praise and credit that the writer obviously has done.

It was almost killing to read that Professor Banner's desk looks out on stately Mt. Nittany, whither he gazes in melodramatic pose. The scribbled ranks of journalists that have gone out from this College know that his desk fronts on a white-washed wall and that a view to the side is dominated by the imposing vista of the left-wing of the Old Main building. And the picture of activity that has been portrayed for the "journalism alley" where "streets of ink" flow from the pens of metropolitan editors of tomorrow! Such imaginings could never have been written by a man of action, only by an extreme romanticist, and Professor Banner is no romanticist.

The picture of activity with gleaming-eyed, youthful reporters giving off the clear rays of new journalistic ethics inculcated by the department with the press of big-time conferences between the department head and real newspaper editors—

CWENS TO SPONSOR ANNUAL SUBSCRIPTION DANCE FRIDAY

Reducing the subscription price to eighty cents a couple, and offering a free social function to the freshmen women, Cwens, sophomore women's activities honorary, will hold its annual dance in McAllister Hall on Friday night, according to A. Frances Turner '36, president of the group. Music will be furnished by Duke Morris.

all that is obviously farcical for those who are acquainted with the humdrum existence of publications men. There are some people who think that the separation of the journalism curriculum from the department of English composition was the biggest mistake made since the establishment of the School of Education. Certainly if such outbursts of enthusiastic backslapping as appeared in the News continue, sensible students cannot but think otherwise.

—UBT.

To the Editor:
 After a careful reading of the fantastic article relative to the journalism department in the January issue of the *Alumni News*, one is amazed by the careful omission of anything except a bare mention of Prof. William F. Gibbons, head of the department of journalism for a number of years, and one whose name is synonymous with the growth of journalism at Penn State.

The author of the article, in listing the factors which have contributed towards "journalism coming of age" on this campus neglects to make even the slightest mention of the contributions Professor Gibbons has made—his complete devotion to the science of newspaper writing and editing, his absolute sincerity and thoroughness as an instructor, and his authorship of at least two text books.

The loyalty Professor Gibbons has maintained towards his professional code has proved inspirational to students for many years. He is much more than just a perennial attachment to the journalism department. His long career has been one of distinct service to Penn State.

Conditions Here 75 Years Ago Revealed

four chairs, a nice cherry table, a bureau with swinging glass to it, a spittoon, match box, dust-pan and brush, inkstand, a fine closet, a pitcher and tumbler, we drink out of, etc. . . . Parental solicitude seventy-five years ago is somewhat akin to that of 1934, it would seem. Witness the following letter from a banker in Philadelphia to the College, dated January 25, 1859: "Upon the suggestion named in your letter, we are getting Harry ready for his new undertaking—but he would like to be informed as to the particular day that he will be required to be at the farm school—and please to advise me of the best mode of conveyance to get there."

Explaining that illness prevents their accompanying him, he wrote "He will, therefore, start by himself and I trust with confidence that he will meet in you (from the information I have rec'd.) an advisor and a friend."

GOOD TASTE—YOU CAN'T MISS IT

Luckies' finer smoother taste comes from the finest Turkish and domestic tobaccos. We use only the center leaves for they are the mildest, most tender leaves. And every Lucky is so round, so firm, so fully packed.

Always the Finest Tobacco and only the Center Leaves

NOT the top leaves—they're under-developed—they are harsh!

The Cream of the Crop
 "The tenderest, mildest, smoothest tobacco"

NOT the bottom leaves—they're inferior in quality—coarse and always sandy!
