FRIDAY AND SATURDAY

2 FACULTY MEN CALLED BY DEATH

Prof. Percy Ash, Arthur Jones Succumb During Summer Vacation Months

Two members of the College faculty, Prof. Percy Ash, of the department of architecture, and Arthur S. Jones, of the School of Engineering, were recently called by death. Both deaths occurred outside of State College.

Professor Ash died at his home in Freyberg, Me., Wednesday, July 19, as a result of a brief illness in which he suffered from peritonitis. Mr. Jones expired at the Phillipsburg hospital, Tuesday, August 22, following an operation for double hernia.

Served Since 1924 Professor Ash served as a professor of architectural design and architectural history at the College since 1924. After graduating from the University of Pennsylvania in 1896 with science and civil engineering degrees, the deceased received a scholarship in architecture which made it possible for him to study abroad.

From 1900 until 1905, Professor Ash was employed in a supervising architect's office in Washington, D. C. From 1905 to 1910 he served first as a professor, and later as dean of the department of architecture at George Washington University. For the next two years he served on the Michigan University faculty, while from 1912 to 1918 he taught at the University of Illinois. From 1918 to 1924 he was a public engineer.

Mr. Jones was graduated from the College in 1913 with the Bachelor of Science degree in engineering; he received his masters degree here in 1916. After several years residence in Philadelphia he accepted his position here which he held until his death.

KRUMBINE TO TALK IN SUNDAY CHAPEL

(Continued from page one)

his writings are found, "The Way to the Best," "Ways of Believing," and "The Story of a Quitter," as well as technical articles concerning ministerial problems.

A tentative list covering most of the Sundays before Thanksgiving has been completed. At the present time Mr. Olin D. Wannamaker, American Director, Board of Trustees of Lingnan University (Penn State in China), is named to address the annual chapel service for that institution, October 1, following Dr. Edmunds. October 8, Bishop Edwin H. Hughes, of Washington, D. C., will be the speaker, followed by Dr. Henry P. Van Dusen, Dean of Students at the Union Theological Seminary, New York City, on October 15.

Dr. Clarence A. Barbour, President of Brown University, Providence, R. I., will address student chapels at services Sunday, October 22, while the Rev. Fulton J. Sheen, professor of the philosophy of religion at Catholic University, Washington, D. C., will speak October 29. No speaker is scheduled as yet for November 5.

On November 12, Dr. G. Bromley Oxnam, President of DePauw University, Greencastle, Indiana, will address the chapel audience, while there will be no services on November 19 (Pennsylvania Day) because of the annual student half holiday which precedes the Sunday. No speaker has definitely accepted for November 26.

CHACE NAMED ON COMMITTEE

Miss Edith P. Chace, head of department of home economics, was elected to the executive committee of the American Home Economics association following that organization's national convention at Milwaukee, which she attended.

Intrepid Sailors Plan To Punt on 225-Mile Journey

Nautical Faculty Trio Will Tour River in Hybrid Boat

"Winken, Blinken, and Nod one night sailed forth in a wooden shoe. . . . The above sky-sailing was done long ago in dreamland by a trio of poetical children of fancy. Monday, three very mundane individuals, Hibshman, Anthony, and Bayard, sailed forth in a wooden "punt" . . . on a 225-mile "float" down the Susquehanna from Towanda to Columbia.

More accurately identified, the three intrepid navigators are Edward K. Hibshman, alumni secretary, accompanied by Roy D. Anthony, the horticulture department, and E. S. Bayard, one of the College trustees and editor of the *Pennsylvania Farmer*.

The "punt" (which is a water going hybrid obtained by crossing a canoe with a flat-bottomed rowboat) is of a design perfected by the three mariners after years of study, and was built here during the early part of the summer. It is constructed of California redwood and has an overall length of twenty feet.

In addition to the current of the sluggish Susquehanna, supplementary motive power is available at any time since the designers exhibited unusual nautical sagacity in equipping the craft with two paddles and a fifteen-foot pole of exceeding resiliency and weight, according to reports.

The boat carries all of the trio's camping equipment. Speed is not an object of the adventure and the boat is securely anchored each night while the occupants rest after their harrowing day spent in angling for river bass and Susquehanna salmon. The time limit and length of daily journey depends upon, "how heavy they're bitin'."

Residents of line towns including Bloomsburg, Sunbury, Liverpool, Berwick, Wilkes-Barre, Harrisburg, and Marietta, have daily riverside delegations watching for a glimpse of the voyagers as they glide swiftly by.

KAPPA PHI KAPPA INITIATES

Twenty new members were initiated into Kappa Phi Kappa, honorary education fraternity, during the Summer Session. Among the new members was Dr. Bruce V. Moore, head of the department of education and psychology.

TRUSTEES GRANT 9 SABBATICAL LEAVE

No New Appointments of Major Importance Approved By College Board

Nine members of the faculty were granted leaves of absence to take effect during the academic year 1933-34 at a recent meeting of the College Board of Trustees. No new appointments or resignations of major importance have been sanctioned to date.

William S. Hoffman, College registrar, will go on a six months leave of absence beginning October 1. The Registrar plans to spend his entire leave in the southern part of the country. The half-year leave marks the first which the Registrar has received during his service of eleven years here. During the period he has personally registered more than 13,000 students, College statistics reveal.

Stoddard Among Group Leaving

Sabbatical leaves were granted by the Board to Prof. Chester D. Dahle of the department of dairy manufacture, Prof. R. Adams Dutcher, head of the agricultural and biological chemistry department, James A. Hamilton, instructor in mathematics, and Prof. Wendall P. Lawson, of the department of architecture.

Additional faculty men included on the vacation list were Prof. A. Pauline Locklin of the department of English literature, Dean Charles W. Stoddard of the School of Liberal Arts, Mrs. Dorothy A. Stover of the department of fine arts, and E. R. Van Sant of the sociology department.

Professor Dahle, whose leave began June 1 and expires January 1, is spending

LIBRARY SETS NEW RECORD

All previous records for one day's circulation at the College library were surpassed during Summer Session this year when 1,709 books were distributed.

ing his time in graduate study and travel. Professor Dutcher, whose leave is for six months, from February 1, 1934 until July 1, plans to study agricultural chemistry teaching and research in Europe, while Mr. Hamilton will do experimental and actuarial work during the next academic year.

Beginning on September 1, Professor Lawson's leave of absence will extend to the end of the next academic year, while Dean Stoddard will return here on January 1. Professor Locklin has secured an extension of leave during the next year in order to accept a fellowship at Bryn Mawr College. Mrs. Stover's vacation will extend for one year beginning this September. Mr. Van Sant's sabbatical leave was granted that he might complete his work for a doctorate.

HONORARY SOCIETY GIVES \$75 FOR BOOK PURCHASE

Pi Mu Epsilon, honorary mathematics fraternity, has given the College library the sum of \$75 for the purchase of books on mathematical subjects. The society hopes to make this an annual contribution.

Such an annual gift will be as effective as an endowment of \$1,250, College Librarian Willard P. Lewis said, adding that such gifts are unusually welcome in this time of limited appropriations.

COURSE IN RELIEF OFFERED

For the first time in Penn State's history, a course on the administration of unemployment relief was offered during the Summer Session this year. The lectures were given in cooperation with the staff of the State Emergency Relief board, the State Department of Public Welfare, and the Public Charities association.
