— what it means

the cigarette that's MILDER the cigarette that TASTES BETTER

—to keep on hand 350,000 bales of Turkish tobacco to add something to the taste

So important is Turkish tobacco in the Chesterfield blend that we maintain a modern up-to-date tobacco factory in the far-off city of Smyrna.

Turkish tobacco adds something to the taste and aroma of a cigarette that no other tobacco can give.

It means something that Chesterfield always has in storage upwards of 350,000 bales

of this aromatic Turkish leaf. This Turkish tobacco is blended and cross-blended with ripe mild home-grown tobaccos to give Chesterfields a taste and aroma that is not like other cigarettes.

Everything that money can buy is used to make Chesterfield the cigarette that's milder, the cigarette that tastes better.
