"PENN STATE DAY"

To the average undergraduate, "Penn State Day" merely means the almost thankless task of entertaining seemingly countless numbers of high school students. Few realize the significance of this movement.

It is no secret that the enrollment this year fell below the normal level. The same was true in practically every university and college in the country. To maintain an institution such as Penn State, capacity classes are needed to insure adequate income.

The day has passed when the College can sit back and wait for students. It was with this thought in mind that the committee was named to display a typical day for the high school visitors on May 19.

Right now, the student body can perform a valuable service to the committee. That will be done by contacting prospective College students whom they know at home. Letters to high school friends urging attendance here May 19 will probably carry more weight than any communication which may be sent to principals by the committee in charge.

It is to the advantage of every fraternity man to cooperate to the fullest in this matter. The more freshmen found here next September, the firmer will be the financial position of many fraternities who at the moment find themselves perilously near economic shoals.

But right now the most important thing is the letters to the high school seniors at home. A word from someone already enrolled here may provide the interest that will bring many here May 19. The task of selling Penn State will be taken care of then. The first essential is securing attendance.

PRESS STORIES TODAY announce that more than forty communities, including Philadelphia and Pittsburgh, plan to go on daylight-saving time Sunday. It seems reasonable to believe that if communities from Catasaqua to Perkasic can take the step that gives another hour of daylight in the evening, State College might take the same step for the benefit of the students.

AN ANTIQUATED MOVE-UP Day has been supplanted by a far more satisfactory plan of observing the progress in class distinction. Student government officials of the future might well consider the abolition of another outgrown tradition-junior blazers which by this time have grown to mean practically nothing and seem to be dying peacefully. Their passing should be little regretted by future classes.

IT'S UP TO US! It has just been announced that Herr Hitler, ruler of German destiny, has suspended the work of the Carnegic Endowment for International Peace at the German School of International Relations in Berlin. This only bears out still further the current trend of German thought and action.

CAMPUSEER BY HIMSELF

It was going to be the photograph delicious, Editor Wood and his disciples of Milt Gross declared. The Best-Dressed Man and the Most Attractive Co-ed were informed about the time (3:15 yesterday afternoon) and the place (before the pillars of the M. I. Building). Guy Z. Stover, who had recognized the value of the pillars as a background, was there with his camera. The Frothmen had even borrowed a brand new Chevry roadster for the winners to sit in and look opulent.

Just as the bulb was about to be squeezed, a campus cop parked his crate directly in front of the Chevvy and refused to budge.

It seemed that Geo. (Trees) Ebert of the worthy G. & B. dept. couldn't sanction such goings on on this here campus. Nossir. It was advertising pure and simple and might result in a lot of adverse criticism by people outside the College. Editor Wood did his best. First he tried reason-

ing with the campus cop. Obviously, that couldn't work. Next he tried telephoning Mr. Ebert but he . didn't get any place that way either. They took the

photo in front of the lower campus gate. It's a wonder Mr. Ebert permits his employees to

smoke cigarettes! . . . TODAY'S GOOD TURN O-Kay, O-Kay, here it is: ٨.

> King Burke

We never like to see news suppressed. A freshman Collegianaire handed in the following item which we feel is important even if the COLLEGIAN dopes disagree:

0 0 0

"A ceremony will be held on Holmes field each Monday after the R. O. T. C. parade and May 7 two inspectors from the war department will be present, according to Col. R. V. Venable.

"The best place to see this, Colonel Venable stated, will be near the archery butts since the parade will face that direction."

Thanks so much for telling us, Colonel.

Everyone knows the Betas are most sociable individuals and we weren't a bit surprised when we heard that the Beta chapter at the University of Florida had notified all the local bros, of the spring formal there May 4. But we were sort of phased when we learned that none other than Hal Kemp & Co. was furnishing the rhythm at the Florida formal. You know, having seen the Junior Prom posters, we can't help feeling that someone is being fooled, or something.

. . . . ASHES AND CINDERS

PENN STATE MEN DON'T MISS THIS!

THE PENN STATE COLLEGIAN

There seems to be little doubt that although Hitler continually speaks of amnesty and devotion to peace, he is anxious not to allow too much talk of internationalism to he broadcast in his country. The present German educational policy breathes the same militarism that characterized the pre-1914 days.

The work may be continued if the Endowment can substitute a program of work satisfactory to the Nazi government. However, it seems hard to devise a program at the same time pleasing to Hitler and to international peace.

Militarists will probably use Hitlerism as an argument for the continuance of military training, but it rests with college students to point out economic methods by which Germany can be kept under control, rather than furthering the enterprise of munitions manufac turers with talk of war.
