

Delegation Enacts Model Government Assembly At Annual Harrisburg Meeting

Dr. Jacob Tanager and Prof. John T. Law, both of the department of political science, headed a delegation of thirteen students from this school at the second annual meeting of the "Student Conference on Pennsylvania Government" held at Harrisburg on April 26, 27, and 28. Thirty-five Pennsylvania colleges were represented. In accordance with the constitution drawn up last year, the meeting was held in the form of a single chambered legislative body.

The main theme of the conference was "Stricter Government Regulations." Forty-six bills concerning many forms of government conditions were enacted. Some of the phases covered by these bills were: reform of unemployment, control of relief, control of natural resources and public utilities, recommendation of income and inheritance tax, a reduction of real estate tax, and new election districts. Many spirited debates were held throughout the conference.

One of the outstanding features of this conference is that faculty mem-

bers are not permitted to express their opinions. Students are given full charge of the meeting. Two students from each college are automatically given votes, while the remainder of the voters are chosen after some discussion has taken place. In this respect, Penn State was honored by having five students elected. The selection of these voters takes place without knowledge of what college he represents.

Those students who represented Penn State were: Robert Gregg, a graduate student, and John Hermandsen '36. These two were automatically given votes, and in addition, Hermandsen was a member of the executive board, and chairman of the committee on social finance. Other voters from here were: Robert F. Cox '35, Harry A. Hill '35, Conwell Welsh '37, Allan Chotiner '37, and Albert Foster '36. Non-voters included Victor L. C. Hasskari '35, Martha J. Bring '35, Nicholas Kuvinka '37, Edwin R. Snyder '37, Wesley Mohnkern '36, and Edward R. Churan '35.

Eddy Declares Hitler's Rise in Germany As Inevitable; Want of Land Responsible

"The rise of Hitler was inevitable—he is simply acting as a drum-major to a nation that has been horribly crushed by the bullying acts of France and the rest of the world, following 'the World War,'" stated Sherwood Eddy, world traveler, author, and lecturer, speaking in Home Economics auditorium, on Wednesday afternoon.

"Germany does not want war," continued Mr. Eddy, "but it does want to gain back practically all of the territory it had previous to the war, and so an extremely dangerous situation has arisen."

Speaking on the topic, "What is Happening in Europe," Mr. Eddy, who spoke last on this campus two years ago, next turned his analytic attention to Russia. "Russia is carrying on the most significant experiment which is going on in the world today," he pointed out. "It should be condemned for its suppression of the press and free speech, and for insisting on atheism, but its experiment in Communism has some admirable traits. It has practically eliminated poverty, unemployment, illiteracy, and prostitution."

"England and the United States, with their laissez-faire capitalism," Mr. Eddy concluded, "have succeeded in establishing, in a great measure, individual liberty in those countries—but at the expense of justice. In Russia, they are attaining justice through a distribution of the work and wealth, but they have suppressed individual liberty. The ideal system will have to include both justice and individual liberty."

Mr. Eddy's second and last lecture of the day was held in Schwab auditorium, where he spoke on "Hot Spots in the Orient," a subject upon which he is well qualified to speak, having recently spent much time traveling and lecturing in that war-torn sector.

Taking the plight of retrogressive China, hemmed in on all sides by enemies and oppressed by poor government from within, Mr. Eddy stated that her only salvation lay in Christianity. Threatened by Japan, who would apply our Monroe Doctrine to China, on the one hand, and Russian Communism already strongly in-

trenched, on the other, the Chinese are threatened with destruction.

"Retarded mentally and physically by her four great faiths, Ancestor Worship, Buddhism, Confucianism, and Daoism, China must embrace a new and progressive religion in order to work out her salvation," Dr. Eddy pointed out. "Two movements, Communism and Christianity, have the elements necessary to life this country out of her rut, but of these two only Christianity can accomplish this because the cruelty which is shown by Communists in China repels the people."

Dr. Eddy vehemently opposed imperialistic war, and was equally emphatic concerning the inadvisability of holding naval maneuvers in the Pacific this summer. Said Sherwood Eddy: "The Japanese, particularly the army officers, are formed into numerous small secret societies. Should a small group of these super-patriots, employing an airplane, drop a bomb, and that event or one similar is not at all unlikely, on a U. S. battleship maneuvering practically under Japan's nose, the United States would immediately be precipitated into a war which ninety-nine per cent of both Americans and Japanese would not want."

In closing, Mr. Eddy exhorted the students of the United States to stand steadfast against war, and to refuse to be affected by militaristic propaganda.

Annual Press Conclave To Meet Here May 7

(Continued from page one)

at the luncheon Monday noon.

A discussion period for sports editors and special feature writers will follow the luncheon and a closed session of the publishers association will be held from 3 to 5 o'clock. Following that, various music groups will entertain the guests.

Entertainment in the form of a golf tournament and a trip to the Alan Seeger memorial forest has been planned for the visiting journalists, while their wives will be entertained at a bridge tea at the Centre Hills Country Club by Theta Sigma Phi, honorary women's journalism fraternity.

To Award Prizes

Sessions Tuesday morning will be devoted to the discussion of daily and weekly newspaper publishing problems. Prizes will be awarded for the outstanding editorial page, for excellence in front page make-up, for local news coverage, and for the best news and feature stories.

The subject of National Relief will be the theme of the banquet which will conclude the conference sessions on Tuesday night. Harry L. Hopkins, Federal relief administrator, has been invited to attend, but as yet the committee has received no definite answer from him.

Senator Guffey, Essary, Rose, and others will speak at the banquet. Others who will speak at the various conference sessions include: Fred Fuller Shedd, editor of the Philadelphia Evening Bulletin; M. V. Atwood, supervising editor of the Gannett Newspapers; Otto Soglow, cartoonist, creator of the "Little Ambassador," and Paul Bellamy, editor of the Cleveland Plain Dealer.

Hort Week Moved Up
Usually a late fall event during the past 11 years at the College, the annual Horticulture Week is scheduled for July 29 and 30 of this year. A field and orchard program is planned.

Conference Planned
Representatives of twenty-five Pennsylvania colleges are expected to attend the Pennsylvania Athletic Eligibility Conference at its annual meeting in Harrisburg today.

The problems to be discussed are: the one year rule, this question concerning transfers from junior colleges, and similar problems that are of interest to those connected with inter-collegiate athletics.
