PETITIONS STARTED IN FAVOR OF POOL

400 Residents Sign 6 Petitions To Operate Glennland Pool on Sundays

While six petitions containing the names of more than four hundred State College residents favoring the Glennland swimming pool are circulating about the borough, the fight of Burgess Eugene H. Lederer to prevent the Glennland pool from operating on Sundays continued unabated this week.

The latest move in the controversy occurred Sunday when Chief of Police Albert E. Yougel was stationed at the swimming pool for nearly four hours Sunday afternoon under orders to arrest the entire operating force of the pool should any tickets be sold. Although no tickets were sold, patrons were permitted to swim on their promise to pay at a later date.

To Remain Open
Anticipating his own arrest, Burt M. Hackett, manager of the pool, pled guilty to operating the pool on Sunday, July 23, before Squire Miller of State College last week and paid a fine. Hackett was later arrested and tried before Squire Wentzel on the same charge, Burgess Lederer maintaining that Hackett could not plead guilty to a charge before it was lodged. After a lengthy discussion on the legal technicalities of the question at a hearing before Squire Wentzel Monday night, decision in the case was withheld until tomorrow.

The petitions favoring the operation of the pool on Sunday appeal to the borough authorities to "neither take steps nor encourage such steps as would be aimed at the closing of the swimming pools in State College and vicinity on Sunday afternoons and evenings." The petitions have been signed by more than four hundred residents of State College.

Based its defense on the fact that other amusements are permitted to be operated on Sundays here, the pool management has announced that it will continue to remain open Sunday afternoons and evenings at the risk of paying a fine for such offense. The Blue Laws of 1793 furnish cause for the borough authorities' stand on the controversy.

Transferring of Graduates Here Shows Increase

The percentage of students coming here from other institutions to take graduate work in comparison with the number of our own graduates taking work here has shown a decided increase in the past year, according to Dr. Carl E. Marquardt, College examiner.

While last year sixty-six percent of the graduate students were from outside institutions, the percentage has increased to well over eighty percent. Of the 166 graduate students that have enrolled here since February 19, 132 of them came from other schools.

Although only about one-third of the students registered here before the Summer Session began, practically all of the 166 that have registered since February are now taking work here. Only thirty-four of them come from institutions within the State. The remaining students have come from fifty-eight different American colleges, and fifteen different states. Nearly all of these states are east of the Mississippi with New York and Maryland furnishing the most.

HYATT GIVES FINAL SPEECH BEFORE HONORARY TUESDAY

Mrs. Helen Kersey Hyatt, field worker of the Pennsylvania emergency relief board, co-instructor of the course in relief work being offered by the College this summer, was the speaker at the final meeting of Kappa Phi Kappa, honorary educational fraternity, Tuesday night.

Two national officers of the fraternity, Prof. George Henke of Allegheny College, national treasurer, and Prof. Arthur D. Wright of Washington, D. C., national secretary, attended the Tuesday meeting. Both men were here for an executive meeting with Dean Will G. Chambers, of the School of Education, national president of the fraternity.

WANTED—Position by two ladies as house mother or manager of a fraternity house. Excellent cooks. Please write Mrs. Harriet Clough, 122 First Ave., Corry, Pa. 11pM

Sports Teams Will Invade Bucknell in Return Games

Contests Planned for Next Week—Soccer Game Tomorrow

The second of the Penn State-Bucknell Summer Session sports contests will be staged next week when baseball, tennis, and golf teams representing the College invade Lewisburg for return matches with the Bucknell summer session teams. The contests are tentatively planned for Monday or Tuesday afternoons.

In addition to the student baseball, tennis, and golf teams, a faculty golf contest similar to the one staged here last week is also on schedule. Local arrangements for the contest are being made by Dr. Elwood C. Davis, of the School of Physical Education and Athletics.

Bucknell captured the baseball contest while the Penn State faculty golfers defeated their Bucknell opponents in the contests held here last Tuesday. Inaugurated this year, the athletic competition is expected to be continued as an annual feature of the Summer Session.

A second soccer game between the Summer Collegians and a team representing State College High school will be staged on the State College high school athletic field tomorrow afternoon at 3 o'clock. The two teams battled to a 2-to-3 tie in their first contest last Saturday afternoon with Coach Bill Jeffrey, Al Daykin, and Brady scoring the Collegians' goals.

Nate Repogle, star center on the 1919, 1920, and 1921 Nittany Lion basketball teams, paid the College a visit Tuesday afternoon and engaged in a round of golf with Hugo Bendick, director of the School of Physical Education and Athletics, Bob Rutherford, jr., and "Doggie" Alexander. Repogle is coach at a Pittsburgh district high school at the present time.

Six former Lion athletes will be lost to teams of the College Thursday night when Bill McMillen, Marly Hesch, Harry Hill, Pete Fletcher, Milo Torrence, and Ken White receive degrees. McMillen garnered two varsity football and three varsity lacrosse awards, Hesch won letters in both football and lacrosse, Hill in track, Fletcher in wrestling, and Torrence in football while White was a member of last year's varsity grid squad.

Tommy Slusser, who will captain the Nittany Lion football and boxing teams this year, scored the only knockout on the Pittsburgh Lyceum outdoor boxing program Tuesday night when the referee stopped his bout with Jimmy Auth, Pittsburgh

Tiny Tots Play In Basement of College Building

Screams and peals of childish merrymaking attracted one of the COLLEGIAN's wandering reporters to the basement of the new Home Economics building, where he found a literal "children's paradise" with fifteen children of the ages from two to four years old at play.

On the upper side of the building there is a specially constructed playground, equipped with see-saws, slides, swings, and miniature trapezes. Between the wings of the building there is a concrete wading pool and sand beach where the children enjoy themselves to the utmost.

The entire basement of the middle wing is one large playhouse where everything is built in miniature size, which makes one feel like a modern Gulliver. Drinking fountains, beds, shower baths, and chairs are all built to scale.

Besides being a paradise for the young ones, it serves as a classroom for the class taking child development, under the supervision of Mrs. Mary M. McDowell. This class helps in overseeing the children and at the same time makes observations on their conduct.

Each morning the parents, who are usually members of the faculty, bring their boys or girls to the building at nine o'clock and call for them again at twelve. Between these three hours the children are allowed to romp to their hearts' content, but always under the watchful eye of the class.

FOND APPOINTED DIRECTOR OF REEMPLOYMENT SERVICE

Dr. Millicent Pond, of Waterbury, Conn., daughter of the late Dr. Pond, of the Chemistry and Physics School, was recently appointed director of the Connecticut reemployment service by the labor department. Dr. Pond will have charge of recruiting workers for Connecticut building projects.

Dr. Pond holds a master's degree from Bryn Mawr College and a doctorate in psychology from Yale University. She has gained considerable fame by her system of giving to those seeking employment tests designed to show what work for which they are best fitted.

Scores Knockout

TOM SLUSSER

amateur, in two minutes and eighteen seconds of the first round. Tommy represented the Frawley Athletic club in the 160-pound class.

Mouse Serry '30, Egyptian soccer player who gained All-American honors while a member of the Nittany Lion soccer eleven, is touring Europe as a member of the National Egyptian soccer team at the present time, according to word received by Bill Jeffrey, Lion coach. Serry, one of the outstanding booters produced here, writes "Bill that the all-star team is making a two-months' tour of Europe, and will play an eighteen-game schedule.

Russ Van Atta '29, former Nittany Lion hurling ace, hung up his ninth victory of the season for the New York Yankees Sunday when he defeated Washington, 7-to-2. Van Atta has scored three of the five victories registered by the Yanks over Washington this season and has been defeated only three times. This is his first season in the major leagues.

Alpha Gamma Rho's mushball representatives handed the Summer Collegians their first setback of the season Tuesday night when they hung up a 4-to-3 triumph over the Collegians in a nine inning battle on the Armory field. The Collegians had captured fourteen victories and had only a 6-to-6 tie with Alpha Zeta to mar their record previous to losing Tuesday night.

ATHLETIC GAMES FEATURE PICNIC

School of Physical Education Nine Triumphs in Baseball at Annual Outing

A number of athletic events, including baseball, horseshoe pitching, badminton, and swimming, featured the faculty picnic which was held at Hecla Park, Friday afternoon.

In the two baseball games, both were won by close decisions by the School of Physical Education team. The first game with the School of Chemistry and Physics was won by a score of 21-to-20, and the second game with the School of Education, by the score of 5-to-4.

Dean Will G. Chambers won all of his horseshoe pitching contests, to have the best record, and Dr. Bruce Moore was the outstanding star among the faculty who participated in the game of badminton.

Coach "Dutch" Stanley, of the University of Florida who is a student here this summer, had the best form in canoeing, and was declared the most artistic paddler. The swimming contests resulted in ties in all divisions.

MURPHY PRESENTS BULLETIN ON PENNSYLVANIA INDUSTRY

"Mineral Industries of Pennsylvania" is the title of a bulletin issued by Dr. Raymond E. Murphy, of the School of Mineral Industries, on Tuesday.

The bulletin, which is published by the Greater Pennsylvania Council, which is headed by President Ralph D. Hetzel and includes as members a number of faculty members from the College, is intended as a reference work on Pennsylvania mineral industries. It numbers 185 pages and distributed throughout are 107 graphs and charts.

Dr. Murphy was assisted in the work of compiling the book by his wife who is an expert in economic geography. The preface to the bulletin was written by Dr. A. W. Gauger, research director of the School of Mineral Industries.

RETURN FROM ROCHESTER

Dr. David Duncan, of the department of physics and Dr. Lloyd T. Devore, research fellow in the physics department, returned last week from Rochester, N. Y., where they were working on a special research problem at the Eastman Kodak company laboratories.
