

Amongst plants which furnish soil, and different sorts of wine are beverages, the vine is very susceptible produced from the various vine-grow-to the influences created by differences in districts of the world.

123 Freshmen Report To Walke for Squad

By KEN BEAVER
One hundred and twenty-three candidates for the freshman football team have received uniforms during the last three days, according to Nelson Walke, freshman coach. With the first game with Mercersburg just two weeks away, Walke has started fast, giving the squad defensive scrimmage yesterday and preparing for scrimmage with the varsity next week sometime.
The men who have already reported as line candidates do not appear to be as heavy as last year's men, but Coach Walke expects more candidates after all the newcomers get straightened out.
The Mercersburg game comes October 5 and will be played at Mercersburg. The Mercersburg team lost only one game last year, the one they played with the Lion Cubs, by a score of 12-0.

The true lesson of the "contrast between the ideal of Christianity and the actual facts of human life is not so much that of the failure of Christianity but of the immense difficulty of the task it has undertaken.

We have grown used to the idea of thinking that the capitalistic system is something that can be squeezed and is well able to grant constantly fresh concessions if only sufficient pressure is applied.

One of the most notable innovations in science during the past thirty or so years has been the creation of the science of biochemistry; the science of the chemistry of life-processes.
