

STUDENT UNION BULLETIN

All notices will be received at the Student Union desk in Old Main until 5 o'clock Wednesday afternoon for a Thursday issue, and until Saturday noon for a Monday issue. Additional notices may be phoned to the Old Main COLLEGIAN office on Wednesday and Sunday night.

TOMORROW

The executive council of the Interfraternity Council will meet to act upon a budget in Dean Warnock's office at 4 o'clock.

Candidates for the technical staff of the Penn State Players will meet in the Players work shop above the stage of Schwab auditorium Tuesday night at 7 o'clock.

Penn State Grange will hold a meeting in Room 405 Old Main at 7:30 o'clock.

Students interested in stage managing for the Thespians should report at the auditorium at 8:30 o'clock.

Members of the Social Problems club should report to the Photo Shop at 4:30 o'clock to have a picture taken.

Phi Mu, Theta Phi Alpha, and Women's building basketball teams will practice in the Armory at 9 o'clock.

All contestants in Student Union Loan Fund dance poster contest must submit posters at the Student Union desk, Old Main, by tomorrow afternoon in order to receive the attention of the judges.

WEDNESDAY

Alpha Chi Omega and Alpha Omicron Pi will compete in the women's intramural basketball tourney in the Armory at 7 o'clock. Chi Omega and the Downtown dormitories' teams will play at 8:30 o'clock.

Dr. Charles D. Dietrich will talk on "Pharmacology" before the Pre-Medical society in Room 28 Physics building at 7 o'clock.

A meeting of the Dairy Science club will be held in Room 117, Dairy building, at 7 o'clock Wednesday night. The speaker will be Mr. Sidelmann, who will talk on "Dairying in Denmark." There will be movies and refreshments.

An open meeting of the public affairs committee of the Y. W. C. A. will be held in the Hugh Beaver Room, Old Main at 6:30 o'clock. The subject will be "Shall Y. W. C. A. officers be elected by the women's cabinet or by the general membership?"

President Ralph D. Hetzel will address an open meeting of the American Association of University Professors in the Home Economics auditorium at 7:30 o'clock.

Interfraternity Council will meet in Room 405 Old Main at 7 o'clock.

Electrical Engineering society will hold an "Electronic Show" in Room 200, Engineering D at 7:30 o'clock. Senior electrical engineers will speak.

THURSDAY

Kappa Phi Kappa will meet in Room 417 Old Main at 7:30 o'clock.

Kappa Alpha Theta will play the Downtown dormitories in basketball in the Armory at 9 o'clock.

Student Union Board will meet in Room 305 Old Main at 8 o'clock.

Prof. Charles B. Steel will address an open meeting of the Social Problems club on "Compulsory R. O. T. C.—A Defense" in the Home Economics auditorium at 7:30 o'clock.

Fraternity caterers or treasurers will meet to consider action on the fraternity telephone situation in Room 405 Old Main, at 8 o'clock.

FRIDAY

T. O. Grisell, executive secretary of the Pennsylvania Grade Crude Oil Association will give an open lecture on "Economics of the Petroleum Industry" in Room 119 Mineral Industries building Friday afternoon at 4:10 o'clock.

A Student Loan Fund dance will be held Friday night at 9 o'clock in Recreation hall. Admission will be \$1.00 per couple. Bill Bottorf and the Campus Owls will play.

INCREASE IN STUDENT PROBATION LIST SHOWN

Number of Failures Last Semester Estimated Lower Than Before

The student probationary list is much larger this year than it has been for quite some time, it was learned through an interview with the Dean of Men Arthur R. Warnock. Although there has been no official list published of those students who have officially been ousted from the College, it is estimated that the number of failures were somewhat smaller than in preceding years.

The Deans of the various Schools feel that a student's intellectual and practical knowledge would be greatly advanced were he able to secure employment in his specific field for a period of time. As a result, it has been the principle of the College to keep the probationary list as small as possible, according to Dean Warnock.

However, owing to the scarcity of jobs, the Dean of Men explained, it has been deemed advisable to carry the student along on probation for another semester, as his only alternative would be the street.

Dean Warnock expressed the belief that as employment picks up, the College will become stricter regarding the flunk-outs.

COLLEGE INFIRMARY ADMITS 16 STUDENTS, DISCHARGES 8

Sixteen students were admitted to the College hospital during the last week, with eight of them still patients there last night. Those remaining at the infirmary are Floyd S. Miller '34, Ethel L. Williams '34, Anne B. Fagan '35, E. Leonhard '36, Carl L. Miller '36, Helen Africa '37, Lester M. Benjamin '37, and Willard Terry Jr. '37.

Those discharged during the week are Jennings B. Knobel '34, Richard E. Peterson '34, William J. Simpson '35, Leon S. Edwards '36, Chester W. Moore '36, Richard G. Byrnt '37, Charles J. Hollister '37, and Robert G. Kutzer '37.

SUMMER SESSION ADDS 6 COURSES

Further Changes Include French Institute Fee Reduction, Longer Sessions

Addition of six composite courses in both the inter and post-sessions, a ten per cent reduction of fees in the French Institute, and extension of inter and post-sessions to a period of three weeks constitute the major changes listed in the preliminary announcement bulletin of Summer Sessions which was released recently.

Composite courses listed which were not given heretofore include English Literature, Political Science, History, Economics, Physical Education, and Sociology. Students may enroll for all sessions or any single session, or a combination, according to their choice.

Announces Fee Reduction

Although the tuition fees for the French Institute remain the same as last summer, the ten per cent reduction is made in room and board fees, according to the bulletin. Courses will be given in forty-one departments with entomology listed as the only new course given in the regular summer session program.

The regular session will begin on July 2 and continue to August 10. The Inter-Session will open June 11 and continue to June 29 while the Post-Session is listed as beginning August 12 and ending August 31. The regular Summer Session bulletin will be available about March 15, according to Palmer C. Weaver, assistant director of the Summer Session.

Plans are also under way for the continuance of the Institute for Public Social Workers which was offered last summer. The Institute, which aims to further the expansion of training in public relief programs, is conducted in conjunction with the Department of Public Service and the Emergency Relief Board.

TECHNICAL STAFF FOR NEXT PLAYERS' PRODUCTION NAMED

The technical staff of the Penn State Players' production, "Redemption," to be given March 24, was released today by Frank S. Neusbaum, director. The stage manager is Charles R. Stecker '35 and will be assisted by Bryson C. Mc. Filbert '36.

Carl A. Richards '34 has been selected as electrician while the properties will be taken care of by Elsie M. Douthett '35. June M. Roberts '34 will be in charge of the costuming.

'Hell Week' Visitors Cautioned To Avoid Police Chief's Home

Warning to the Young Bloods: Chief of Police Albert E. Yougel wishes the student body to know that he is well and happy and that his wife can use a shot gun. All of which goes to show that freshmen on "Hell Week" assignments had better refrain from visiting Chief Yougel at his home late at night, or in fact, any time.

"If you would care to learn more about this," he continued, "Mrs. Yougel practiced in Texas, where we spent last summer and if any students bother you, just let me know," he smilingly told a freshman woman reporter of the COLLEGIAN yesterday.

"I also want to warn students against parking their cars in the downtown district and in front of fraternity houses all night as they are in the habit of doing," Chief Yougel stated. "They are likely to awake some morning to be brought before the Burgess to be fined."

GAUGER TO PRESENT PAPER BEFORE A. I. M. M. E. MEETING

Professor Wheeler P. Davey, of the School of Chemistry and Physics, will leave tomorrow to attend the American Institute of Mining and Metallurgical Engineering in New York, N. Y.

He will act as chairman at the meeting of the Institute of Metals to be held Wednesday morning. Professors Gauger, Knight, McFarlane, Long, Chesedy, and Weysses, of the School of Mineral Industries are also attending. Professor Oscar A. Knight, of the metallurgy department, will read a paper at the meeting on alloy steels.

On Friday and Saturday Professor Davey will attend the meeting of the American Physical Society. At this conference Dr. Herbert K. Ward, of the University of Michigan, who received at mid-year commencement here his Ph. D. in Physical Chemistry and Chemical Physics, will present his thesis dealing with an X-ray study of various benzene solutions.

BENJAMIN '37 TO COMPETE IN NATIONAL Y.M.H.A. CONTEST

Lester M. Benjamin '37 will journey to New York City next Thursday to compete in the National Y. M. H. A. Oratorical contest, which will take place at the 92 Street Y. M. H. A., Sunday, February 25.

Using "The Jew of Tomorrow" as his subject, Benjamin will represent Pennsylvania having won both the district and state honors last spring.

COLLEGE WILL AID 3 C. W. A. PROJECTS

Agricultural School, Under Weaver, Dutcher, To Make State-Wide Surveys of Farms

Cooperating with the Federal Government, the School of Agriculture will help in the execution of three Civil Works projects which will be carried on throughout the State in the near future. These projects will be under the direction of Dr. Frederick P. Weaver, head of the department of agricultural economics, and Dr. R. Adams Dutcher, head of the department of agricultural and biological chemistry.

The first project will be a study of tax delinquencies on farm lands. This is expected to utilize the services of over 100 enumerators, with one or more in each county. It will be carried on with the cooperation of the United States Bureau of Economics and will be under the supervision of Dr. Weaver.

The second project will be carried on with the same bureau, and will be a study of part-time farming in Pennsylvania. Part-time farmers are those who live in a city or suburb and farm at the same time. This work will involve thirty-six men.

The last project will be a study of the chemical composition of vegetables, and will be in cooperation with the United States Bureau of Home Economics.

SPECIAL LIBRARY EXHIBITION PLANNED FOR ANNIVERSARY

To celebrate the real seventy-fifth anniversary of the College, the College library has planned a special exhibit of early text-books, mementos, photos, cards, first catalogues, and other miscellaneous articles in Room K, Willard P. Lewis, librarian, has announced.

Although Penn State had exercises commemorating the seventy-fifth anniversary after the completion of Old Main about four years ago, it was on February 16, 1859 that Pennsylvania State College was opened. Prior to that it was called the Farmer's High School.

STOUT '33 TO GIVE LECTURE

Theodore G. Stout '33 will show two reels of motion pictures concerning processes involved in the manufacture of full-fashioned hosiery in Room 107, Main Engineering, at 3:30 o'clock tomorrow afternoon. The demonstration is given under the auspices of the American Society of Mechanical Engineers.

Letter Box

(Continued from page two)

ly in the wholesale slaughter of human life.

Most students are in sympathy with the purpose of the public works program of putting men to work. But some students are convinced that a much wiser use than building armories could be found for public funds in social, civil, and other projects of unquestionable value which would not result in recurring expense to the taxpayer. And after all, should they have no say in these matters? Should students have no voice in deciding whether they are to be prepared for cannon fodder, to live in another depression, and to face the threat of dictatorial regimes, or whether they are to live in a world society providing freedom, equal opportunity, and a sense of security?

I ask you, Mr. Editor: who has a better right to protest than they—the near-voters, the near-taxpayers, and the near-cannon fodder of the nation?

—Roiland R. Ritter '34.

To the Editor:

In the light of the resolution of a member of the Borough Planning Commission, one is inclined to question just what is being planned for us of the younger generation. We are beginning to realize the futility of attempting to enforce our so-called democracy and tolerance upon a world torn nearly asunder by the Frankenstein which Uncle Sam himself helped to create. We question whether the best in our civilization can be salvaged by reliance upon primitive and stupid means that are so brilliantly clothed in the industrial mechanization of modern war.

If we are to consider ourselves entitled to the description of being advanced and educated youth, we must refuse to depend so complacently upon the War Department's method of contributing to the Penn State of the future. In the attempts to study and solve as best we can the problems handed down to our generation we must stoutly resist the intolerances and selfish prejudices that marked the inefficient leadership of our elders. And the 'we' cannot hope to find Utopian solutions, we protest against a path spelling retrogression.

Student opinion in these matters is not to be taken lightly. As the many are educated, they will rebel against pulling the chestnuts out of the fire for the few. Those who wish for better library facilities, more cultural pursuits, new Liberal Arts, Zoology, and other buildings, will hardly be satisfied by the comforting thought that "the College has nothing to do

VACUUM TUBE EXHIBIT PLANNED BY ENGINEERS

Seniors Will Present Non-Technical Papers at A. S. M. E. Meeting

Several non-technical papers, an exhibit of electron tubes, and a series of demonstration on these tubes will be given at an open meeting of the A. S. M. E. Society by senior electrical engineers in Room 200, Engineering D, at 7:30 o'clock Wednesday. The application of electron tubes in industry timing and sequence control with vacuum tubes, and the use of photo-electric tubes will be demonstrated. Another discussion will be made on how a Grid-Glow tube will enable one to read his name card attached to a disc rotating at 2,000 revolutions per minute.

The production of sound by electron tubes, hearing colored light through an electronic device, stopping, starting and controlling electronic devices by a verbal command, and transmitting music over a light beam will complete the program of the society.

with the proposed construction of a new armory"—except to provide students, land, credits, and honor points, and a two-year R. O. T. C. requirement for graduation. Fred Bettelheim jr. '34.

CLASSIFIED

BALLROOM DANCING INSTRUCTION. Individual social dancing instruction. Call 779-J or 811. Mary Hanrahan, Eye Apts., 200 W. College Ave. 1-6JKL

WANTED—Passengers to Philadelphia leave Friday noon. Return Sunday. Round trip \$4.00. Call Frank Charles, 412-J. 1tpdJBW

WANTED—Passengers to Philadelphia. Leaving Friday, February 25, 5 p. m., returning Sunday night. Call Bill Meyer, 157. 219-1tpdCKX

Each year Turkey and Greece ship us thousands of bales of fine tobaccos—

But why send 4,000 miles for tobacco?

... because spicy, aromatic Turkish is the best seasoning there is for a cigarette. It adds something to flavor and aroma that no other tobacco can give. Chesterfield

uses Turkish tobacco—from Samsoun, Smyrna, Cavalla and Xanthi. Then it blends and cross-blends them with various kinds of choice home-grown tobaccos in the right balance to give you a cigarette that's milder, a cigarette that tastes better.
