11 AMENDMENTS TO A. A. CONSTITUTION, BY-LAWS PROPOSED

Student Body to Vote on Them At Regular Elections Next Monday in Old Main

WOULD ENLARGE SIZE OF TENNIS, GOLF LETTERS

Board Suggests That Graduate Manager Need Not Put Up \$15,000 A. A. Bond

Eleven amendments to the constitution and by-laws of the Athletic association have been drawn up by the Board of Athletic Control...

One of the amendments to be submitted proposes to increase the size of the letters given to tennis and golf men from four to six inches.

The following clauses concerning the duties of the Graduate Manager of Athletics will be eliminated if the fifth amendment is ratified.

Nominating Committee Suggested It is suggested that a committee composed of the coaches, captains, and managers of all varsity sports make the nominations for all association officers.

It is also proposed to eliminate the following clause: "Any male alumnus of the College may become an active member at any time by paying the regular fee to the Graduate Manager and having his name enrolled by the secretary."

Eligibility Rulings Altered The amendments also propose to expand the duties of the Board of Athletic Control to include the power of advising with the Director of the School of Physical Education and Athletics on matters of athletic policy and the selection of members of the staff of the School.

It is also proposed to allow a student to compete in intercollegiate varsity competition for more than three years if he does not compete in one sport for more than that time.

The constitution is also to be submitted for amendment on the rules governing the method of conducting elections of officers. In keeping with a system adopted last year, but never changed in the constitution, it is proposed to establish one polling place in Old Main rather than the one for each school originally called for.

Not a Chance With 'Skinny' Ennis Near, Hal Kemp Informs Reporter

"My day is gone and the day of 'Skinny' Ennis has come," Hal Kemp, versatile band director, whose International Favorites orchestra played for Junior Prom Friday night told a COLLEGIAN reporter during the dance.

Kemp organized his orchestra while an undergraduate at the University of North Carolina. Then he had seven men playing with him. Five of them are still in the orchestra and played here Friday night.

"I took time out in College when the track season came around," he declared, "but I couldn't make the team." He graduated in 1926 and the following year he came to State College with the orchestra.

Plans Conclave

Hugo Bezdek

COACHES INVITED TO CONVENE HERE

College To Sponsor Conference Week-end of May 19 Under Direction of Bezdek

More than 900 Pennsylvania high school and college athletic coaches have been invited to attend a conference sponsored by the College on the week-end of May 19.

However, Director Bezdek believes that the conference, as originally planned, will be postponed until some later date, since there are so many conflicting athletic events held throughout the State on that date.

The purpose of the proposed conference is to solve some of Pennsylvania's athletic problems. Efforts will also be made to correlate the work of the high schools and colleges in these fields, and to help advance the work.

This event is a part of the scheme which Director Bezdek first suggested in an address before the convention of American Football Coaches in Chicago last December.

It was at that time that he advocated a national organization of coaches "primarily for the betterment of sports and the conditions attendant on it, and secondly, for the betterment in every way of the profession of coaching."

"The best player in my orchestra is Al Geiger, cornetist," Hal Kemp said, "Of course, Bob Allen, Johnny Tobin, and 'Saxy' Dowell, the vocal trio make a big hit with the public too."

GATESON STRESSES NEED OF BALANCE

Philadelphian Chapel Speaker Shows Necessity of Parallel Forces in Modern Living

"Structure and Concept" as parallel forces of life formed the theme of yesterday's chapel address by Dr. D. Willmot Gatson, rector of the Church of the Saviour, in Philadelphia.

Just as society has its laws and customs which protect human welfare, so religion has its creeds and codes to take care of our spiritual well-being, the rector declared, in pointing out the influence of patterns on the universe in all its aspects from art, nature and science to psychological factors of our mental and nervous life.

"To get on in this world, both the body and the mind must be kept in the best of physical condition," Dr. Gatson pointed out in developing his idea, "One needs the other: they are always meeting in a complementary reaction."

Heads Conference

DEAN R. L. SACKETT

SACKETT TO HEAD ELIGIBILITY GROUP

8 of 26 Colleges in Conference Seek Permission To Use Freshmen Athletes

HARRISBURG, Pa., May 7.—(U.P.)—Eight of the twenty-one colleges ratifying the constitution and athletic eligibility code of the Pennsylvania Intercollegiate Athletic Eligibility Conference will file applications for exemption from the three-year eligibility rule which would bar freshmen from varsity competition.

Other colleges indicating they would seek to use freshmen in varsity competition by authority provided for in section 2 of the eligibility code are Allegheny, Albright, Lebanon Valley, LaSalle, Lincoln and Moravian.

Section 2 of the eligibility code allows freshmen to compete in varsity athletics provided two-thirds of the conference membership approves.

The code abolishes athletic scholarships, provides for exchanges of eligibility lists by conference members, makes mandatory the keeping of athletic case histories of varsity candidates, seeks the subordination of athletics to regular scholastic work, encourages the spirit of amateurism and sets up faculty supervision of athletic eligibility.

Dean Sackett on his return from the conference said that the most significant action taken by the conference was the passage of a resolution which decreed the practice of "whispering" and circulating "rumors" concerning the standing of certain institutions or its athletes. This practice is all too prevalent as everyone knows, Dean Sackett declared and it is his opinion that the resolution will put a stop to such harmful action.

The resolution provides for the formal filing of such information with the president and the executive committee for investigation. Results of these investigations should then settle all controversial issues.
