

It seems easier to invent a poison gas to kill thousands than invent a cure for cancer.

All of Europe, plus India, China and the United States, would just fill Africa.

## Football Squad To Play Practice Match Saturday

Injuries Take Toll on Lion Team; Art Fry, End, Committed To College Infirmary.

By PHIL HEISLER  
A bruised and somewhat crippled Lion football squad will play its first regulation practice game on New Beaver field Saturday at 3 o'clock. The game will be between the Blues and Whites, evenly matched teams selected from the entire squad. Injuries have been playing havoc on the Lion team, keeping Trainer Charlie Spidel busy and Coach Bob Higgins from forming a complete working football machine. Although most of the players returned to school in perfect health, few of them were able to adhere to strict training rules during the summer.

**Fry in Infirmary**  
Art Fry, last year varsity end, has been admitted to the College infirmary. The full extent of his injuries is not known. Among many other varsity aspirants who are out of practice because of injuries are Red O'Hara, quarterback; Harry Latorre, guard, who is suffering a slight leg injury; and Lou Barth, guard, who had a cartilage removed from his leg during the summer. It is doubtful whether Barth will be able to play until after the first game.  
Lee Sunday, an end who saw varsity action last season, had a knee broken in scrimmage last week and will be out of action for the whole season.  
The Blue team is composed of the logical first team according to past performances; however, the first line backfield will play on the White team.

### 3 Lettermen Return To X-Country Squad

By JOHN BRENNEMAN  
With three lettermen headed by Captain Duverney Book returning from last year's cross-country squad, much of the success of Coach "Chick" Werner's harriers this year will depend upon the showing of the sophomores. The other lettermen are Howard Downey and Don Detwiler, both juniors.  
Six sophomore numeral winners have reported. Pete Olexy, who led last year's freshman squad, is probably the best runner, and seems due for a varsity position. Clark Wear, Rubino, Titlow, and Brizel are the other numeral winners. Cirnatis, Baird, Stittler, Watson, Hill, and Haarde are among the outstanding varsity candidates.  
More than 100 freshman and varsity candidates have reported, practice starting Tuesday. Thus far, Werner has concentrated upon getting the squad into good physical condition, and there have been only light workouts.  
The season will open in about a

### Sports Reporters for Fall Season Announced

It is with considerable pride and no trepidation to speak of that we present our fall sports reporters. Our only admission to them was to the effect that they didn't need to know the jargon and the myriads of synonyms as long as they got the facts.  
They are: Varsity football, Phil Heisler; soccer, Townsend Swalm; freshman football, Ken Beaver; and cross-country, John Brenne-man. These writers will not only forecast the games, but will analyze the results with an eye to bringing out features of the play that might have been unnoticed by the man in the grandstand.

### Jeffrey Pleased With Prospects

**Fullback Spot Unfilled, Other Positions Taken; McEwan Still On Crutches.**  
Coach Bill Jeffrey's slight Scotch burr is freighted with satisfaction these days as he watches the 1935 edition of the Lion soccer team cavort on the local sward, and well might it be. The search for another fullback goes on unabated, but the other positions seem to be well taken care of.  
Bill McEwan is still on crutches, and even with the best of luck will be compelled to miss the first two games on the schedule. All of the other regulars are back. The two sophs most likely to break into the lineup are Miehoff and Wacker, both forwards. The latter may start at outside, with Corbett being shifted to center forward until McEwan returns.  
On form, the first game with Gettysburg will be a warm-up tilt, with the second game, against Temple, somewhat more difficult. Last year the Owls, by forgetting that they had an offense, concentrated on the defense so strongly that the Lions were held at bay until five minutes before the final whistle, when Masters scored the only goal of the game.

### Harvey Gets Position

George "The" Harvey '35, captain of last year's cross-country and track teams, is now Athletic Director at the Mont Alto Forestry School. Harvey is also teaching Botany there.

### Between The Lions

Coach Bob Higgins' quest for a punter might have been ended by now—only the player in question has decided that a pro grid career would be more to his liking. The player, Bart Rado, is reported as joining a pro outfit at Shenandoah, near his home town on Berwick. Rado's specialty is long, soaring punts—but Rado has gone, and any number of Lion hopefuls are trying for the elusive knack of timing that produces the long ones.  
In the meantime, kickoffs, field goals, and other uses of the place kick are being concentrated upon, with Vonarx, a sophomore, turning in a nice job. He kicks effortlessly and with more than usual accuracy, and given a line to work behind, should be able to produce some points.  
The football scout must not only have a prodigious memory for plays and players, but must also be of a philosophical turn of mind. He coaches for half the season and then scouts the opponents all during the playing season, counting himself lucky to be able to get any glimpse of his own team in action before the finale.  
—W. E. F.  
month with a meet with Lehigh October 19. The varsity will have three other dual meets and the freshmen two. In addition, teams will be sent to the I. C. 4-A. meet in November.

## DON'T START TO CLASSES Without School's Finest Tool!

The Parker Vacuum—Invented by a University Professor to replace pens that suddenly run dry in Classes and Exams  
Holds 12,000 words of ink—10% more than old style... When held to the light you can see the Ink Level—see when to refill!  
The marvelous new Parker Vacuum is no more like the pens of yesterday than your 1935 car is like a '25 model.  
It's the identical pen you've often said that someone ought to invent.  
Scores of inventors tried to—fully 250 sacless pens were patented before this miracle writer was born. But none found a way to surmount the mechanical faults of squirt-gun piston pumps, valves, etc.  
Then a scientist at the University of Wisconsin conceived the Vacuum. And Geo. S. Parker, world's leading pen maker, agreed to develop it because it contained no rubber sac or lever filler like sac-type pens—no piston pump as in ordinary sacless pens.  
That's why Parker can—and DOES—guarantee the Vacuum MECHANICALLY PERFECT!  
Because there is nothing else like it, the United States and foreign countries have granted Parker patents.
