

STUDENT UNION BULLETIN

All notices will be received at the Student Union desk in Old Main until 5 o'clock Wednesday afternoon for a Thursday issue, and until Saturday noon for a Monday issue. Additional notices may be phoned to the Old Main COLLEGIAN office on Wednesday and Sunday night.

TONIGHT

Freshman women will hold a meeting for the election of a class president in Room 405, Old Main, at 6:30 o'clock tonight. Prof. R. Adams Dutcher, head of the agricultural and biological chemistry department, will speak at a meeting of the Liebig Chemical society in Room 206, Agriculture building, at 7 o'clock tonight. The Nittany Philatelic society will meet in Room 417, Old Main, at 7:30 o'clock tonight. Ned Willard will speak. Freshman candidates for basketball should report at Recreation hall tonight at 7 o'clock.

TOMORROW

Dr. Francis J. Williams will address a meeting of Phi Lambda Upsilon, honorary chemical society, on "The Application of Physical Chemistry to Geochemistry" in Room 9, Chemistry Annex, tomorrow night at 7 o'clock. Forestry students and those interested in game management are invited to hear Seth Gordon, president of the American Game association and

former State game commissioner, at a meeting to be held in the Forestry building at 4 o'clock tomorrow afternoon.

WEDNESDAY

Lee Sunday, candidate for president of the freshman class, will address a meeting of the class to be held in the Chemistry Amphitheatre at 7:30 o'clock Wednesday night. All freshmen are required to attend. Speaking of Russian recognition, Francis A. Henson, Columbia economist, will address an open meeting sponsored by the Social Problems club and the P. S. C. A. to be held in the Home Economics auditorium at 7:30 o'clock Wednesday night.

THURSDAY

A smoker for all non-fraternity men in the College will be held in the first floor lounge of Old Main at 7 o'clock Thursday night. Eugene C. Bischoff, of the School of Physical Education and Athletics, will be the principal speaker. The final football rally of the present season will be held in the Schwab auditorium at 7:15 o'clock Thursday night as a send-off to the Lion team on their trip to Philadelphia. Short speeches will be given by Coach Higgins and members of the team.

MISCELLANEOUS

Beginning tonight, the architectural library on the third floor of the Main Engineering building will be open Monday and Wednesday nights from 7 to 10 o'clock.

In compliance with the regulation requiring all men in their first year at Penn State to undergo a physical examination, all freshmen, first year men in two-year courses, and transfer students are notified that if they missed their regular appointments during Freshman Week, they should report immediately to the Dispensary in Old Main.

WANTED—Passengers to Philadelphia. Leave Friday afternoon. Round trip \$4. Letter, phone 86. 84-1tpdRW

Man 'Who Really Fills President's Shoes' Visits Here

The man who really fills President Roosevelt's shoes was in town a few days ago, and he's so proud of his job that he wouldn't part with it for \$1,000,000, more or less. This individual, one Corporal John L. Sullivan—no relation to the famous pugilist—obtained the shoes while a member of the B. E. F. in Washington last June.

While there, Sullivan decided that he would interview President Roosevelt. "You can't come in," said Corporal Sullivan. "I'm a winner of the Distinguished Service Cross, and any holder of that honor can demand a fifteen-minute interview with the President."

While talking with Sullivan, the President noticed that his shoes were badly worn. Upon learning that the soldier wore size ten, Roosevelt smilingly said, "That's just my size." He sent for his valet, who procured a pair of shoes for Sullivan.

He wore the shoes for two months, but when they began to show signs of wear, Sullivan carefully boxed them and has been carrying them with him ever since. In the last four months, Sullivan has traveled throughout the eastern states, and upon leaving here, started for the western part of the country.

NEW LIBRARY HOURS NAMED

Beginning tonight, the architectural library on the third floor of the Main Engineering building will open Monday and Wednesday nights from 7 to 10 o'clock. Books on reserve may be taken out between 9:30 and 10 o'clock on those nights.

Lost and Found

LOST—Bunch of keys on ring Sunday between post office and Phi Nu Delta house. Finder please call Haizes at O. N. E. phone 324. 81-1tpdRW
LOST—Brown felt hat in S. L. A. Friday afternoon at 4 p. m. Please call Princeton, Sigma Tau Phi. 90-1tpdRW
LOST—Florentine leather covered cigar lighter with Staunton Military Academy seal. Call Lorenzotti, 962. 86-1tpdRW
FOUND—Pocketbook in Room 405 Old Main Friday. Owner please call at Student Union desk and pay for this ad. 89-1tpdRW

Marquardt Develops Plan To Open Activities for Transfer Students

The introduction of the transfer student to extra-curricular activities, often a fact lost sight of by many colleges, will be successfully effected under a new plan developed by the college examiner's office, according to Dr. Carl E. Marquardt. In order to acquaint the heads of the various extra-curricular movements with the abilities of the transfer, lists citing their previous hobbies or achievements in high school, and the college formerly attended will be available.

The plan is expected to be mutually beneficial to the incoming students and the activity groups such as the debaters, dramatic societies, and the musical organizations, publications, different athletic teams both varsity and intramural. Transfer students, suddenly uprooted from accustomed surroundings, often find their new environment too unfamiliar and fail to take part in many activities for which they are eligible, either because of shyness on their part or indifference on the part of the activity sponsor, Dr. Marquardt pointed out.

That transfers are as a rule persons of marked ability is shown by the fact that their scholastic records at this college are far above the average. To bring these persons into the field of student activities will aid them to get a great deal more out of college life and at the same time will raise the plan of the College outside, activities.

That such a plan is important is shown by the large increase in the transfer enrollment from year to year. This increase is due to several reasons, according to Dr. Marquardt. First, many parents desire that their

sons and daughters attend a smaller college for the first year or two, before entering Penn State. Second, many students unable to enter as freshman because of scholastic deficiencies attend other schools until they are able to meet Penn State's standards. The junior college movement is cited as another reason for the larger number of junior transfers.

In summing up his statement, Dr. Marquardt said, "With more and more transfers every year, it becomes a matter of great importance to fit them into college activities in order that they may have an outlet for their talents and that the College may have the benefit of their participation. By utilizing these lists of students' interests, activity heads may do much to make the transfer student feel completely orientated."

COAL MINE OPERATORS HOLD CONFERENCE HERE

Turner Delivers Lecture on 'Use of Anthracite for Filter Purposes'

Approximately sixty-five coal mine operators and engineers attended the Coal Conference held in Mineral Industries building last Friday and Saturday, according to Prof. William R. Chesedy, head of the mining department.

The speech of Dr. Homer G. Turner, director of research in the Anthracite Institute, on "The Use of Anthracite for Filter Purposes" was featured with a number of slides, showing various processes of treatment.

Mr. Walter A. Jones, secretary of the Central Pennsylvania Coal Producers association, who was to speak on "The New Deal and its Relation to the Coal Industry" at dinner in the Nittany Lion Inn Friday, was unable to be present, but discussion on this subject was led by Mr. John C. Cosgrove, trustee of the College, and Dr. L. E. Young, vice-president of a Pittsburgh coal company.

5 RELEASED FROM INFIRMARY

Of the six students admitted to the College infirmary during the past week, only one is at present a patient there. Ida M. Myers '34, Paul E. Helmsel '34, Mary M. Miller '35, Richard E. Woolbert '35, and Wayne E. Olver '37 were discharged, while Louis C. Klusmeyer '35 is still a patient.

CHAMBERS NAMED TO GROUP

Dean Will Grant Chambers, of the School of Education, has been appointed to the committee which is to study the administration of teachers training for the National Education association. The committee will meet in Cleveland, Ohio during the week of February 24, 1934.

2 about Cigarettes There are 6 types of home-grown tobaccos that are best for cigarettes BRIGHT TOBACCOS U. S. Types 11, 12, 13, 14. BURLEY TOBACCO U. S. Type 31. SOUTHERN MARYLAND TOBACCO U. S. Type 32. U. S. Type 11 is produced in the Piedmont Belt of Virginia and part of North Carolina. U. S. Type 12 is produced in eastern North Carolina. U. S. Type 13 grows in South Carolina. U. S. Type 14 is produced mostly in southern Georgia—a few million pounds in northern Florida and Alabama. U. S. Type 31 includes what is called White Burley tobacco. It was first produced by George Webb in 1864. It is light in color and body, and is milder than the Burley used for pipes. U. S. Type 32, Maryland tobacco, is noted for its "burn". In this respect Maryland excels most other tobaccos. These are the kinds of home-grown tobaccos used for making Chesterfield Cigarettes. Then Chesterfield adds aromatic Turkish tobacco to give just the right seasoning or spice. Chesterfield ages these tobaccos for 30 months—2½ years—to make sure that they are milder and taste better. Tobacco being sold at auction on a Southern market. Chesterfield the cigarette that's Milder the cigarette that TASTES BETTER
