

SCHOOL ARRANGES SERIES OF TALKS

7 Physical Education Lectures Planned—Local Coaches Will Give Talks

Continuing the lecture series which was started for the first time during the 1932 Summer Session, a series of seven lectures on phases of physical education will be sponsored by the School of Physical Education and Athletics this summer.

Miss Teresa Powdermaker, director of health and physical education, Eastern high school for girls at Baltimore, Md., will present the first lecture of the series Wednesday afternoon at 4 o'clock, speaking on the subject "European Trends in Physical Education." Miss Powdermaker has visited Europe on several occasions and has made a special study of physical education methods there.

Higgins, Leslie To Speak
"The Place of the Dance in Education" will be the subject of a talk by Miss Amy Fisher, a member of the School faculty in the second lecture in the series on July 21, while Frederick E. Foerster, special assistant to the director, division of physical and health education, of the Philadelphia schools, will discuss "Character Education through Physical Education" in the third of the series July 26.

Prof. Nelson S. Walke, a member of the regular session faculty of the School, will give the fourth lecture on July 28, speaking on the subject "The Place of Adaptive Physical Education in a modern health and physical education program." Vaughn S. Blanchard, director of health and physical education in the Detroit public schools, will discuss "the organization and administration of health and physical education in state and city systems" in a lecture August 2.

Two additional lectures are planned, one by Robert A. "Bob" Higgins, head football coach, and the other by Earle E. "Spike" Leslie, head basketball coach, on their respective sports. Dates for these lectures will be announced at a later date.

All lectures will be held in room 301 of Recreation hall and will be open to all who desire to attend.

NEW ROAD MAY OPEN LAST OF THIS MONTH

Highway Will Shorten Distance to Philipsburg from Here

The opening of the stretch of highway between Waddle and Martha Furnace, connecting Half Moon Valley and Bald Eagle Valley, will take place the last of the month if the weather permits.

This roadway is the continuation of Route 5 over the mountain to the Bald Eagle Valley road. This will considerably shorten the distance between State College and Philipsburg and points west and northwest. The old route at present goes through Stormstown over the mountain to Port Matilda.

The completion of this section of the Lakes-to-Sea highway will add one more beauty spot to the cross-state roadway, as it cuts along the side of the hill after entering the gap at the end of Half Moon Valley and presents a view of fertile farmlands and rich green countryside.

WALKE, STANLEY TO HEAD SUMMER SOCIAL COMMITTEE

Prof. Nelson S. Walke has been named chairman of a committee appointed to arrange social events for faculty members in the professional courses of the School of Physical Education and Athletics during the Summer Session, while "Dutch" Stanley will act as chairman for a similar committee for students in the professional physical education courses.

Members of the faculty committee include Robert A. "Bob" Higgins, Vaughn Blanchard, and Miss Amy Fisher. The student committee is composed of Miss Evelyn Hurrell, Miss Mildred Rupp, John Kowalsky, and Clark Allison.

NATURE CAMP SITE MOVED INTO TOWN

Citizens Forest Conservation Corps Utilizes Former Location At Bear Meadows

Since one of the Citizens' Conservation Corps' camps is located at the Bear Meadows camp site usually occupied by the College Nature Study camp, the students now taking the nature study course are staying at the Phi Mu fraternity on Foster avenue, where the camp headquarters is located.

Nineteen students are taking this three-week course, which occupies their time every day except Sunday from 7:30 in the morning until 10:30 at night. The present class is composed of seventeen women and two men students.

Every day the class takes an all-day trip by truck to some nearby place where observations are made of plant and animal life. At night there is usually a lecture given by one of the members of the staff.

Dr. George R. Green of the College staff is in charge of the class, assisted by three other instructors. The other members of the staff are Miss Farida Wiley from the Museum of Natural History in New York City; Prof. George T. Hastings from Roosevelt High in New York City; and Prof. George Free of the College staff.

Absence of Necessary Funds Prevents Acceptance

Further recognition of the ability of Bill Jeffrey, Nittany Lion soccer coach, who is in charge of special courses for swimming instructors and basketball coaches this summer, took advantage of the three weeks intervening between the regular session and Summer Session to make a flying trip to his home in Oregon, and the word "flying" is used literally.

"Spike," accompanied by Mrs. Leslie and a guest made the westward journey by automobile in seven days and then cut down his own time to five days on the return trip, despite the fact that they stopped in Chicago to see the Century of Progress Exposition.

"Spike" drove continuously for thirty hours over twelve-hundred mile stretch on one stage of the return trip.

Jeffrey received the invitation by cable from Rome on Saturday, offering to pay all expenses of the team while in Italy. Owing to the relatively short time remaining to select the personnel of the team and difficulties of securing financial backing necessary for the trip to Italy, Jeffrey announced Wednesday that he would be unable to accept the invitation.

The invitation is the second such offer that Jeffrey has received in the past year. Plans are already under way for a trip to Bermuda in December by an American intercollegiate soccer team to be selected and coached by the Lion mentor.

Definite assurance of three games for the trip was received last week from the Bermuda Soccer association and there is a possibility that a fourth contest will be added to the schedule. The first game for the touring American team will be with the British Royal Navy eleven on December 23, while the others will send the Jeffrey-coached team against an all star team from the Bermuda soccer league on December 26 and the British Army team on December 28.

The American squad will be composed of outstanding intercollegiate players, selected from college and university teams throughout the East. Jeffrey will have charge of the selection of the players and coaching during the trip.

SUMMER COLLEGIANS DEFEAT COLLEGE HEIGHTS, GRAHAM'S
The Summer Collegians, independent midget team composed of Summer Session students, scored a pair of decisive victories over State College midget league teams in its opening games last week. The Collegians defeated "Bucky" Taylor's College Heights team 11-to-7 in their opening contest and swamped Graham's A. C. in the second encounter.

Spike Leslie 'Flies' To Oregon by Auto

Earle E. "Spike" Leslie, varsity basketball and assistant football coach, who is in charge of special courses for swimming instructors and basketball coaches this summer, took advantage of the three weeks intervening between the regular session and Summer Session to make a flying trip to his home in Oregon, and the word "flying" is used literally.

"Spike," accompanied by Mrs. Leslie and a guest made the westward journey by automobile in seven days and then cut down his own time to five days on the return trip, despite the fact that they stopped in Chicago to see the Century of Progress Exposition.

"Spike" drove continuously for thirty hours over twelve-hundred mile stretch on one stage of the return trip.

TICKETS REPLACED BY COUPON BOOKS

Athletic Association Will Use New Admission System—Reports Season Cards Misused

Coupon books will be used by the College Athletic Association for admission to athletic contests at the College this year instead of the season tickets which have been issued students in the last three years, Neil M. Fleming, graduate manager of athletics, announced this week.

Covering only contests for which admission is usually charged, one book will be issued to every regular student each semester, Mr. Fleming said. The first semester book will contain tickets for fifteen contests, while the second will include passes to twenty-five intercollegiate contests.

Misuse of the season ticket issued in former years and less likelihood of their being lost prompted the change to the coupon book, the graduate manager declared. Nearly two hundred tickets were reported as lost by students last year, while the cards

5 Swimming Pools, Beaches Available For Summer Session Students Here

Five places within a radius of twenty miles from State College furnish swimming facilities for Summer Session students this year. Hecla park, Slab Cabin beach, the Evergreens, Whipple's Dam and the Glennland pool combine to provide plenty of opportunity for swimming.

Hecla park is located seventeen miles east of State College on route 220, and although it is privately owned, it is open to the public free of charge. It is a circular pool about seventy-five yards in diameter, with concrete bottom and side and a small island near the middle of it. It has a three-foot diving board and a powerful searchlight for night swimming.

Slab Cabin beach is a privately owned concrete pool, two miles east of State College on route 45. This pool is 225 feet long and 80 feet wide and is chlorinated properly under State supervision. The pool is equipped with two standard diving boards, and dressing rooms are available. Provisions have been made for night swimming.

The Evergreens is a privately owned pool one mile east of State College on route 45. This pool is entirely concrete, and is egg-shaped, having the dimensions of 113 feet by 60 feet. There is one diving board at the deep end of the pool, and facilities for dressing are available. The pool is surrounded by evergreens and the water is chlorinated as it enters the pool.

Whipple's Dam is located in the heart of the Seven Mountains, twelve miles south of State College, one mile off route 245. It is an artificial lake, dammed up at its end by a concrete dam thirty feet long and ten feet high. The lake is under State super-

vision, but open to the public. The entire space includes about five acres.

The Glennland is a spacious indoor pool located in the partly-erected apartment building on the corner of Pugh street and Beaver avenue. This pool, the largest indoor pool in the State, is ninety feet by forty-five feet, and has two standard diving boards. An artificial beach adjoins the building and in the building there are artificial sun lamps and underwater lights. The pool is privately owned and is chlorinated daily.

BRAND, BEYER QUALIFY

Fred Brand jr. '32, former Nittany Lion basketball and golf captain, and H. Lloyd Beyer jr. '35, member of the Lion golf team this spring, were among the qualifiers for the Pennsylvania amateur golf championship at the end of the qualifying round Wednesday. Brand shot a 155 while Beyer's score was one stroke higher at 157. The title tourney is being staged at Philadelphia with the finals to be played tomorrow.

SPEIDEL TOURS EUROPE
Prof. Charles Speidel, wrestling coach and instructor of the School of Physical Education, is traveling in Europe this summer.
