland.

Selecting as his topic, "What is Vital in Religion?" Dr. Speers gave three answers to this question, outlining them as a correct perspective in life, aiding an individual to be at peace with himself, and teaching the cardinal virtue of unselfishness.

CASTING ASIDE what he termed as the "superficial aspects of religion," Dr. Speers advised the chapel audience to recognize its innermost needs in life as solvable only in responding to higher instincts. "Only in this way," he concluded, "can we feel that we are living according to a correct standard and consequently, feel at peace with ourselves."

On Other Campuses

Headline on front page of Cornell Daily Sun: CORNELL WOMEN TO PLAY CHESS WITH HUMAN MEN.

We trust that the Ithaca co-eds, despite their associative experiences with Cornell male undergraduates, will meet the new type of contestant gracefully and without surprise.

Twenty-six percent of a representative group of Vassar alumnae have married men with whom they were acquainted from childhood. The percentage of those meeting their future husbands in church work declined from 14 percent in the '70's to two percent in recent years.

In line with a custom established last spring, track officials at Allegheny College wear tuxedos while officiating.

A gallon of the new legal brew is not sufficient to produce intoxication, according to reports from Stanford University. After downing eight bottles of S.2, a Stanford student passed the Palo Alto police department's sobriety tests.

A complete skeleton of a whale has been placed in the geology building at the University of Oklahoma. What a boner!

The Mothers club at the University of Utah, according to reports, is conducting a fierce campaign against student hazing. Paddling on a new spot or something like that, we presume.

Four University of Wisconsin professors have filed petitions for offices in the Madison municipal government, all listed on the Socialist ticket. Has Norman Thomas spoken there, too?

Out of 1,240 student autos inspected at Iowa State College, seventy-five percent failed to meet state motor requirements.

Statements Show Co-ed Opinion on Government Merger Equally Divided

Opinion on the proposed merger of men's and women's student governments seems about equally divided among women students, statements by representative women reveal.

Eva M. Blichfeldt '34, president of the Women's Student Government association, said in giving her opinion of the proposed system, "Theoretically the plan is good and with the careful designation of powers, neither men's nor women's rights would be trampled upon by a government merger.

140 MEN ATTEND CONFERENCE HERE

Representatives From All Parts of Country Hear Lectures On Industrial Subjects

One hundred and forty delegates from all parts of the United States attended the Industrial conference held here recently. The same number were present at the annual dinner, at which Ray H. Smith, College controller, and W. S. Finley jr. gave addresses.

"Industrial Stability" was the topic of a lecture given by L. W. Wallace of the American engineering council. Mr. Wallace reviewed the causes and possible cures of the present economic depression.

Prof. Magoun, of the Massachusetts Institute of Technology, offered a discussion of the fundamentals which lead to the development of strong industrial leaders with his talk on "Training for Leadership."

Leo Henderson, director of the Russell Sage foundation, concluded the series of addresses by prominent State and national industrial leaders with a talk on economics from the viewpoint of technology and its influence on society. The annual conference was termed the best of the fourteen held by the group since its formation.

Campus Bulletin

Final distribution of graduation invitations and announcements will be made in Room 302, Old Main, this afternoon. Anyone failing to claim his order at that time will lose his deposit, as well as the invitations or announcements.

Senior women will hold their annual formal dinner dance at the Nittany Lion Inn Saturday. All senior women and their guests are invited, it was announced by Mary B. Larany '33, social chairman of the senior class.

All sophomore and junior women COLLEGIAN reporters will meet in Room 312, Old Main, at 6:30 tonight.

La Vie may be secured at the Student Union desk between 11 and 12 o'clock every day until next Wednesday. Extra copies will be \$5 each.

Freshman and sophomore COLLEGIAN candidates will meet at the Phi Kappa Psi house at 7:30 o'clock tonight.

All sophomore and freshman business and editorial candidates for the Penn State Froth should report to Room 309, Old Main, between 4 and 5 o'clock any afternoon this week.

DRESSMAKING—Call Mrs. Don Meredith, 121 S. Abertson St. 836-J. ItnpW
