

Hays Addresses Group

Jo Hays, superintendent of local schools, addressed members of a physical education group in the Main Engineering building Friday. Mr. Hays' topic was "Physical Education Friction in the Public School System."

Upon observing the notice, "Dates assigned for English exams," a University of California student remarked, "There are hardly any more functions here where a gentleman can go stag."

with HENRY HULL, Phillips Holmes, Jane Wyatt, Florence Reed, Alan Hale.

Caribbean Waters Lure Campus Band

Bermuda . . . the West Indies . . . Palm Beach suits . . . dusky-skinned maidens . . . Panama Canal . . . warm indigo-blue water of Southern seas. What a way to spend the coming Christmas vacation!

"I'm so tickled I don't know what to do," Lynn Christy '35, leader of a campus orchestra, the Penn Statesmen, said Thursday night when informed, after an audition, that his band has been selected to play for the Christmas Cruise of the Cunard liner, Georgia.

The boat will leave New York December 19 and visit Bermuda, the West Indies, Caracas, Venezuela, the Panama Canal, and Colon, returning to port January 2. A representative of the boat line made a trip to Penn State to hear the orchestra in rehearsal Thursday night.

Members of the eight-piece aggregation who will make the trip are Chris Selwitz '35, Robert Weis '35 and Jack Fuchs '37, saxophonists, Harold Rudacille '36, trumpeter, and Jack Samuels '37, trombonist. Les Walters '35 will play piano and Olin Butt '35 bass. Christy will play drums and direct the club.

Women's Fraternities Meet in Debate Final

Alpha Omicron Pi met Delta Gamma last night in the finals of the intramural debate contest. The debate was not yet over when the COLLEGIAN went to press. A silver loving cup, won by Delta Gamma last year, will be presented to the winner.

In the semi-finals held last Thursday, the debaters from Alpha Omicron Pi defeated the team from Grange dormitory. Kappa Kappa Gamma and McAllister hall were eliminated by Grange dormitory and Delta Gamma in the first round of the tournament.

Chambers Returns

Dean Will G. Chambers, of the School of Education, returned from Slippery Rock Sunday, where he acted as a representative of the College at the inauguration of Dr. Charles S. Miller as president of the Slippery Rock State Teachers College Saturday.

Dutcher Will Address Bristol Service Clubs

Prof. R. Adams Dutcher, head of the department of agricultural and biological chemistry, will address a joint meeting of the Rotary and Exchange clubs in Bristol tomorrow night. He will speak on "Impressions of Germany," from conditions observed during a visit earlier this year.

On Thursday, Professor Dutcher will discuss "Recent Developments in Biological Chemistry" before the Philadelphia section of the American Chemical society.

Columbia University reporters, questioning people on the street, discovered that five out of six men think that college students are loafers. The sixth spoke only Chinese.

Warnock Lauds Fraternity System As Aid To College Building and Housing Program

Excerpts from an article which appeared in the New York Times on November 3.

The fraternity system found a staunch defender this week at Penn State in Arthur R. Warnock, Dean of Men, who does not believe that fraternity conditions on that campus will change materially. Dean Warnock has made a study of fraternities at Penn State and at numerous other colleges and universities.

Pointing out that fraternities there are an integral part of College housing plans, Dean Warnock estimated that it would cost the College between \$3,000,000 and \$4,000,000 to duplicate the present housing facilities.

"If fraternities were abolished and the houses destroyed," he pointed out, "the College would be called upon to expend an immense sum of money to provide housing facilities equal to the present accommodations on the campus."

"It seems wholly unlikely that sufficient funds will ever be available for new student housing on the campus. For that reason, the College will continue to look to the fraternities for housing aid," the Dean stated.

He added that because of the geographical isolation at the heart of Pennsylvania, Penn State is peculiarly adapted to fraternity life. The social life of the College is very definitely tied up with the fraternities, and for that reason it suffers very little from "week-end absenteeism," a condition found in many other institutions, he said.

Experimental Station Conducts Seed Tests

In an attempt to improve the seed potato situation confronting Pennsylvania growers, the agricultural experiment station is conducting breeding tests under the direction of Dr. Ernest L. Nixon, professor of plant pathology.

These tests have revealed that more than six thousand seedlings have been grown during the past six years, resulting in various crossings and self-pollinations. One cobbler type has been developed which is remarkably resistant to degenerative diseases.

Lion Bows to Quaker Eleven, 3-0, Saturday

(Continued from page one)

his college career, Harry Sigel was the most colorful back on the field. Some of the most outstanding plays of the game were his punt runbacks. He consistently eluded two and three Red and Blue tacklers.

On the defense, Lou Kreizman was the Lion power, followed by Chuck Cherundolo.

Outdid the Quakers in yards gained was the outstanding man, gaining fifty of Penn's 111 yards.

State's superiority is evident in all the statistics. Making eight first downs to five for Penn, State also outdid the Quaker in yards gained from scrimmage, 129 to 111.

Mikelonis' punts averaged thirty-seven yards from scrimmage, to a thirty-five yard average for Penn. State punted nine times; Penn, eight. State punts were run back sixty-eight yards and Penn punts, seventy-seven yards.

The Lions attempted twelve passes, of which only two were completed, and two were intercepted. Penn tried eight passes, completed three, and had one intercepted. State gained twelve yards on passes; Penn, thirty-nine yards.

Fair enough—

WE tell you that Chesterfield Cigarettes are made of mild, ripe tobaccos. We've told you about the paper—that it's pure and burns right, without taste or odor. We have said that Chesterfields are made right. The tobaccos are aged, then blended and cross-blended, and

cut into shreds the right width and length to smoke right. These things are done to make what people want—a cigarette that's milder, a cigarette that tastes better—a cigarette that satisfies.

You can prove what we tell you about Chesterfield. May we ask you to try them—that would seem to be fair enough.

Strictly on their merits the cigarette that's MILDER the cigarette that TASTES BETTER
