

Fraternity Advisers Consider Proposals

(Continued from page one)

that they cannot be held for all that transpires in the way of revolts, dissatisfaction, and demonstrations. "I do not mean to say that the students should be considered a privileged class, and they must come to

realize that they are not a privileged group but are under the jurisdiction of law and order. 'Residence carries responsibility' is a slogan which every student should have in his creed of ethics," Professor Kaulfuss continued. "I denounce the recent demonstration that was held on College avenue, at which time the fire was built in the middle of the street. The surrounding buildings could have easily burned down before anything could have been done."

Nathan Tells I.R.C. of World Recovery Plan

Enumerating a three-point program necessary for world recovery, Dr. Nathan of Princeton and former financial adviser to the German Reich, addressed 165 delegates and advisers at the final dinner of the Middle-Atlantic International Relations Clubs conference in Nittany Lion Inn Saturday night.

A rebuilt monetary system, free movement throughout the world of a stable economic system, Dr. Nathan declared, are necessary to lift us out of the depression. This, he said, should be done by international co-

goods, capital, and human beings, and operation and cannot be achieved by the nationalistic programs at work in Italy, Germany, and to a smaller degree in this country.

"This depression has taught us that all nations are interdependent," Dr. Nathan pointed out, "but thus far there has been no organization of international scope which has done anything definite towards recovery. All programs which have been undertaken have strengthened barriers between nations."

"We can have no economic recovery while we are threatened with war," the speaker concluded. "America's task in the next few years is to cooperate with those nations which desire peace."

HOTEL NEW WESTON

Madison Avenue at 50th Street NEW YORK

A man and his wife who had just returned from a round-the-world cruise spoke of Chesterfield as "an international cigarette."

Vacuum tin of 50—air tight—water tight—fully protected even if submerged in water.

Chesterfield Cigarettes are on sale in eighty-six countries. You may purchase them on nearly all ships and at almost every port.

We believe you will agree with us that for a cigarette to enjoy such popularity, it must have merit.

In the making of Chesterfield, we do our level best to make it as good a cigarette as can be made.

Smokers say... In almost every language...
