

Scarab Will Publish 'Kindergarten' Chats

Scarab, national collegiate professional architectural fraternity, is publishing Louis Henri Sullivan's "Kindergarten Chats" in book form for the first time.

Thirty-five years ago the architectural principles advocated and propounded by Sullivan were rejected by the profession, but now they are being accepted by the leading architects of today.

Sullivan, a founder and original Scarab member, propounded the idea that "Form Follows Function," an idea thirty-five years ahead of his time.

The publication, edited by Claude Bragdon, will appear sometime this month, and will be a strictly non-profit venture with the sole aim of advancing the architectural profession. Only 1,000 copies are being printed in this edition. Scarab members will be exempt from paying the royalty.

A one-reel movie of student activities on the Colorado Woman's College campus is now being filmed. It will be synchronized with sound and music by a Hollywood studio. Another silly symphony?

Pride of State

CHARLES LAMBERT KINSLOE

Charles L. Kinsloe '03 graduated in the course of electrical engineering. Following graduation, he became connected with the Westinghouse Electric and Manufacturing company of Pittsburgh. He also was in the electric and manufacturing company of Pennsylvania. In the fall of 1907, Mr. Kinsloe joined the teaching force at the College, having taught as an instructor in the electrical engineering department at the University of Pittsburgh. While here, he rose from an assistant professorship to associate professorship to full professorship, until at last he became head of his department in 1910.

Mr. Kinsloe has proved extremely valuable as a technical advisor to various electrical firms, having aided in winning the Bell telephone decision from the Supreme Court a few years ago. He has also been requested to do street lighting for various cities. It is not long ago that his services were used in the light wiring for the streets of Williamsport.

Mr. Kinsloe is a member of the American Institute of Electrical Engineers and of the committee on technical education. He has been a member of the College Board of Directors for many years, and served as its president. He is a member of Sigma Chi social fraternity and is a past Master of the local lodge No. 700, Free and Accepted Masons.

6 Students Withdraw

The following students have withdrawn from College during the past month: Frank F. Acker '37 withdrew on December 4, Willis V. Johnston '38 dropped on November 28, Robert D. Kelso '36 withdrew on December 3, Herbert L. Miller '38 resigned on November 19, Joseph Wallace '38 dropped out on November 27, and Nelson Wood '38 withdrew on December 1. Four withdrew on account of lack of finances, one in order to enter another school, and one to accept a position.

Duke University SCHOOL OF MEDICINE DURHAM, N. C.

Four terms of eleven weeks are given each year. These may be taken consecutively (graduation in three years) or three terms may be taken each year (graduation in four years). The entrance requirements are intelligence, character and at least two years of college work, including the subjects specified for Grade A Medical Schools. Catalogues and application forms may be obtained from the Dean.

'Spike' Leslie Finishes First Lecture of Physical Education Extension Program

Completing a series of basketball lectures, given by "Spike" Leslie, basketball coach, to outside groups, last Wednesday, the School of Physical Education has finished the first lap of its new extension program, which it has undertaken this semester in conjunction with the College extension service.

The program just completed was carried on under the heading of the basketball institute. Coach Leslie spoke at Scranton, Reading, Erie, and other towns where there were requests for outside instruction in basketball. In each of these centers, he presented a program of basketball fundamentals, techniques, and demonstrations.

'Farming Offers Good Possibilities as Hobby,' Prof. Anderson Says

The old adage "Time is money" has failed, according to Dr. Clarence S. Anderson, associate professor of agricultural education. Lack of employment for those who are eager to work and increased leisure for the employed require adjustments to the new mode of living which he considers one of the greatest present-day problems.

"Develop an avocation, have a hobby, particularly a productive one. Engage in side-line activity which will supplement your principal income," Dr. Anderson said. "These suggestions not only solve the leisure time problem but frequently supply much needed money."

Farming, in one or more of its numerous aspects, offers great possibilities as an avocation, a hobby, or a side-line job, Dr. Anderson stated. Many persons who formerly had their time entirely occupied by other things are now finding pleasure, health, and monetary reward through tilling a garden or raising a flock of poultry.

Dr. Anderson said that during the winter the College will offer a large number of practical short courses in agriculture designed to meet the needs of young men who desire to engage in some agricultural pursuit or who wish to supplement their present farming knowledge.

Campus Bands To Play During Holiday Recess

Bill Bottorf and his orchestra, Lynn Christy and the Penn Statesmen, Jim Minium's orchestra, and possibly Fred Zahn and his orchestra are planning to play engagements during the Christmas holidays.

Bill Bottorf has been signed up to play at the Upper Darby high school alumni dance at the high school on Thursday, December 27; at the Charity Ball in Coatesville at the Masonic Temple on December 28; and at the Saucon Valley Country club outside of Bethlehem on December 29 and 31.

Eight members of the Lynn Christy's orchestra will play for the Christmas cruise of the Cunard liner, Georgia. The boat will leave New York December 19 and visit Bermuda, the West Indies, Caracas, Venezuela, the Panama Canal, and Colon, returning to port on January 2.

Jim Minium will play at a dance in Williamsport on December 31. Fred Zahn has been offered a two and one-half week location job in Pittsburgh during the holidays, but contracts have not been signed as yet, on account of complications with the music union.

882 Attend S. U. Dance; Receipts Total \$247.30

With 882 persons attending the first Student Union dance of the year, \$221 was taken in from the sale of tickets. From checking, \$26.30 was received, which brought the total income to \$247.30.

Expenditures included \$75.00 for the orchestra; \$18.95 for College labor and police; \$10.00 for checking; \$5.00 to the ticket seller; \$3.00 to the doorman; and \$10.57 was expended for advertising. This brought the expenses to \$122.52 and the net profit to \$124.78. The next dance will be held sometime in February and will follow a basketball game.

CLASSIFIED

The Penn State Alumni Association will hold a dance at the White Swan Hotel, Uniontown, December 26. George Silver's orchestra will play.

Chemists Test 2,844 Samples During Year

Two thousands eight hundred and forty-four samples were analyzed by chemists of the College agricultural experiment station during the past year, according to Edward S. Erb, associate professor in charge of analysis. In order to learn the composition of various substances, 9,861 separate laboratory determinations were run.

The station chemists analyzed 1,230 samples for the Pennsylvania Bureau of Foods and Chemistry among which were 430 tests of milk, cream and chocolate milk, 130 of ice cream, ninety-two of butter, fifty of candy, twenty-five of non-alcoholic drinks, eleven of cocoa, and fifteen of mayonnaise, 217 were of miscellaneous products.

During the year 509 samples of limestone and lime products, fertilizers, canned goods, tobacco and other products were also examined by the chemists. For other departments of the station, the chemists analyzed 1,105 samples of green corn, hays, feeds, fertilizers, spray residues on apple and apple leaves, and mushroom compost.

Chedsey Re-elected by Coal Mining Institute

Prof. William R. Chedsey, head of the department of mining, was recently elected vice-president of the Coal Mining Institute of America for the second time, at its annual session in Pittsburgh.

One afternoon was devoted to discussing the relation of the United States Bureau of Mines to the mining of coal in all its phases.

Other subjects discussed were mine management, labor, safety, manufacturing, and education. Professor Chedsey presented a paper on education.

W.S.G.A. Collects Fund

Forty-two dollars and fifty cents has been collected by the W.S.G.A. to help a young widow who is without other means of support. She was recommended by Dean Charlotte E. Ray to the members of the W.S.G.A. Senate.

Bedenk, Houck Return

Prof. F. Joseph Bedenk and Leo Houck, of the School of Physical Education and Athletics, returned from Hazleton Tuesday, where they ad-

ressed the West Hazleton football team at their annual dinner. Coach Bedenk spoke in place of "Bob" Higgins, head football coach, who could not attend.

English Plum Pudding		Hard or Run Sauce
	Roquefort Cheese and Crackers	
Tea	Coffee	Milk
Fruit Bowl		Mixed Nuts

the Wellman Process
does this — ...it leaves a clean dry ash—no soggy residue or heel in the pipe bowl

In the manufacture of Granger Rough Cut Pipe Tobacco the Wellman Process is used.

The Wellman Process is different from any other process or method and we believe it gives more enjoyment to pipe smokers.

- ... it gives the tobacco an extra flavor and aroma
- ... it makes the tobacco act right in a pipe—burn slower and smoke cooler
- ... it makes the tobacco milder
- ... it leaves a clean dry ash—no soggy residue or heel in the pipe bowl

LIGGETT & MYERS TOBACCO CO.

We wish in some way we could get every man who smokes a pipe to just try Granger
